Our goal is simple: to ensure that every student and family has access to resources they need to succeed- both inside and outside the classroom.

Community Resource Coordinator- We connect students and families with essential community services that support everyday needs. This includes assistance with clothing, school supplies, food, housing, transportation, employment opportunities, financial literacy, childcare, and educational support. We also help families access legal, medical, and utility assistance when needed. In addition, we provide referrals for counseling services that address important issues such as anxiety, grief, substance abuse, and domestic challenges.

To access assistance families may reach out to their guidance department or contact me directly through the provide contact information.

SAP Liaison- Strengthens support by working directly with students and families within the school district. The liaison meets with students, conducts screenings to better understand their specific needs, and identifies appropriate community resources that can make a meaningful difference in their lives.

To access assistance families may reach out to their guidance department or contact me directly through the provide contact information.

By partnering with schools, families, and community organizations, we create a network of support that removes barriers to learning and helps students focus on what matters most-their education and future success.

Together, we can ensure that no student falls behind due to unmet needs.
