Guidelines to help your Tween/Teen Learn Safe Cell Phone Use

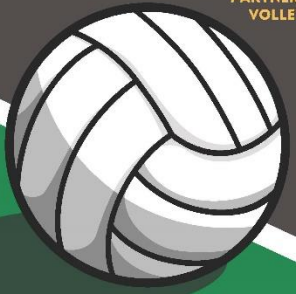

- Have your child turn their cell phone in every night before bed. Lock it up in your room.
- Set limits of time usage. Especially for Social Media.
- Keep phone locked up in the morning until your child is ready for the day. It is important for kids to learn that it is not the first thing they need to check in the morning.
- Turn off push notifications. Tween/Teens need to learn not to jump at every buzz, beep.
- Have Screen Free Days/Hours when phone stays locked up.
- Take back dinner. No phones at the dinner table
- Check your child's phone. Do not depend on filters to protect your child from inappropriate sites. Filters give us a false sense of security.
- Set parameters of when, where, and how much time they can be on Social Media.
- Teach your student to turn off the device and report anything they may accidentally see that is concerning.
- Keep lines of communication open to help your child learn how to safely navigate the digital world.
- Teach your child about good digital citizenship.
- Teach them that anything you send through text, Instagram, Snapchat, etc. you can never get back.
- Educate yourself. Remember you are in charge!
