

YOU'RE INVITED!

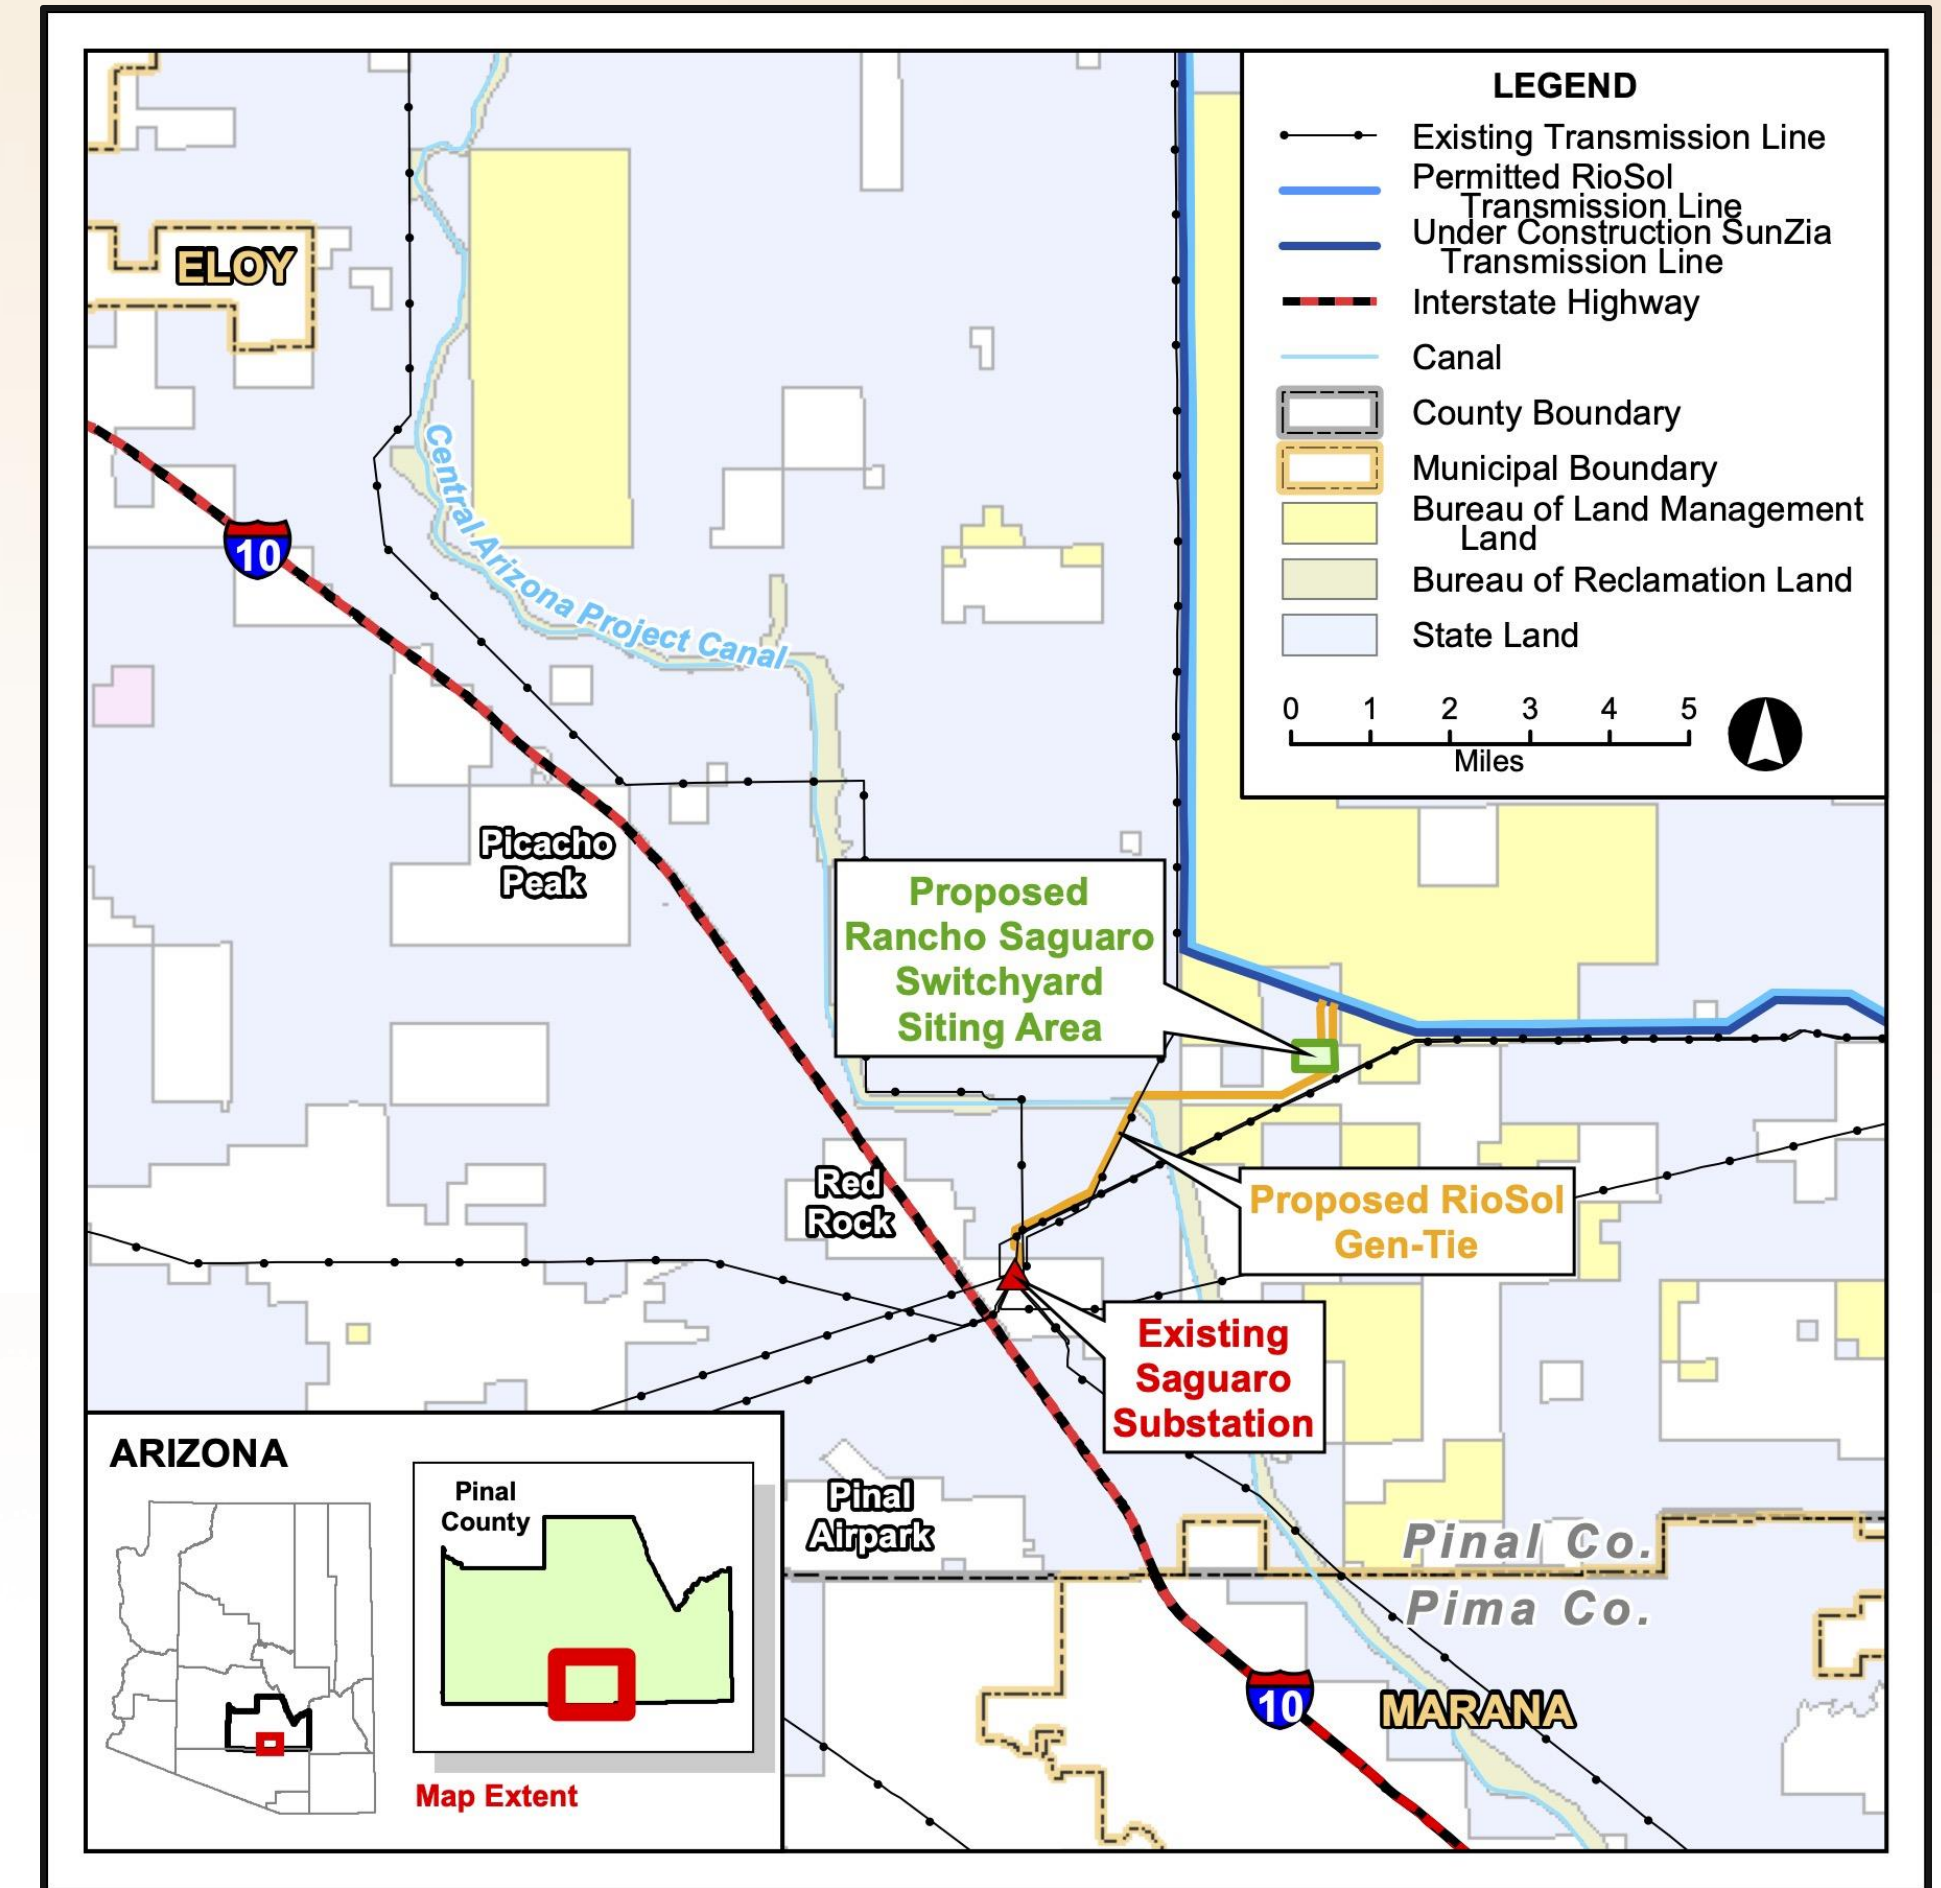

RioSol to Saguaro Interconnect Project Upcoming Open Houses

The proposed RioSol to Saguaro Interconnect Project (also known as the Saguaro Interconnect or the Project) is a proposal to build a new 500 kV infrastructure that would allow interconnection of the permitted RioSol Transmission line to the existing Arizona Public Service (APS) Saguaro Substation. The Project is located east of I-10 near Red Rock Village, Arizona, in South-Central Pinal County. The Project would be approximately six miles in length and includes a switchyard.

El Rio Sol Transmission, LLC will apply for a Certificate of Environmental Compatibility (CEC) for the Saguaro Interconnect from the Arizona Corporation Commission (ACC). The CEC process includes public hearings with the Arizona Power Plant and Transmission Line Siting Committee before seeking final approval from the ACC. Hearings before the Line Siting Committee will begin on October 6, 2025, and will be held locally near the Project. More detailed information about the CEC hearing, including the exact date, times and location, will be posted on the Project website when available.

Open Houses were previously held in June 2025. We are hosting a second round of virtual and in-person open houses for the public to learn about the Project and provide input.

Information about the open houses and registration is on the back.

Virtual Open Houses

Tuesday, August 5, 2025

12:00 PM and 5:30 PM

This will be a zoom meeting, and registration is required to receive the meeting link.

In-Person Open House Meeting

Wednesday, August 6, 2025

4:30-6:30 PM

Red Rock Elementary School

20854 E. Homestead Dr.

Red Rock, AZ 85145

This will be an open house format and registration for this event is encouraged but not required.
