LA JOYA COMMUNITY HIGH SCHOOL

Led by Principal Dr. William Sorensen

MOTTO

Post-secondary success through high levels of learning!

MISSION

La Joya Community High School will prepare and empower all Lobos for post-secondary success.

VISION

La Joya Community High School is an ethical community of continuous growth where all Lobos learn at high levels.

a Joya Community High School is a Title 1 school within the Tolleson Union High School District. The school lives by the following values:

Celebration: We will visibly celebrate our students in classrooms and across campus. We will offer meaningful rewards for our students' accomplishments.

Respect: We will model respect for everyone starting day one. Active Listening will be a part of respecting each other. We will be kind to all Lobos.

Honesty: Interactions are based in transparency and integrity. All Lobos hold themselves and each other accountable. We will be honest and vulnerable with each other.

Evidence & Data Usage: We will analyze student data to guide instructional decisions. We will develop and implement CFAs to monitor student's learning. We will share student achievement data with students and the community.

Curiosity: We will try new strategies and step outside of our comfort zone. We will foster curiosity in the classroom through engaging and purposeful instruction.

Collaboration: We will engage in ongoing professional development that prioritizes collaboration and enhancement of professional skills. We will collaboratively create instructional strategies that promote success for all students. We will create opportunities for students to collaborate during instruction.

Rigor: We will provide scaffolding for all students to reach high levels of thinking. We will study, clarify, align, and pace curriculum guides with state standards.

Relationships: We will know our students (family history, interests, and postsecondary aspirations). We will know our students' dreams/goals and connect them to our instruction (relevance). We will build confidence in our students to actualize pathways to future dreams.
