2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

Accelerated Charter High School (ACHS) is located at 4136 North Mooney Blvd. in Tulare. The school's enrollment shall not exceed 180 students, as the small school size is key to the overall success and implementation of Accelerated Charter High School's objectives. The school year will consist of four, 9-week grading periods, where the student can earn 32 credits per grading period, for a total of 148 credits per school year, versus 70 credits earned in a traditional high school setting in the Tulare Joint Union High School District (TJUHS). ACHS serves credit-deficient students within the TJUHS in the 11th and 12th grades. Priority is given to seniors not on track to graduate from the traditional school sites. Sophomores are considered at the last 9-week session of the school year, and Special Education students will be considered on a case-by-case basis, depending on the available space. English Language Learners (ELL) with an English Language Proficiency Assessment for

2025-26 School Description and Mission Statement

California (ELPAC) score of 3 or higher who meet the additional enrollment criteria will be eligible to attend. Expelled students are not allowed at Accelerated Charter High School. Discipline-related issues will be discussed and assessed before admittance, and any other students not meeting this criteria will be considered on a case-by-case basis.

Accelerated Charter High School is nonsectarian in its programs, admission policies, employment practices, and all other operations. Accelerated Charter High School shall not charge tuition nor discriminate against any pupil or applicant based on ethnicity, gender, religion, national origin, sexual orientation, disability, or place of residence. Students attending ACHS are offered an individually designed, standards-based educational program that provides the foundation to graduate high school and be college- and career-ready. College and career readiness will be achieved through a strong partnership with the College of Sequoias (COS) by offering various career technical education (CTE) courses that will lead to opportunities for industry certification, transferrable credits, and matriculation. Students graduating from Accelerated Charter High School will have the skill set necessary to continue their college education and pursue a career of their choice. The Accelerated Charter High School education plans consist of short and long-term goals to meet the specific needs of each student. These goals reflect the Common Core State Standards approved by the California State Board of Education and the graduation requirements of the TJUHSD.

Vision Statement

Accelerated Charter High School provides a safe, positive, and nurturing environment to empower students to achieve personal, educational, and career goals. The uniqueness of each individual will be embraced through a student-centered and engaging curriculum, relevant experiences, community collaboration, and positive relationships.

Mission Statement

The mission of Accelerated Charter High School is to provide a positive learning environment that meets the needs of all students to be college and career-ready by offering hope, direction, and the skills needed to become contributing members of the global community.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2025-26 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The Tulare Joint Union High School District held a public hearing on September 19 of 2024 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, and science lab equipment pursuant to the settlement of Williams vs. the State of California.

All students, including English Learners, are required to be given their own individual textbooks and/or instructional materials (in core subjects), for use in the classroom and to take home if necessary. Additionally, all textbooks and instructional materials used within the district must be aligned with the California State Content Standards and Frameworks, with final approval by the Board of Education. The table displays information collected in September, 2024 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements

Accelerated Charter High School has a custodian to ensure the safety and cleanliness of the facility on a daily basis. The campus is well maintained and the grounds are kept up to date and cleaned on a weekly basis. The fire alarm system has been updated, enhanced, and tested multiple times to ensure the safety of the ACHS students and staff. The intercom system has been updated and tested to allow for emergency messages to be broadcast campus wide. Improvements have been made in classrooms as well as two shop facilities on campus. Recently the HVAC system has been updated on campus with up to date systems throughout.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

Mathematics (grades 3-8 and 11)	0	5	18	23	35	37

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. 2024-25 Career Technical Education Programs

Our mission is to empower all students to graduate with college, career, and life-readiness skills. The school addresses the needs of all students including career preparation through student CTE programs, Teacher professional development, industry collaboration, as well as student guidance and counseling from school personnel regarding career paths and courses of study. Job fairs, work experience and work-based learning activities, career internships, use of technology, hands-on projects, and community service projects are made available to heighten student awareness and provide relevant experience to foster success in education, training, and employment beyond high school.

Accelerated Charter High School provides an electrical program to all interested students. We have partnered with our local community college, College of the Sequoias (COS), to provide two courses to ACHS students. This dual enrollment course provides not only high school credit but college units as well. Students can take two out of the five necessary courses to become certified electricians. They are encouraged to continue in the postsecondary field, receive their certification, or continue at COS for eight more classes to become licensed electricians. These courses are provided during a student's regular day schedule on the ACHS campus. The school also includes entry-level courses in horticulture, welding, and small engines from a credentialed high school instructor. All program courses are aligned with the California (CTE) Career Technical Education Curriculum Standards.

The CTE District Advisory Partners play an important role ensuring that CTE programs are effective, relevant, and aligned with industry standards and needs. They assist with preparing our students to be college and career ready, bridging school

education and the workforce by bringing industry expertise, resources, and connections. They ensure students receive relevant, high-quality training. These partners are representatives from our local businesses, industries, higher education, and community organizations. Their involvement ensures that CTE programs meet both the current and future demands of the job market. Below are some key roles and responsibilities of CTE Advisory Partners:

- Curriculum Development and Evaluation
- Workforce Trends and Labor Market Information
- Work-Based Learning Opportunities such as job-shadowing, internships, etc.
- Industry Certifications
- Program Evaluation and Improvement
- Networking and Community Engagement
- Resource and Equipment Donations/Recommendations
- Professional Development and Training for Educators
- Employer Engagement - Connecting Students with potential employers
- Ensuring Student Equity and Inclusivity

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2025-26 Opportunities for Parental Involvement

ACHS has a unique population of students and families. Many of our students come from blended families or single-family households. Several students come from homes where grandparents, aunts, and sisters raise them. We provide "Back to School Night" to meet our new students and families each year. We also do a one-on-one intake meeting with every student and primary caregiver before enrollment to give them an overview of our program and provide them with opportunities to be

2025-26 Opportunities for Parental Involvement

involved with their student's academics. Families can also participate in our School Site Council, which meets quarterly and our English Learner Advisory Committee. We provide Titan Celebrations every nine weeks to celebrate students' success, inform all families about activities at ACHS, and receive input on how we can best serve our students and families. The Admin staff provides essential information during these meetings, such as Title 1, SSC, ELAC, LCAP, PBIS, and College Enrollment (FAFSA), CTE Programs, and other critical information about opportunities for students and families to be involved in the success of their students.

2025-26 School Safety Plan

The safety of students and staff is a primary concern of Accelerated Charter High School. All guests who arrive are greeted in an isolated reception area and cannot enter the school until they are allowed in. All guests who visit the campus must sign in before approval of entrance. ACHS has a full-time Sheriff Deputy and two security guards on campus. They provide safety and awareness of all the expectations on campus. Student supervision is provided by all administration staff, security guards, and school SRO. All staff are trained yearly in ALICE: Active Shooter Response Training and receive CPI training: Crisis Prevention Intervention every other year. Staff and students participate in four fire drills, two active shooter Drills, an Earthquake drill, and a disaster drill yearly. Staff are re-trained each year in August and receive their red “In Case of Emergency” folder, with up-to-date guides and roll sheets. Each folder provides a quick reference sheet on what to do in a disaster or emergency. These folders are provided to all substitutes when they arrive for the safety of the students.

Administration staff updated The Safety Plan in August 2025. The Safety Plan was reviewed and approved by the ACHS School Site Council on November 18, 2025. The Safety Plan will be taken for Board Approval in February 2026.

2022-23 Secondary Average Class Size and Class Size Distribution

This table displays the 2022-23 average class size and class size distribution. Professional Development

Student Achievement Data is monitored regularly by the District and sites. Based on the data we have a number of areas that have been the focus of professional development. We continue to refine the PLC process and focus on aligning curriculum, grading, instructional practices, and interventions. In addition, ensuring appropriate supports for our Emerging Bilinguals, Special Education, and other minority student groups is in the forefront of our professional development activities.

Professional Development activities are provided to staff at the beginning of the school year. There are several online trainings that staff must complete that are mandatory training activities. There are also in-person professional development activities that are provided, based on feedback from both teachers and administrators. These activities are centered on supporting classroom

Professional Development

instruction, student behavior, and other supports needed.

The District provides Instructional Coaches in the areas of math and ELD. These coaches conduct coaching cycles with teachers as a form of professional development to improve instruction. They also spend time in the classrooms supporting teachers on instruction.

The district has contracted with Solution Tree to provide training and support to our PLCs as they continue to focus on the hard work of Collaborative Teams. The District continues to provide professional development to the core departments providing support in their process of aligning curriculum with the California Common Core State Standards, instructional strategies, and intervention practices. Instructional Technology is another highly supported area. A majority of the professional development activities are conducted during the school day with teachers being provided substitutes so they can attend the PD sessions required by the District. There are also opportunities to teachers to participate or request individual support from the coaches or access to workshops, seminars and conferences. The District has also contracted with Tulare County Office of Education to provide Building Thinking Classrooms training in the fall and spring to teachers in Math, English, Science, and Social Studies.

Additionally, staff are trained in Youth Mental Health training, CPI (Crisis Prevention Institute) training, PBIS (positive behavior interventions) and much more.
