PHLEBOTOMY

Basic & Advanced

Class Schedule: Tuesday 5:30 pm - 8:30 pm

Skills Lab: Wednesday 2:30 pm - 4:30 pm

A phlebotomist collects blood samples for laboratory testing by means of venipuncture and capillary puncture. In addition to phlebotomy, the coursework includes all educational components required by the State of California for entry-level phlebotomists and will prepare the student for the national exam required for state certification.

TULARE
