

A NOTE FROM *Katie Salch*

Hello Student Choice High School!

Want to get a step ahead of your mentor? They are going to be introducing you to SchoolLinks soon. We are excited to announce that we have an updated system to work on your post-graduation goal setting that you have been doing with your mentors. SchoolLinks, which some of you might have used in the past, let's you use your computer or cellphone to work through the planning process and your mentor can see it on their side.

Your first step is to log in and take the short survey. It will take you about 5 minutes to complete. Are you ready? Click into App.schoollinks.com and log in with your clever information. If you can't remember it, use the Claim Account button at the bottom with your student choice email address. Still not working, reach out to your mentor for support. The language can be adjusted in the top right corner once you click in.

!! IMPORTANT: You must click Go to dashboard to complete the onboarding process
