QUEEN CREEK UNIFIED SCHOOL DISTRICT EDUCATIONAL PROGRAMS

NOTICE OF NONDISCRIMINATION

Annual Public Notification of Nondiscrimination Queen Creek Unified School District does not discriminate on the basis of race, color, national origin, gender, age, or disability in admission to its programs, services, or activities, in access to them, in treatment of individuals, or in any aspect of their operations. The Queen Creek Unified School District does not discriminate in its hiring or employment practices. This notice is provided as required by Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, and the Americans with Disabilities Act of 1990. Questions, complaints, or requests for additional information regarding these laws may be forwarded to the designated compliance coordinator(s). Steve Ray, Director of Special Education, 20217 E. Chandler Heights Rd., Queen Creek, AZ 85142. 480-987-5935.

Notificación de Non Discriminación (Spanish Version) Queen Creek Unified School District no discrimina raza, color, nacionalidad, género, edad, o incapacidad de admisión a sus programas, servicios, o actividades, en acceso a ellas, en el tratamiento a individuos, o en ningún aspecto de sus operaciones. El Queen Creek Unified School District tampoco discrimina en sus contratos o prácticas de empleados. Esta noticia es provista y requerida por el Título VI del Acto de Derechos Civiles de 1964, Sección 504 del Acto de Rehabilitación de 1973, Título IX de la Enmienda Educativa de 1972, en el Acto de Era de Discriminación de 1975, y el Acto de los Estadounidenses con Habilidades Diferenciadas de 1990. Preguntas, quejas, o para más información con respecto a estas leyes pueden remitir por al coordinador de complacer. Steve Ray, Director of Special Education, 20217 E. Chandler Heights Rd., Queen Creek, AZ 85142. 480-987-5935.

COMPLIANCE STATEMENT

The Queen Creek Unified School District No.95 affirms its intent to comply with all federal and state laws relating to prevention of discrimination. All courses, services, activities, and employment opportunities are offered without regard to race, color, creed, national origin, age, sex, or handicapping conditions.

The lack of English language skills will not be a barrier to admission and participation in Vocational Skills.

General Information

This catalog lists the high school courses offered at QCUSD. Students should carefully consider the information in this catalog so they can make informed decisions about their course of study while attending QCUSD. Counselors are available to assist students and answer questions about their schedules.

Please note the following:

- It is important to review graduation requirements before making course decisions.
- Universities, colleges, and vocational schools have entrance requirements that may exceed high school requirements.
- Check for prerequisite requirements before enrolling in a class.
- It is important that students make thoughtful course selections during the spring registration period because course offerings and teacher assignments are based on the spring registration numbers.
- Acceptance of transfer courses from sources outside of Queen Creek Unified is not automatic. Please meet with a counselor to determine how credit will be transferred before enrolling.

All information regarding course and graduation requirements is subject to change pending legislation and state mandates. This course description catalog lists courses available at Queen Creek High School, Eastmark High School, and Crismon High School. Although a course is listed, it will not be offered unless the school has sufficient resources and a sufficient number of students registering for the course. Course availability and offerings may change throughout the school year. Student schedules are always subject to change due to school-wide changes to the master schedule and class balancing.

Absences

An absence is defined as a student not being present in their assigned classroom during his/her assigned period. An unexcused absence is any absence from one or more class periods, which has not been excused by a parent **and** does not meet the excusable absence requirements. Truancy is defined as five days of unexcused absences. A student who reaches ten absences, excused or unexcused, during a semester may lose credit in the class or classes in which the ten days are recorded. The following procedure will be followed:

- Parents will be notified when students reach five, seven, and ten absences.
- When students reach eight or more absences, they will sign the Audit Notification warning during a conference with administration.
- If students exceed nine absences for any one class, they will be placed on audit status for that course.
 - Students will remain in the class on audit status and may lose credit.
 - Students must complete and submit the Excessive Absence Appeal Form, including proper documentation verifying the absences.
 - Administration will determine whether the appeal is granted.

Course Credit

- A unit of credit is granted for work completed in a course meeting one period daily for the academic year. One-half unit of credit is granted for work completed in a course meeting, one period daily for one-half the academic year (one semester).
- Students who wish to earn high school credits at sites other than a QCUSD high school must meet with and receive approval from a counselor before enrolling. This ensures that credit will be granted and clarifies the process for transferring the credit. Please review the distance learning and concurrent enrollment expectations. For credit to be awarded, the transfer credit must be submitted to your QCUSD high school on an official high school transcript with prior counselor approval. The QCUSD Registrar **must** receive distance course grades one week prior to the end of the current school year in order for credit to be earned that school year.
- Students will receive one or more training sessions in cardiopulmonary resuscitation (CPR), using age-appropriate psychomotor skills. CPR instruction and training is a graduation requirement that took effect in July 2019.
- If a student withdraws from a semester course after the 20th day, the student will receive a grade of WF (Withdrawal/Failure), which will appear on the permanent record and be calculated into their GPA. The WF grade will be used for Honor Roll and class rank calculations. The WF will be replaced with the new grade once the student successfully completes the dropped course. Administrative approval is required for late "drops."

Course Selection and Schedule Changes

Selecting courses is an important process that involves students, parents/guardians, and school personnel. Course selections for the following school year will begin in the fall. After reviewing course offerings and considering a student's long-term goals, a full schedule of classes is selected. Although there is no guarantee that a student will receive a schedule with all of the requested choices, every attempt is made to ensure that schedules are correct and accurate. Students/families may request a schedule change during the summer prior to the start of school. However, keep in mind that schedule changes will only be made after school begins if an error has been made or it is in the best interest of the student. Requests to change a schedule for a period, lunch, or staff change will not be approved. Schedule change requests are available during the first 10 days of each semester and may require parental and administrative approval. We expect that students will thoroughly discuss their desire to change their schedule with parents/guardians and staff, keeping in mind the possible consequences for graduation, class rank, career preparation and college admission. Athletes and students involved in extracurricular activities should pay special attention to the consequences of dropping a class and its effect on eligibility.

Early Graduation

Early graduation candidates must meet all requirements, and early graduation must be deemed appropriate for the student's continued education.

- All graduates must complete an early graduation request form during the first half of the semester prior to the projected graduation date. The early graduation form must include signatures from the counselor, administrator, parent, and student.
- An early graduation plan with a course outline must be included. (It is the student's responsibility to submit this plan.)
- Continuation of a post-secondary education plan should also be included.
- High school grades should indicate that high school competencies are in place.
- Diplomas will be awarded at commencement.

Transfer Students

Transfer students are expected to enroll in a full schedule when they transfer into the high school and are responsible for meeting QCUSD graduation requirements. Coursework completed outside the District will be evaluated to determine if credit will be awarded. In accordance with QCUSD policy, transfer students must earn at least three credits from QCHS, CHS or EHS or file an appeal for graduation consideration with the principal.

Students Registering After the 20th Day of the Semester

Students who have not been enrolled in a school or do not bring transfer grades after the 20th day of school will be placed on an audit status until the teacher determines that the student has mastered the missed content and can be awarded a semester grade. Students will not automatically be given credit for an audited course; they must demonstrate mastery of the content for the entire course.

Outside of QCUSD Concurrent Enrollment / Computer-based / Distance Learning

Four credits from correspondence or distance learning courses may be accepted toward graduation requirements from providers outside QCUSD. Students may take only one of these courses per school year. Students are required to consult with their counselor and receive prior approval before enrolling in courses outside QCUSD to ensure that the credit will transfer properly. Core courses (Math, English, Science, Social Studies and World Language) will only be accepted for concurrent enrollment from institutions that provide a proctored final exam. If a proctored exam is not offered, students will be required to participate in the QCUSD test-for-credit process, and credit will be awarded in the form of a P (pass). It is the student's responsibility to make sure that any course taken complies with the NCAA Eligibility Center (Clearinghouse) requirements, if applicable.

QCUSD Online Learning Options

- **Queen Creek Distance Learning Courses** - Students may enroll in courses through our online learning program to get ahead in credits or recover credits while attending one of our high schools full-time. Students remain on their home campus with their full course load and complete their online class on their own time with support from certified QCUSD staff. Students must work with their counselor to ensure they enroll in the appropriate course. Cost: \$250/semester.
- **Queen Creek Learning Lab - The Learning lab** is a placement option for students who are credit deficient. Once a student is placed in a learning lab, they will report to the learning lab location to work on virtual coursework. As students become on track for graduation they may return to mainstream classes.

- **Queen Creek Virtual Academy (QCVA)** - Students may choose a fully online learning environment through QCVA. Students must enroll with QCVA and will complete coursework at home with support from certified QCUSD staff.

Junior High School Credit

Junior high school credit for Algebra 1, Geometry and/or Spanish 1 will be accepted from accredited Junior Highs when a student earns a C or higher in the class during 8th grade. Students who do not earn a C may participate in a test-out process to show their proficiency. If a student passes this assessment with a 70%, the D from their 8th grade year will be honored. Grades will be recorded on the student's transcript. Junior High (8th-grade) courses will count as electives for graduation requirements. Please note: All QCUSD students are required to take four math credits at the high school, in addition to any high school courses they completed in junior high.

College Credit / Dual Enrollment

High school students can earn college credit through dual enrollment courses. All Queen Creek High Schools, in partnership with Maricopa Community Colleges, Grand Canyon University, and Arizona State University, offer a cooperative program that allows students to earn both high school and college credit. These classes are held on the high school campus as part of the regular school day. To receive college credit, students must pay tuition to the college and may need to pass a placement test. The registration and tuition payment process is handled through the college. Upon successful completion, students may transfer credits to other colleges or universities; however, each institution determines its own acceptance and applicability of transfer credits. Courses offered for college credit are noted in the course description catalog. See the Guidance and Counseling Department for a complete list of dual enrollment courses.

NOTE: Required high school classes cannot be taken at a college for a replacement grade without prior administrative approval. The amount of high school credit issued will vary according to type and amount of credit transferred from the college. Please contact the High School Counseling Department for assistance in determining transfer credits prior to enrolling.

Test for Credit

The purpose of the Test for Credit is to allow students to demonstrate course competencies instead of completing the course. Students who take courses at another institution without a proctored exam may use the Test for Credit process to earn credit for those courses. Students who believe they are proficient in a core course may request a test-out exam within the first 10 days of each semester. Students may attempt the test only once per core course. Those requesting to test out for a year-long course must complete a test for both semesters. The District does not provide study guides, textbooks or other forms of assistance. Credit will be awarded in the form of a P (Pass) on the transcript only if the score is 70% or higher (this grade will not be calculated into the GPA). Once credit is awarded, a student may not take the course for credit or a grade.

Repeated Courses

- Students who want to improve their grade in English, Math, Science, Social Studies or World Language courses may repeat the entire course to raise their grade. Transcripts will reflect a RPT (Repeat) for the first attempt and the repeated course grade for the second attempt. The improved course grade will be the grade of record and factored into the GPA.
- Credit recovery courses are offered for students who are unsuccessful in earning credit in a course. Students may take the credit recovery version of the course online. Students who complete a credit recovery course will earn credit. No grade will be recorded; the credit will be noted as a P (Pass).

Graduation Deficiencies

Seniors with graduation deficiencies will not be allowed to participate in graduation ceremonies.

Grades

Students attending QCUSD schools will be assessed using the following grading scales.

Grading Scale	GPA Calculation	Weighted GPA Calculation
A=90-100	A=4.0	A=5.0
B=80-89	B=3.0	B=4.0
C=70-79	C=2.0	C=3.0
D=60-69	D=1.0	D=2.0
F=0-59	F=No credit	F=No credit

Pass/Fail grades are awarded for Teacher Aide, Peer Tutor and Parallel Learners programs, as well as when a student tests out of a course. A grade of P does not affect the grade-point average and does not count toward Honor Roll. According to NCAA guidelines, a grade of P is interpreted as a grade of D.

Additional Grades

- NCR No Credit: Students receive this grade when they have met course requirements but have not met the attendance requirement.
- INC Incomplete: An incomplete grade must be made up no later than two weeks after the quarter/semester ends.
- NG No Grade: Usually given to transfer students when transcripts have not arrived or the student was not in school for a long enough period to attempt a grade.
- W Withdraw: Used in exceptional circumstances
- WF Withdraw Fail: Students receive this grade when they withdraw from a course after the 20th day of each semester.

Grading Information

Teacher gradebooks will reflect 3 categories of grades: 40% Assessments, 40% Assignments and 20% Final. Teachers will assign a category to each assignment they enter. Grades are cumulative for each semester. Students may redo assigned tasks at the teacher's discretion. Students must request a redo within two weeks of the original grade posting and/or prior to the summative assessment for the unit.

Note: Gradebook comment codes for late, missing or absent work will automatically score the task as 0 until a grade is entered.

Honor Roll

- Students must be full-time students.
- Students must have A's and B's.
- Students must have a weighted grade point average between 3.500-3.999 for Honor Roll.
- Students must have a weighted grade point average of 4.00 or above for the Principal's Honor Roll.
- Students who are on the Principal's Honor Roll for three consecutive semesters will receive an Academic Letter Certificate at the Academic Awards Ceremony.

NCAA (National Collegiate Athletic Association) Eligibility

All prospective student-athletes who intend to participate in NCAA Division I or II athletics must register with and be certified by the NCAA Initial-Eligibility Clearinghouse. *The NCAA requires a specific grouping of courses, which must be taken in grades 9–12; however, in limited cases, the NCAA may accept select 8th-grade credits if they are included on the high school transcript and meet NCAA criteria.* See the Guidance and Counseling Department for details and any possible changes in registration procedures. According to NCAA guidelines, a grade of P is interpreted as a grade of D.

Scholarship and Financial Aid

Specific information regarding college scholarships and financial aid may be obtained from the advisor in the College and Career Center.

Valedictorian

- Candidates must have a 4.0 cumulative *unweighted* GPA.
- Candidates must have been enrolled at the high school for three consecutive semesters.
- All online courses must be completed by the end of the seventh semester (end of semester one of their senior year).
- The candidate with the highest weighted GPA in **only** the following courses will be named Valedictorian:

English 9 English 10 English 11 English 12 Math YR 1 (Algebra 1 or higher) Math YR 2 (Geometry or higher) Math YR 3 (Algebra 2 or higher) Math YR 4 (Quantitative reasoning or higher)	Science YR 1 Biology or higher Science YR 2 Chemistry or higher Science YR 3 World History US History Economics OR Govt. World Language YR 1 World Language YR 2	Fine Art/ CTE Elective Physical Education Additional Elective Additional Elective Additional Elective
---	--	---

+ If a tie occurs, the highest score on the District sponsored college entrance exam will be the deciding factor.

++ If a subsequent tie occurs, AP Exam scores will be used.

+++ No pass/fail courses will be included in the calculation, such as but not limited to: Teacher's Aide or Course Test-Outs.

Effective with the Class of 2030, all QCUSD high schools are implementing the Cum Laude recognition program, replacing valedictorian and salutatorian designations. This program recognizes high levels of academic achievement and allows more outstanding seniors to be honored at graduation.

The distinctions under the Cum Laude recognition program are as follows:

- Cum Laude ("with praise"): 3.8 - 4.249 GPA.
- Magna Cum Laude ("with great praise"): 4.25 - 4.499 GPA.
- Summa Cum Laude ("with the highest praise"): 4.5+ GPA.

Eligible students must be on track to graduate at the end of the seventh semester. Distinctions will be determined based on the weighted GPA at that time, which will be finalized at the end of quarter 3. Foreign exchange students are not eligible for Cum Laude recognition.

Honors / Advanced Placement

Weighted courses are designed and implemented to recognize more challenging engagement on the part of the students. The coursework is significantly more rigorous; requiring higher-level thinking than the standard course counterpart and will provide students with multiple opportunities to take greater ownership of their learning. These courses are distinguished by differences in the quality and composition of their coursework, not by the quantity of the work required. Weighted courses are intended for students who have demonstrated a high level of interest and academic achievement in a given subject area.

Accordingly, students and parents should understand that weighted courses are more demanding and have requirements beyond those of non-honors courses. All weighted courses must contain:

- Significant academic rigor requiring additional effort and perseverance on the part of the student.
- Additional depth and breadth of content compared to a non-honors section.
- Relevant learning to students.
- Critical and reflective thinking and analytical writing tasks including argumentative, informational, and persuasive components.
- Greater amount of class discussion, using the Socratic method, with opportunities to defend ideas and positions.
- Alignment to Arizona College and Career Ready standards.
- Technology integration.
- Evidence of various types of writing.
- Provide a foundation for success in AP classes and college success.
- Multi-purpose assessments that include peer evaluation, risk taking, critical thinking and creativity.

Weighted courses should also exhibit two or more of the following:

- Independent research
- Summer reading or other outside summer activities
- Inquiry-based learning
- Leadership components
- Service-learning opportunities

Advanced Placement Program (AP)

The Advanced Placement Program consists of college-level courses, and the exams are governed by the College Board. Students who achieve acceptable scores on the exams may qualify for college credit, advanced placement, or exemption from certain college courses. Students are required to take the AP exam in the spring. A fee is required for each AP course.

Several courses in the curriculum are designed to prepare students for the AP exams. These courses are designated as “AP” in the course description section of this guide. Specific prerequisites and course requirements are stated in the individual course descriptions. Students are encouraged to check with their colleges of choice to verify AP credit acceptance.

AP Capstone

AP Capstone is a two-year program based on two AP courses: AP Seminar and AP Research. Unlike other AP courses, which focus on in-depth study of a specific subject, AP Seminar and AP Research emphasize the development of academic skills. Students can earn either the AP Capstone Diploma or the AP Seminar and Research Certificate. Students who earn scores of 3 or higher in AP Seminar and AP Research **and** on four additional AP exams of their choice receive the AP Capstone Diploma. Students who earn scores of 3 or higher in AP Seminar and AP Research, but not on four additional AP Exams, receive the AP Seminar and Research Certificate.

---	---

Education and Career Action Plan (ECAP)

On February 25, 2008, the Arizona State Board of Education approved Education and Career Action Plans (ECAP) for all students grades 9-12 (R7-2-302.05). All students in grades 9-12 will complete an Arizona Education and Career Action Plan. An ECAP reflects a student's current plan of coursework, career aspirations, and extended learning opportunities in order to develop the student's individual academic and career goals.

State Mandated Testing

Per the Arizona Department of Education, all 9th grade students will take the ACT Aspire and all 11th grade students will take the ACT and the AzSCI.

Civics Test Requirement

In 2015, the Arizona legislature passed the American Civics Act (House Bill 2064). This bill requires students to pass a civics test based on the United States Immigration and Naturalization civics questions. Students will be required to score 70% or higher in order to graduate from high school or obtain a high school equivalency certificate as a result of HB2632 passed in 2022.

Enrollment Requirements

Freshmen, sophomores, and junior students are required to enroll in a minimum of six in-person courses. Seniors who are on track for graduation are required to enroll in a minimum of five, while seniors who are not on track must enroll in six courses. All students are required to take four years of math and English during their high school years.

Diploma Seal Options

QCUSD Scholastic Diploma Seal

To qualify for the QCUSD Scholastic Diploma seal students must take four years of science and complete two credits in world language (consecutive courses). Students who take these courses will receive a Scholastic seal for their diploma. 24 Credits are required. Full course list above.

Arizona Diploma Seals

The Arizona State Board of Education has approved two seals for social studies, one for world languages, and one for arts education. These seals recognize high school students who achieve proficiency in related coursework and complete additional examinations along with extracurricular tasks. Students are recognized with a seal on their diploma and a notation on their transcripts.

Seal of Personal Finance

The Arizona Seal of Personal Finance is awarded to students who achieve a high level of proficiency in Personal Finance. To qualify, a student will:

- Complete all social studies courses with an overall grade point average (GPA) of 3.0 out of a 4.0 scale.
- Complete 1 activity from each of the 4 categories.
 - Completion of an approved personal finance program (Curriculum)
 - Participation in a co-curricular or extracurricular program (Outside of School)

- Completion of a college and/or career readiness (Readiness Plan and Written Reflection)
- Passage of an assessment of personal finance (Test)

Seal of Civics Literacy

The Arizona Seal of Civics Literacy is awarded to students who achieve a high level of proficiency in civics. To qualify, a student will:

- Complete all social studies requirements for graduation with an overall GPA in those classes of 3.0 or higher on a 4.0 scale.
- Obtain a passing score of 60% on the Arizona State Civics exam.
- Meet the specific requirements from each of the categories:
 - Civics Learning (Complete/Participate in 3)
 - Civics Engagement (Complete 30 Hours)
 - Written Reflection (Demonstrate Students Civic Knowledge)

Seal of Arts Proficiency

To qualify for the Arizona State Seal of Arts Proficiency, a student will complete:

- All qualifying Arts and Career and Technical Education (CTE) courses with a GPA of 3.0 or better on a 4.0 scale, or the equivalent
- Minimum credit requirements in one of the following ways:
 - 4 credits in one artistic discipline – dance, music, theatre, visual arts, media arts – or
 - 3 credits in one artistic discipline and 1 credit in a qualifying creative industries CTE program or separate artistic discipline – or
 - 2 credits in one artistic discipline and 2 credits in a creative industries CTE program or separate artistic discipline
- 80 hours of arts-related extracurricular activities
- **A Student Capstone Project:** A capstone project is a project-based learning opportunity for a student to showcase the culmination of his/her knowledge while fostering real world skills and experience.

Arizona Seal of Biliteracy

Any student may receive the Seal of Biliteracy through English Language Proficiency and Second Language Proficiency. To qualify, a student will:

- Complete all English Language Arts requirements for graduation with an overall grade point average in those classes of 2.0 or higher on a 4.0 scale.
- Receive a passing score in English Language Arts on the state assessment (ACT)
 - If the student has a primary home language other than English, the student shall obtain a score of proficiency based on the AZELLA.
- Demonstrates proficiency in one or more languages other than English through a proficiency exam. Second language proficiency exams need to be completed during grades 9-12 and preferably in grades 11 or 12.
 - STAMP test or receive a score of a 4 or 5 on an **AP world language test.

Course fees are to be paid at the beginning of the semester in the bookstore. See school site for additional information. Class fees will only be refunded during the first semester drop/add period, which consists of the first two weeks of the school year, or with administrative approval.

*Additional band fees may be required for instrument rental/use.

Career & Technical Education (CTE)

NOT ALL COURSES AVAILABLE AT ALL SITES

Each Career and Technical Education program has a specific set of courses designed to help students prepare for post-secondary education and the world of work. All programs begin with an introduction to the career and conclude with a work-based learning experience or internship (see below). Industry credential assessments are taken in each program. Programs collaborate with current industry professionals to ensure curriculum is up-to-date and that students are prepared for employment.

All CTE courses require participation with a Career and Technical Education Student Organization (CTSO). CTOS include DECA, FFA, FCCLA, FBLA, HOSA, and SkillsUSA. Through participation in various CTOS, students have opportunities to participate in leadership conferences and compete in areas of interest for recognition, awards, and scholarships.

All courses in this department meet QCUSD requirements for CTE credit or elective credit. CTE credits satisfy in-state university requirements for CTE or Fine Arts credit; out-of-state universities may have different requirements. Please take a few moments to explore the exciting programs CTE has to offer.

East Valley Institute of Technology (EVIT):

QCUSD High Schools are members of the East Valley Institute of Technology (EVIT). EVIT is a specialized school that offers high school-level technical training in several career cluster areas. Students earn 3 elective credits per year by attending EVIT. Transportation is provided for both AM and PM EVIT students at specific times during the day, though students may also provide their own transportation. Students attending EVIT may take a needed core class during 0 hour or online through QCVA (if available). See your counselor to ensure eligibility for EVIT and to create a plan for on-time graduation. Students and families are responsible for applying for EVIT acceptance. Some EVIT courses are eligible for embedded science credit. More information regarding EVIT programming is available on page 62.

The following is a list of programs and course sequences for all CTE programs available in the District. schools will provide a course request list containing each program offered at individual high schools. Students are expected to complete the program sequence (*typically 2 years). Upon completion, the student will have the opportunity to earn an industry credential for work placement. All CTE courses offered under these programs are listed alphabetically and described in the pages immediately following the sequencing chart. Typically, CTE programs are two-year programs unless indicated otherwise.

<p>In addition to the availability of the above CTE programs, students in QCUSD also have the opportunity to complete CTE programs at the East Valley Institute of Technology (EVIT). More information about EVIT programs can be found on page 62.</p>		

Agriscience I: Applied Biological Systems (ABS)

Course Code: AGS100A/B

<p>Grade Level: 9, 10, 11 Prerequisite: None See Fee Schedule Page 12 Offered at: QCHS</p>	<p>Length of Course: 1 Year</p>	<p>1 Credit</p>
---	--	------------------------

ABS introduces students to a hands-on laboratory environment designed for those who are interested in agricultural science, plant science, agricultural careers and animal science. Students will learn the principles of animal growth and production, nutrition, and animal health needs. Membership in the state-approved CTE Career & Technical Student Organization, FFA, is included as part of this class, along with a supervised agricultural experience.

Agriscience II: Plant Science

Course Code: AGS200A/B

<p>Grade Level: 10, 11, 12 Prerequisite: Agriscience I See Fee Schedule Page 12 Offered at: QCHS</p>	<p>Length of Course: 1 Year</p>	<p>1 Credit</p>
---	--	------------------------

Students who complete 2 years of Agriscience may be eligible for 1 embedded integrated science credit.

The course will address the study of Plant Science in the area of plant nutrition, plant growth, and development, soils, propagation, diseases, biotechnology, agricultural production, and greenhouse operation. All students enrolled in an agricultural class will be concurrently enrolled in the National FFA Organization and will have opportunities for additional leadership and agricultural internships both through the state-approved CTE Career & Technical Student Organization, FFA, as well as a supervised agricultural experience (SAE).

Agriscience III: Animal Science

Course Code: AGS300A/B

<p>Grade Level: 11, 12 Prerequisite: Agriscience I & II See Fee Schedule Page 12 Offered at: QCHS</p>	<p>Length of Course: 1 Year</p>	<p>1 Credit</p>
--	--	------------------------

This course will prepare students for careers in Animal Science in the areas of livestock selection, animal nutrition, animal health and care, genetics, facilities management, and animal/human relations. All students enrolled in an agricultural class will be concurrently enrolled in the National FFA Organization and will have opportunities for additional leadership and agricultural internships both through the state-approved CTE Career & Technical Student Organization, FFA, as well as a supervised agricultural experience (SAE).

Agriscience IV: Business Management

Course Code: AGS350A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Successful Completion of three Agriscience courses		
See Fee Schedule Page 12		
Offered at: QCHS		

Students will learn the basics of agricultural business management. Topics include entrepreneurship, profit-maximizing principles, salesmanship, taxes and leadership in the workplace. A project will be required of all students. Students will complete a capstone project for the SAE. Students will be required to maintain an SAE. Students will participate in FFA where they will develop skills for leadership and career success.

Agriscience Internship

Course Code: AGS400A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Successful completion of three Agriscience classes or concurrently enrolled in 3rd year or 4th year and teacher approval		
See Fee Schedule Page 12		
Offered at: QCHS		

This course is a year-long course devoted to the application of the technical skills gained through the Agriscience program. Students will participate in a paid or unpaid internship on or off campus to practice and improve their skills in the agriculture industry, including greenhouse operations. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. If the internship site is off campus, each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, FFA, if they are concurrently enrolled in Ag 3 or 4. Students must work a minimum of 120 hours per semester, 240 hours total.

Architectural Drafting I

Course Code: ARC100A/B

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
Prerequisite: None		
See Fee Schedule Page 12		
Offered at: CHS		

Architectural Drafting I introduces students to basic working drawings and electronic simulations for architectural and related construction projects. Students will learn basic construction and structural design, architectural rendering, architectural-aided drafting (CAD), layout and designs, architectural blueprint interpretation, building materials, and basic structural wiring diagramming. This course will prepare students for Architectural Drafting II. Participation in the state-approved CTE Career & Technical Student Organization, SkillsUSA, is part of this class. The Arizona Department of Education CTE Architectural Drafting standards are taught in this course and throughout the Architectural Drafting program.

Architectural Drafting II

Course Code: ARC200A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Architectural Drafting I		
See Fee Schedule Page 12		
Offered at: CHS		

The course is designed to expand and strengthen students' technical knowledge and skills taught in Architectural Drafting I. Students will gain additional information and practice in a variety of areas including CADD and VDCM (Computer-Aided Design and Drafting/Virtual Design and Construction Modeling) software and blueprint designs for residential and commercial structures.

Architectural Drafting Internship

Course Code: ARC400A/B

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Architectural Drafting I & II		
See Fee Schedule Page 12		
Offered at: CHS		

This course is a year-long course devoted to the application of the technical skills gained through the Architectural Drafting program. Students will participate in a paid or unpaid internship on/off campus to practice and improve their skills in the Architectural Drafting Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA. Students must work a minimum of 120 hours per semester, 240 hours total.

Automation and Robotics I**Course Code: ROB100A/B****Grade Level: 9, 10, 11****Length of Course: 1 Year****1 Credit****Prerequisite: None****See Fee Schedule Page 12****Offered at: CHS**

Automation and Robotics I introduces students to the basic engineering principles and technical skills for industrial automation control systems and technologies with the artificial intelligent management of machines on production lines in the manufacturing industry. Students will learn the principles of robotics, design, operational testing, system maintenance, repair procedures, robot computer systems, and control languages. This course will prepare students for Automation and Robotics II. Participation in the state-approved CTE Career & Technical Student Organization, SkillsUSA, is part of this class. The Arizona Department of Education CTE Automation and Robotics standards are taught in this course and throughout the Automation and Robotics program.

Automation and Robotics II**Course Code: ROB200A/B****Grade Level: 10, 11, 12****Length of Course: 1 Year****1 Credit****Prerequisite: Automation and Robotics I****See Fee Schedule Page 12****Offered at: CHS**

The course is designed to expand and strengthen students' technical knowledge and skills taught in Automation and Robotics I. Students will gain additional information and practice in industrial automation and robotics, specifically in regard to using physical machines, robots and control systems to automate motions as part of an industrial process. The specific systems studied in this course include mechanical applications, hydraulics (oil systems), pneumatics (air systems), quality inspection, troubleshooting, installations, or repair of robotic systems and machines that apply to specific industrial tasks. The Arizona Department of Education CTE Automation and Robotics standards are taught in this course and throughout the Automation and Robotics program.

Automation and Robotics Internship**Course Code: ROB400A/B****Grade Level: 11, 12****Length of Course: 1 Year****1 Credit****Prerequisite: Automation and Robotics I & II****See Fee Schedule Page 12****Offered at: CHS**

This course is a year-long course devoted to the application of the technical skills gained through the Automation and Robotics program. Students will participate in a paid or unpaid internship on/off campus to practice and improve their skills in the Automation and Robotics Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA. Students must work a minimum of 120 hours per semester, 240 hours total.

Business Management I**Course Code: BMG100A/B****Grade Level: 9, 10, 11****Length of Course: 1 Year****1 Credit****See Fee Schedule Page 12***Dual enrollment credit may be offered for this course. Please see your instructor.*

Business Management I introduces students to the business and financial management practices needed for large and small enterprises. Students will learn about management theory, project management, human resources management and behavior, various quantitative methods, purchasing and logistics, organization and production, marketing and business decision-making. Participation in the state-approved CTE Career & Technical Student Organization, FBLA, is part of this class. The Arizona Department of Education CTE Business Management standards are taught in this course and throughout the Business Management program.

Business Management II**Course Code: BMG200A/B****Grade Level: 10, 11, 12****Length of Course: 1 Year****1 Credit****Prerequisite: Business Management I****See Fee Schedule Page 12***This course may satisfy the ½ credit of high school Economics required for graduation.**Dual enrollment credit may be offered for this course. Please see your instructor.*

Business Management II is the next step for students wanting to focus on Business Management. Students apply skills learned in Marketing I to real-world scenarios. Students learn and practice their skills using industry standard office productivity software to manage business functions. Participation in the state-approved CTE Career & Technical Student Organization, FBLA, is part of this class.

Business Management Lab**Course Code: BMG300A/B****Grade Level:** 10, 11, 12**Length of Course:** 1 Year**1 Credit****Prerequisites:** Business Management I & II, application and teacher approval**See Fee Schedule Page 12***Dual enrollment credit may be offered for this course. Please see your instructor.*

This is the class for any current or past Business Management student to apply skills learned in Business Management to a real-world business! Students may work one to two class periods in the School Store as a part of their regular school schedule. Duties include: product mix management, merchandise display, promotion, inventory control, managing a store budget, and other functions associated with running a business. This store is a classroom, meant to allow students to practice work-based learning in a controlled setting. Participation in the state-approved CTE Career & Technical Student Organization, FBLA, is part of this class.

Business Management Internship**Course Code: BMG400A/B****Grade Level:** 12**Length of Course:** 1 Year**1 Credit****Prerequisite:** Business Management I, II and teacher approval**See Fee Schedule Page 12**

This course is a year-long course devoted to the application of the technical skills gained through the Business Management program. Students will participate in a paid or unpaid internship on/off campus to practice and improve their skills in the Business Management Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Participation in the state-approved CTE Career & Technical Student Organization, FBLA, is part of this class.

Computer Maintenance I**Course Code: CMP100A/B****Grade Level:** 9, 10, 11**Length of Course:** 1 Year**1 Credit****Prerequisite:** None**See Fee Schedule Page 12****Offered at:** EHS

Students will learn hands-on technical aspects of the microcomputer, including system setup (hardware and software) and troubleshooting with use of tools, hardware components and hardware/software interfacing. Install, configure, upgrade, optimize and perform preventive maintenance with respect to security using appropriate tools, diagnostic procedures and troubleshooting techniques. Course helps students prepare for the CompTIA A+ certification to establish the foundation of an entry level IT professional. Computer experience is highly recommended. Students will have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA/FBLA.

Computer Maintenance II**Course Code: CMP200A/B****Grade Level:** 10, 11, 12**Length of Course:** 1 Year**1 Credit****Prerequisite:** Computer Maintenance I**See Fee Schedule Page 12****Offered at:** EHS

Students will apply skills learned from previous coursework in Computer Maintenance I to install, support, maintain, and upgrade computer/electronic devices. Students will work with Information Systems staff to support local technologies on our campus. This will include but is not limited to locating, quarantining, and removing specific viruses, diagnosing hardware problems, supporting printer installations and repairs, and troubleshooting technology issues. Upon successful completion of this course, students will be prepared to pass the CompTIA A+ Certification. Students will have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA/FBLA.

Computer Maintenance Internship**Course Code: CMP400A/B****Grade Level:** 12**Length of Course:** 1 Year**1 Credit****Prerequisite:** Computer Maintenance I & II**See Fee Schedule Page 12****Offered at:** EHS

This course is a year-long course devoted to the application of the technical skills gained through the Computer Maintenance program. Students will participate in a paid or unpaid internship to practice and improve their skills in the Technology Industry. Appropriate internship placement assistance will be provided by the program teacher. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA/FBLA.

Computer Networking I**Course Code: CNT100A/B**

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
Prerequisite: See Fee Schedule Page 12		

This course is designed to provide students with classroom and laboratory experience in current and emerging networking technology. Students will learn to design, build, and maintain small to medium size networks. Instruction includes safety, networking, network terminology and protocols, local-area networks, Open System Interconnection models, cabling, cabling tools, routers, router programming, Ethernet, Internet Protocol addressing, and network standards. Particular emphasis is given to the use of decision-making and problem-solving techniques in applying science, mathematics, communication, and social studies concepts to solve networking problems. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA/FBLA.

Computer Networking II **Course Code: CNT200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Computer Networking Security I See Fee Schedule Page 12		

Students will continue to develop their skills in design and troubleshoot complex network systems for home or small offices. This course will dive into in-depth coverage of cybersecurity concepts and techniques needed to help meet the growing demand for entry-level IT professionals. Students will demonstrate their ability to analyze cyber threats by using networking devices, simulation tools, software, and competitions. These courses prepare students to obtain a wide variety of industry recognized IT certifications. Learn the skills you need to work in this exciting and growing field. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA/FBLA.

Computer Networking Internship **Course Code: CNT400A/B**

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Computer Networking I & II See Fee Schedule Page 12		

This course is a year-long course devoted to the application of the technical skills gained through the Computer Networking program. Students will participate in a paid or unpaid internship to practice and improve their skills in the Technology Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA/FBLA.

Construction Technologies I **Course Code: CON100A/B**

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12 Offered at: QCHS <i>Dual enrollment may be offered in this course. Please see your instructor</i>		

This introductory course enables students to explore Construction technology. Students will learn technical knowledge and skills regarding residential and commercial building construction and remodeling. The student will obtain basic working knowledge of construction trade skills through hands-on experience in a lab setting, with emphasis on safe use of hand tools, portable power tools and stationary power equipment. The student will develop workplace skills through career and job exploration, leadership style and techniques, construction economy, organization, oral/written communications and mathematics related to the industry. This course will prepare students for Construction Technologies II. Participation in the state-approved CTE Career & Technical Student Organization, SkillsUSA, is part of this class. The Arizona Department of Education CTE Construction Technologies standards are taught in this course and throughout the Construction Technologies program.

Construction Technologies II **Course Code: CON200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Construction Technologies I See Fee Schedule Page 12 Offered at: QCHS <i>Dual enrollment may be offered in this course. Please see your instructor.</i>		

This advanced course is designed for students with a greater interest in the construction profession. This course will include a safe hands-on, applied study of construction equipment and safety, site preparation and layout, construction estimating, blueprint reading, building codes, framing, masonry, heating, ventilation, air conditioning, electrical and mechanical systems, interior and exterior finishing, and plumbing. Students will have a chance to work in a team environment while building many different types of structures. Students will learn a variety of leadership skills, strengthen oral/written communication skills and apply mathematical concepts while performing construction projects for the community. Each student will complete OSHA training. This course prepares the students to enter the construction industry. Participation in the state-approved CTE Career & Technical Student Organization, SkillsUSA, is part of this class.

Construction Technologies Internship **Course Code: CON400A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Construction Technologies I & II and teacher approval See Fee Schedule Page 12		

Offered at: QCHS

Dual enrollment may be offered in this course. Please see your instructor.

This course is a year-long course devoted to the application of the technical skills gained through the Construction Technologies program. Students will participate in a paid or unpaid internship on/off campus to practice and improve their skills in the Construction Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA. Students must work a minimum of 120 hours per semester, 240 hours total.

Culinary Arts I

Course Code: CUL100A/B

Grade Level: 9, 10, 11

Length of Course: 1 Year

1 Credit

See Fee Schedule Page 12

Offered at: QCHS

Dual enrollment credit may be offered for this course. Please see your instructor.

Culinary Arts I is designed to introduce and prepare students with the academic and industry standard skills needed for Culinary Arts and Food Production in the hospitality industry. Students will explore careers in Culinary Arts as well as examine food preparation, sanitation, workplace safety, commercial equipment, marketing and much more! Participation in the state-approved CTE Career & Technical Student Organization, FCCLA, is part of this class. The Arizona Department of Education CTE Culinary Arts standards are taught in this course and throughout the Culinary Arts program.

Culinary Arts II

Course Code: CUL200A/B

Grade Level: 10, 11, 12

Length of Course: 1 Year

1 Credit

Prerequisite: Culinary Arts I

See Fee Schedule Page 12

Offered at: QCHS

Dual enrollment credit may be offered for this course. Please see your instructor.

Culinary Arts II is designed to advance and improve technical skills needed for advancement in the Culinary Arts industry e.g., the use of large commercial kitchen equipment, knife skills, front and back of the house operations, advanced pastries, baking, sauces and basic hot and cold food preparation. Participation in the state-approved CTE Career & Technical Student Organization, FCCLA, is part of this class.

Culinary Arts III/Enterprise

Course Code: CUL300A/B

Grade Level: 11, 12

Length of Course: 1 Year

1 Credit

Prerequisite: Culinary Arts I & II

See Fee Schedule Page 12

Offered at: QCHS

Dual enrollment credit may be offered for this course. Please see your instructor.

Culinary Arts III is designed to allow students to extend their knowledge of catering, Hospitality, baking and calculating food costs by providing catered events for the school and community. The focus and structure will revolve around competition and Front of the House experience, so that students will be prepared to work in the food services and Hospitality industries. Culinary leadership opportunities will be enhanced through FCCLA, C-CAP, and Internships.

Culinary Arts Internship

Course Code: CUL400A/B

Grade Level: 12

Length of Course: 1 Year

1 Credit

Prerequisite: Culinary I, II and teacher approval

See Fee Schedule Page 12

Offered at: QCHS

Dual enrollment credit may be offered for this course. Please see your instructor.

This course is a year-long course devoted to the application of the technical skills gained through the Culinary Arts program. Students will participate in a paid or unpaid internship on/off campus to practice and improve their skills in the Culinary and Hospitality Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, FCCLA. Students must work a minimum of 120 hours per semester, 240 hours total.

Digital Photography I

Course Code: DPH100A/B

Grade Level: 9, 10, 11

Length of Course: 1 Year

1 Credit

See Fee Schedule Page 12

Offered at: QCHS/EHS/CHS

This course addresses technical skills and concepts in relation to historic and contemporary photography. Students experiment with a variety of lighting techniques, parts and use of a digital SLR camera, digital solutions, and conceptual approaches in order to create visually compelling photographs. Students learn how to transfer skills into a career in professional photography. Students will develop an electronic and traditional portfolio. A digital SLR is highly recommended. No prior photography skills are required for this course. Membership in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA is part of this class and

competition associated with the curriculum is highly encouraged. The Arizona Department of Education CTE Digital Photography standards are taught in this course and throughout the Digital Photography program.

Digital Photography II

Course Code: DPH200A/B

Grade Level: 10, 11, 12

Length of Course: 1 Year

1 Credit

Prerequisite: Digital Photography I

See Fee Schedule Page 12

Offered at: QCHS/EHS/CHS

This one-year course builds on the skills learned in Digital Photography I with an emphasis on production for the needs of clients, publication, or competition. Special attention will be given to the profession of the photographer as artist and commercial artist. Students will be expected to develop technical expertise to enhance their digital imaging skills. Explorations in the process, production, and the role of digital imaging will provide the students with the 21st century skills necessary for personal development and the work setting. Areas of concentration include portrait photography, photo documentation and journalism, color photography, and the photo essay. Students will design a photo project and will be expected to exhibit their work. Membership in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA, is part of this class and competition associated with the curriculum is highly encouraged.

Digital Photography III

Course Code: DPH300A/B

Grade Level: 10, 11, 12

Length of Course: 1 Year

1 Credit

Prerequisite: Digital Photography II

See Fee Schedule Page 12

Offered at: QCHS/EHS/CHS

This is a one-year course for students who are interested in pursuing photo and graphic communications professionally. Each student will be expected to apply the skills learned in Digital Photography I and II during a service-learning project in which they provide a photographic service to an organization or business. In addition to developing their own personal projects, students will refine professional skills required by the professional graphics industry. Digital Photography students will be expected to mentor both Digital Photography I and II students. Membership in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA, is part of this class and competition associated with the curriculum is highly encouraged.

Digital Photography Internship

Course Code: DPH400A/B

Grade Level: 12

Length of Course: 1 Year

1 Credit

Prerequisite: Digital Photography I, II and teacher approval

See Fee Schedule Page 12

Offered at: QCHS/EHS/CHS

This course is a year-long course devoted to the application of the technical skills gained through the Digital Photography program. Students will participate in a paid or unpaid internship to practice and improve their skills in the field and build a professional portfolio. Appropriate internship placement assistance will be provided by the Internship coordinator. Each student is required to have their own DSLR and laptop. Participation in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA, is a part of this class. Students must work a minimum of 120 hours per semester, 240 hours total.

Early Childhood Education I

Course Code: ECE100A/B

Grade Level: 9, 10, 11

Length of Course: 1 Year

1 Credit

See Fee Schedule Page 12

Offered at: QCHS

May be offered for Dual enrollment credit. Please see your instructor.

The first semester will develop students' understanding of human growth and development. It is an in-depth study of parenting, pregnancy, newborns, infants and children during the first three years of life. Positive parenting skills are stressed. Students will study the importance of healthy families in today's society. Students will also be creating and designing a daycare center for children aged to 3 years of age. The second semester will provide students with a study of children's growth and development from three to five years of age. Emphasis is on the development of the young child including physical, social, intellectual, and emotional development. Students will participate in preschool observation, writing lesson plans, teaching at the TOYBOX preschool and hands-on activities. This course is designed for students who are interested in a career with children and is a prerequisite for the TOYBOX Preschool program Membership in the state-approved CTE Career & Technical Student Organization, FCCLA/EdRising, is part of this class. The Arizona Department of Education CTE Early Childhood Education standards are taught in this course and throughout the Early Childhood Education program.

Early Childhood Education II

Course Code: ECE200A/B

Grade Level: 10, 11, 12

Length of Course: 1 Year

1 Credit

Prerequisite: Early Childhood Education I and a clear TB test

See Fee Schedule Page 12

Offered at: QCHS

May be offered for Dual enrollment credit. Please see your instructor.

This one credit course consists of one hour in the classroom and on-the-job training in the high school TOYBOX Preschool lab. Students will be creating lessons for teaching, supervising, and using positive methods of discipline. They will also study preschool operations, as well as those of other childcare centers. Students will also learn about school-age children in this class. Students will receive CPR and First Aid certification in this class. A clear TB test is required for this class. This experience will provide students

with opportunities to explore a variety of careers in Early Childhood Education. Membership in the state-approved CTE Career & Technical Student Organization, FCCLA/EdRising, is part of this class.

Early Childhood Education Lab

Course Code: ECE300A/B

Grade Level: 11, 12 Length of Course: 1 Year 1 Credit

Prerequisite: Early Childhood Education I & II, a clear TB test and teacher approval

See Fee Schedule Page 12

Offered at: QCHS

May be offered for Dual enrollment credit. Please see your instructor.

This course consists of one hour in the high school TOYBOX pre-school lab. Students will be creating lessons, teaching, supervising and using positive methods of discipline. They will be given responsibilities that must be completed each day. This experience will provide students with opportunities to explore the possibilities of careers in Early Childhood Education. Participation in the state-approved CTE Career & Technical Student Organization, FCCLA/EdRising, is part of this curriculum. Teacher approval is required through an application process.

Early Childhood Education Internship

Course Code: ECE400A/B

Grade Level: 12 Length of Course: 1 Year 1 Credit

Prerequisite: Early Childhood Education I & II, and teacher approval

See Fee Schedule Page 12

Offered at: QCHS

May be offered for Dual enrollment credit. Please see your instructor.

This year-long course is devoted to the application of the technical skills gained through the Early Childhood Education program. Students will participate in a paid or unpaid internship to practice and improve their skills in the field of Early Childhood Education. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Membership in the state-approved CTE Career & Technical Student Organization, FCCLA/EdRising, is part of this class. Students must work a minimum of 120 hours per semester, 240 hours total.

Education Professions I

Course Code: EDU100A/B

Grade Level: 9, 10, 11 Length of Course: 1 Year 1 Credit

See Fee Schedule Page 12

Offered at: CHS

May be offered for Dual enrollment credit

This course is designed for students who want to pursue a career in education. Students will learn about education career choices, structure and systems, theories, history, pedagogy, developmental stages, learning styles and instructional methods. This course is a prerequisite for students looking to take the Education Professions Lab which provides students with the opportunity to work with students at various QCUSD elementary schools. Membership in the state-approved CTE Career & Technical Student Organization, Educators Rising (EdRising), is part of this class. The Arizona Department of Education CTE Education Professions standards are taught in this course and throughout the Education Professions Program.

Education Professions II

Course Code: EDU200A/B

Grade Level: 10, 11, 12 Length of Course: 1 Year 1 Credit

Prerequisite: Education Professions I and a clear TB test

See Fee Schedule Page 12

Offered at: CHS

May be offered for Dual enrollment credit

Education Professions II allows students to further student education careers. Students will have the opportunity to participate in a field experience at a local elementary school and are provided the opportunity to work alongside a cooperating teacher while creating a teaching portfolio. Students will be creating lessons for teaching, supervising, and using positive methods of discipline. Students will receive CPR and First Aid certification in this class. A clear TB test is required for this class. Membership in the state-approved CTE Career & Technical Student Organization, Educators Rising (EdRising), is part of this class. The Arizona Department of Education CTE Education Professions standards are taught in this course and throughout the Education Professions Program.

Education Professions Lab

Course Code: EDU300A/B

Grade Level: 11, 12 Length of Course: 1 Year 1 Credit

Prerequisite: Education Professions I & II, a clear TB test and teacher approval

See Fee Schedule Page 12

Offered at: CHS

This course consists of one hour in an elementary classroom. Students will be creating lessons, teaching, supervising and using positive methods of discipline. They will be given responsibilities that must be completed each day. This experience will provide students with opportunities to explore the possibilities of careers in Education. Participation in the state-approved CTE Career & Technical Student Organization, Educators Rising (EdRising), is part of this curriculum. Teacher approval is required through an application process.

Education Professions Internship**Course Code: EDU400A/B**

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Education Professions I & II, and teacher approval		
See Fee Schedule Page 12		
Offered at: CHS		

This year-long course is devoted to the application of the technical skills gained through the Education Professions program. Students will participate in a paid or unpaid internship to practice and improve their skills in the field of Education. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Membership in the state-approved CTE Career & Technical Student Organization, Educators Rising (EdRising), is part of this class. Students must work a minimum of 120 hours per semester, 240 hours total.

Engineering I: Engineering Essentials**Course Code: EGN100A/B**

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
Prerequisite: Algebra I (B or higher)		
See Fee Schedule Page 12		
Offered at: EHS/CHS		

Engineering Essentials offers a multidisciplinary approach to teaching and learning foundational concepts of engineering practice, providing students opportunities to explore the breadth of engineering career opportunities and experiences and solve engaging and challenging real-world problems. By inspiring and empowering students with an understanding of engineering and career opportunities, Engineering Essentials broadens participation in engineering education and the engineering profession.

Engineering II: Introduction to Engineering Design**Course Code: EGN200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Engineering I (C or better)		
See Fee Schedule Page 12		
Offered at: EHS/CHS		

This course may satisfy 1 credit of a high school Lab Science required for graduation. Please see your counselor

In this course students will dig deep into the engineering design process, applying math, science, and engineering standards to hands-on projects. Students will work both individually and in teams to design solutions to a variety of problems using 3-D modeling software and use an engineering notebook to document their work. Students will be able to participate in the state-approved CTE Career & Technical student organization, SkillsUSA Mobile Robotics as part of the curriculum and class. Students have the opportunity to participate in the VEX Robotics Competition (VRC) as an application of what they learn in class. Students are encouraged to join the Robotics Club. The Arizona Department of Education CTE Engineering Sciences standards are taught in this course and throughout the Engineering program.

Engineering III: Principles of Engineering**Course Code: EGN300A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Engineering I & II (C or better)		
See Fee Schedule Page 12		
Offered at: EHS/CHS		

In this course students, through problems that engage and challenge, will explore a broad range of engineering topics, including mechanisms, the strength of structures and materials, and automation. Students will develop skills in problem solving, research, and design while learning strategies for design process documentation, collaboration, and presentation. Students will be able to participate in the state-approved CTE Career & Technical student organization, SkillsUSA Mobile Robotics as part of the curriculum and class. Students have the opportunity to participate in the VEX Robotics Competition (VRC) as an application of what they learn in class. Students are encouraged to join the Robotics Club. The Arizona Department of Education CTE Engineering Sciences standards are taught in this course and throughout the Engineering program.

Engineering Internship**Course Code: EGN400A/B**

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Engineering I, II & III and teacher approval		
See Fee Schedule Page 12		
Offered at: EHS/CHS		

This course is a year-long course devoted to the application of the technical skills gained through the Engineering Sciences program. Students will participate in a paid or unpaid internship to practice and improve their skills in the Engineering Industry. Appropriate internship placement assistance will be provided by the program teacher. All students are required to comply with all industry and placement specific regulations. Each student must provide his or her own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students must work a minimum of 120 hours per semester, 240 hours total.

Film & TV Production I**Course Code: FTV100A/B**

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		
Offered at: QCHS/CHS		

This course is an introduction to the operations and techniques of video production and electronic news and sports journalism. Emphasis is placed on video, audio, lighting, studio and field production. Course work will include hands-on operations of a television studio, editing facilities, digital video production, and live streaming of events. Students produce videos that will be featured on the High School TV channel. Students will be required to write scripts, storyboards, work in a team environment, and work in a professional and mature manner. Students will also learn on-camera reporting and sports-casting skills. Students will also be taught the basics of producing videos for social media and the effects on the broadcast industry. Time outside the classroom may be required to achieve the standards. Participation in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA, is a part of this curriculum. The Arizona Department of Education CTE Film & TV Production standards are taught in this course and throughout the Film & TV Program.

Film & TV Production II**Course Code: FTV200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisites: Film & TV I (C or better)		
See Fee Schedule Page 12		
Offered at: QCHS/CHS		

This is an intermediate course that expands on the operations and techniques of video production and electronic news and sports journalism. Students will enhance their skills by producing, recording and editing shows for Bulldog Vision Television (BVTV), the Queen Creek High School TV channel. This course includes advanced techniques of live streaming events, on-camera reporting and sports-casting. Students will engage in directing and producing "industry-standard" projects using a variety of video applications. Students are expected to devote time outside of class to achieve this standard. Participation in the state-approved CTE Career & Technical Student Organization FBLA/SkillsUSA, is a part of this curriculum.

Film & TV Production III**Course Code: FTV300A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisites: Film & TV I & II (C or better) and teacher approval		
See Fee Schedule Page 12		
Offered at: QCHS/CHS		

Students will produce, record, edit news and sports stories, corporate, education, and non-broadcast videos that do not take place in a standard television studio. Students will work with a team in planning, recording and publishing videos for clients. Participation in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA is a part of this curriculum.

Film & TV Production Internship**Course Code: FTV400A/B**

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Film & TV I & II, and teacher approval		
See Fee Schedule Page 12		
Offered at: QCHS/CHS		
<i>This course may be taken concurrently with Film & TV III.</i>		

This course is a year-long course devoted to the application of the Film & TV technical skills gained through the Film & TV Production program. Students will participate in a paid or unpaid internship to practice and improve their skills in the Film & TV Industry Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide his or her own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA.

Financial Services I**Course Code: BUS100A/B**

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		
Offered at: EHS		

Financial Services introduces students to basic financial planning concepts and illustrates how these concepts relate to everyday life. Topics covered include investments, stocks, mutual funds, real estate, and other financial investments while integrating technology. Students enrolling in the course are strongly encouraged to join FBLA (Future Business Leaders of America) or DECA. Opportunities through FBLA or DECA include leadership development, field trips, travel and competition. The Arizona Department of Education CTE Financial Services standards are taught in this course and throughout the Financial Services program.

Financial Services II**Course Code: BUS200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Financial Services I		
See Fee Schedule Page 12		
Offered at: EHS		

Students will further explore the financial services field and learn how to create and use a budget, borrow and invest wisely, buy large purchase items (automobile, home, and etc.), make appropriate insurance choices (auto, health, life, and housing), learn about taxes and credit rating scores, and how to create a retirement plan. Students will also focus on business math and its application to the real world. Students will learn the fundamentals of starting and/or managing a business. Students enrolling in the course are strongly encouraged to join FBLA (Future Business Leaders of America) or DECA. Opportunities through FBLA or DECA include leadership development, field trips, travel and competition.

Financial Services Internship

Course Code: BUS300A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Financial Services II		
See Fee Schedule Page 12		
Offered at: EHS		

This course is a year-long course devoted to the application of the technical skills gained through the Financial Services program. Students will participate in a paid or unpaid internship on/off campus to practice and improve their skills in the Banking and Finance Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Participation in the state-approved CTE Career & Technical Student Organization, FBLA or DECA, is part of this class.

Graphic Design I

Course Code: GRD100A/B

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		

Students will use industry-recognized software to demonstrate layout, set page design, and develop a commercial art portfolio. Students will be producing work extensively with businesses, community groups, and on-campus organizations. Students will have the opportunity to work with community clients as far as designing logos, flyers, brochures, school student planners and have guest speakers from the industry. This course will prepare students for Graphic Design II. Just a little bit of creativity is all you need; we will take care of the rest. Participation in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA, is a part of this class. The Arizona Department of Education CTE Graphic/Web Design standards are taught in this course and throughout the Graphic/Web Design program.

Graphic Design II

Course Code: GRD200A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisites: Graphic Design I		
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		

Emphasis will be placed on enhancement and completion of a portfolio, both electronic and standard type. Students will demonstrate commercial imaging skills including small product commercial illustrations through advanced instruction in industry-recognized software. They will learn to use a scanner and photo imaging equipment and printers. Students will apply basic artistic and technical skills to layouts, design and typographic arrangement of printed and/or electronic graphic and textual products. Students will be producing work extensively with businesses, community groups, and on-campus organizations. Students will have the opportunity to visit design firms and work with community businesses, allowing them to have a one-on-one opportunity with professional clients. Participation in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA is a part of this class.

Graphic Design III

Course Code: GRD300A/B

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisites: Graphic Design I & II		
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		

Graphic Design III will focus on advanced training in the advertising art, graphic design, and media communication fields. Students utilize industry standard equipment and software to complete client work. Production design includes logos, letterheads, advertisements, packaging, product illustrations, and portfolio development. Emphasis is on applying client marketing objectives to create designs which communicate to specific target audiences. Students will also have the opportunity to work on independent assignments. By the end of the year, students will have a professional design portfolio of their professional work from the graphic design program. Participation in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA, is a part of this class.

Graphic Design Internship

Course Code: GRD400A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisites: Graphic Design I, II, and teacher approval		
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		
<i>This course may be taken concurrently with Graphic Design III.</i>		

This course is a year-long course devoted to the application of the technical skills gained through the Graphic Design program. Students will participate in a paid or unpaid internship to practice and improve their skills in the Digital Design Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Participation in the state-approved CTE Career & Technical Student Organization, FBLA/SkillsUSA is a part of this class.

Interior Design and Merchandising I

Course Code: INT100A/B

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		

This course will introduce students to the applied sciences for design production, commercial or home furnishings sales, custom interior design, and wholesale purchasing, sales and promotion. Students will learn about the elements and principles of design, floor planning, room design, and selection of furnishings and accessories. Participation in the state-approved CTE Career & Technical Student Organization, FCCLA, is a part of this class. The Arizona Department of Education CTE Interior Design and Merchandising standards are taught in this course and throughout the Interior Design and Merchandising program.

Interior Design and Merchandising II

Course Code: INT200A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisites: Interior Design and Merchandising I		
See Fee Schedule Page 12		

This course will allow students to gain further knowledge of the interior design and merchandising industry and apply skills learned in Interior Design and Merchandising I through projects focused on the interior design field. Participation in the state-approved CTE Career & Technical Student Organization, FCCLA is a part of this class. The Arizona Department of Education CTE Interior Design and Merchandising standards are taught in this course and throughout the Interior Design and Merchandising program.

Interior Design and Merchandising Internship

Course Code: INT400A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisites: Interior Design and Merchandising I, II, and teacher approval		
See Fee Schedule Page 12		

This course is a year-long course devoted to the application of the technical skills gained through the Interior Design and Merchandising program. Students will participate in a paid or unpaid internship to practice and improve their skills in the Interior Design Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Participation in the state-approved CTE Career & Technical Student Organization, FCCLA is a part of this class.

Law and Public Safety I

Course Code: LPA100A/B

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		

This first-year course is an overview of the history and organization of local, state and federal law enforcement, including the practice and application of law and terminology of law enforcement. This course explains the elements of crime and criminal law, the goals of corrections, constitutional law, and public security. Leadership principles will be learned through a close association with a Career and Technical Skills Organization (CTSO).

Law and Public Safety II

Course Code: LPA200A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Law and Public Safety I		
See Fee Schedule Page 12		

This course reviews the application of law and functions of law enforcement for preparation of a career in law enforcement. This second-year course covers practical applications of policing such as ethical responsibilities, use of force, and crime scene security. Students will conduct hands on applications involving necessary equipment for handcuffing, crime scene preservation, vehicle searches and fingerprinting. Leadership principles will be learned through a close association with a Career and Technical Skills Organization (CTSO).

Law and Public Safety Internship

Course Code: LPA400A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Law and Public Safety I, II and teacher approval		
See Fee Schedule Page 12		

This course is a year-long course devoted to the application of the technical skills gained through the Law and Public Safety program. Students will participate in a paid or unpaid internship on/off campus to practice and improve their skills. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed

Training Agreement and Training Plan. Participation in the state-approved CTE Career & Technical Student Organization is part of this class.

Marketing I

Course Code: MRK100A/B

Grade Level: 9, 10, 11 See Fee Schedule Page 12 Offered at: QCHS/EHS/CHS	Length of Course: 1 Year	1 Credit
---	---------------------------------	----------

Dual enrollment credit may be offered for this course. Please see your instructor.

Marketing I introduces students to the basic concepts of Marketing: target market, consumer behavior, economics, product development, distribution, pricing, promotion and much more! Through academic integration, students will be able to apply concepts learned in core classes to real-world scenarios they can identify with. Participation in the state-approved CTE Career & Technical Student Organization, DECA, is part of this class. The Arizona Department of Education CTE Professional Sales and Marketing standards are taught in this course and throughout the Marketing program.

Marketing II

Course Code: MRK200A/B

Grade Level: 10, 11, 12 Prerequisite: Marketing I See Fee Schedule Page 12 Offered at: QCHS/EHS/CHS	Length of Course: 1 Year	1 Credit
--	---------------------------------	----------

Dual enrollment credit may be offered for this course. Please see your instructor.

Marketing II is the next step for students wanting to focus on Marketing. Students apply skills learned in Marketing I to real-world scenarios. Largely project-based, students will explore concepts in greater depth by working on projects for real businesses as well as participating in real-world simulations. Participation in the state-approved CTE Career & Technical Student Organization, DECA, is part of this class.

Marketing Lab (Spirit Store)

Course Code: MRK300A/B

Grade Level: 10, 11, 12 Prerequisites: Marketing I & II, application and teacher approval See Fee Schedule Page 12 Offered at: QCHS/EHS/CHS	Length of Course: 1 Year	1 Credit
--	---------------------------------	----------

Dual enrollment credit may be offered for this course. Please see your instructor.

This is the class for any current or past Marketing student to apply skills learned in Marketing to a real-world retail business! Students may work one to two class periods in the Spirit Store as a part of their regular school schedule. Duties include: product mix management, merchandise display, promotion, inventory control, managing a store budget, and other functions associated with running a business. This store is a classroom, meant to allow students to practice work-based learning in a controlled setting. Participation in the state-approved CTE Career & Technical Student Organization, DECA, is part of this class.

Marketing Internship

Course Code: MRK400A/B

Grade Level: 12 Prerequisite: Marketing I, II and teacher approval See Fee Schedule Page 12 Offered at: QCHS/EHS/CHS	Length of Course: 1 Year	1 Credit
---	---------------------------------	----------

This course is a year-long course devoted to the application of the technical skills gained through the Marketing program. Students will participate in a paid or unpaid internship on/off campus to practice and improve their skills in the Professional Sales and Marketing Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Participation in the state-approved CTE Career & Technical Student Organization, DECA, is part of this class.

Medical Assisting Services I

Course Code: MED100A/B

Grade Level: 9, 10, 11 See Fee Schedule Page 12 Offered at: CHS	Length of Course: 1 Year	1 Credit
--	---------------------------------	----------

This course is designed to prepare students for entry level employment in the medical industry. Students will learn basic anatomy and physiology, medical terminology, medical law and ethics, patient psychology and communications, medical office procedures, and clinical diagnostic examination, testing, and treatment procedures. Students will participate in the state-approved CTE Career & Technical Student Organization, Health Occupations Students of America (HOSA). Arizona Department of Education Medical Assisting Services standards are taught in this course and throughout the Medical Assisting Services program. Students must meet the attendance and grading requirements to remain in the program.

Medical Assisting Services II

Course Code: MED200A/B

Grade Level: 10, 11, 12 Prerequisite: Medical Assisting Services I and teacher approval See Fee Schedule Page 12 Offered at: CHS	Length of Course: 1 Year	1 Credit
---	---------------------------------	----------

May be offered for Dual enrollment credit

The course is designed to expand and strengthen students' technical knowledge and skills taught in Medical Assisting Services I. Students will apply academic and technical allied health knowledge and skills in a clinical setting. Skills include patient intake and care, routine diagnostic and recording procedures, pre-examination and examination assistance, and the administration of medications and first aid. Weekly clinical hours may extend beyond the regular school day. Students who complete this program will have the technical knowledge and skills to become certified as a Medical Assistant, Certified Phlebotomy Technician and/or Clinical Medical Assistant. Students must complete a TB test, obtain a fingerprint card and pass an industry-required drug test. Students will participate in the state-approved CTE Career & Technical Student Organization, Health Occupations Students of America (HOSA). Arizona Department of Education Medical Assisting Services standards are taught in this course and throughout the Medical Assisting Services program. Students must meet the attendance and grading requirements to remain in the program.

Medical Assisting Services Internship

Course Code: MED400A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Medical Assisting Services I, II, and teacher approval		
See Fee Schedule Page 12		
Offered at: CHS		

This course is a year-long course devoted to the application of the technical skills gained through the Medical Assisting Services program. Students will participate in a paid or unpaid internship to practice and improve their skills in the industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Participation in the state-approved CTE Career & Technical Student Organization, HOSA, is offered to students.

Nursing I

Course Code: NUR100A/B

Grade Level: 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		

This course is designed to prepare students for employment in the healthcare industry, specifically Nursing Services, while developing valuable technical skills. Students are introduced to assistant health care competencies through anatomy, physiology, medical terminology, legal and ethical responsibilities, safety and industry-specific leadership development. In addition, students will learn advanced employability skills including critical thinking skills, applied academic skills and life management skills. Students will participate in the state-approved CTE Career & Technical Student Organization, Health Occupations Students of America (HOSA). Arizona State Nursing Board curriculum and Arizona Department of Education Nursing Services standards are taught in this course and throughout the Medical Professions program. Students must meet the attendance and grading requirements to remain in the program.

Nursing II

Course Code: NUR200A/B

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Nursing I and teacher approval		
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		
May be offered for Dual enrollment credit		

This course prepares students for employment in the healthcare industry as Nursing Assistants. Students will apply academic and technical allied health knowledge and skills in a clinical setting. Weekly clinical hours may extend beyond the regular school day. Students who complete this program will have the technical knowledge and skills to become certified as a Nursing Assistant, the competencies to be accepted in a postsecondary health care program, and the skills to seek employment in new and emerging occupations. Students must complete a TB test, obtain a fingerprint card and pass an industry-required drug test. Students will participate in the state-approved CTE Career & Technical Student Organization, Health Occupations Students of America (HOSA). Arizona State Nursing Board curriculum and Arizona Department of Education Nursing Services standards are taught in this course and throughout the Medical Professions program.

Nursing Internship

Course Code: NUR400A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Nursing I, II, and teacher approval		
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		

This course is a year-long course devoted to the application of the technical skills gained through the Medical Professions program. Students will participate in a paid or unpaid internship to practice and improve their skills in the industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Participation in the state-approved CTE Career & Technical Student Organization, HOSA, is offered to students.

Software and App Design I**Course Code: SAD100A/B**

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		
Offered at: QCHS/EHS		

Project Lead the Way Computer Science Essentials will expose students to a diverse set of computational thinking concepts, fundamentals, and tools, allowing them to gain understanding and build confidence. Students will use visual, block-based programming and seamlessly transition to text-based programming with languages such as Python to create apps and develop websites and learn how to make computers work together to put their design into practice. Students will apply computational thinking practices, build their vocabulary, and collaborate just as computing professionals do to create products that address topics and problems important to them. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA or FBLA.

Software and App Design II**Course Code: SAD200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Software and App Design I		
See Fee Schedule Page 12		
Offered at: QCHS/EHS		

Project Lead the Way Computer Science Principles helps students develop programming expertise and explore the workings of the Internet. Projects and problems include app development, visualization of data, cybersecurity, and simulation. Using Python® as a primary tool and incorporating multiple platforms and languages for computation, this course aims to develop computational thinking, generate excitement about career paths that utilize computing, and introduce professional tools that foster creativity and collaboration. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA or FBLA.

Software and App Design III**Course Code: SAD300A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Software and App Design I & II		
See Fee Schedule Page 12		
Offered at: QCHS/EHS		

Project Lead the Way Computer Science A focuses on further developing computational-thinking skills through the medium of Android™ App development for mobile platforms. The course utilizes industry-standard tools such as Android Studio, Java™ programming language, XML, and device emulators. Students collaborate to create original solutions to problems of their own choosing by designing and implementing user interfaces and Web-based databases. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA or FBLA. Students are required to take the AP exam in the Spring.

Software and App Design Internship**Course Code: SAD400A/B**

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Software and App Design I,II, III		
See Fee Schedule Page 12		
Offered at: QCHS/EHS		

This course is a year-long course devoted to the application of the technical skills gained through the Software and App Design program. Students will participate in a paid or unpaid internship to practice and improve their skills in the Technology Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, SkillsUSA or FBLA.

Sports Medicine I**Course Code: SPM100A/B**

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
Prerequisite: Must be either concurrently taking or have already completed Biology		
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		
May be offered for dual enrollment credit		

Sports Medicine is designed for students interested in fields such as athletic training, physical therapy, medicine, fitness, physiology of exercise, kinesiology, nutrition, and other sports medicine related fields. They will also develop skills related to communication, problem solving, legal, and ethical aspects of health care. In addition, students will study the basic principles of human biology, health and wellness, first aid, and CPR. Through hands-on activities, the students will be able to experience simulated "on the job training" for specific medical-related skills such as taking vital signs, performing basic medical assessments, and providing basic first aid treatments. Students will participate in the state-approved CTE Career & Technical Student Organization, Health Occupations Students of America (HOSA). The Arizona Department of Education CTE Sports Medicine and Rehabilitation Services standards are taught in this course and throughout the Sports Medicine program.

Sports Medicine II**Course Code: SPM200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Sports Medicine I (C or better), Biology and Anatomy strongly suggested		
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		
<i>Dual Enrollment credit may be offered for this course. Please see your instructor.</i>		

Sports Medicine II is a class designed for students with a strong interest in pursuing a health care-related career, especially those in the Sports Medicine related field. The students will expand on and apply the knowledge gained in the Health Occupations/Sports Medicine I class to job specific skills. The curriculum will focus on athletic psychology, anatomy & physiology, nutrition and athletic-related injury treatment & rehabilitation. Students will participate in the state-approved CTE Career & Technical Student Organization, Health Occupations Students of America (HOSA). Students interested in an internship opportunity through the Athletic Training program are highly encouraged to take Sports Medicine II prior or in conjunction with the Athletic Training/Sports Medicine class.

Sports Medicine III: Athletic Training**Course Code: SPM300A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Sports Medicine I & II		
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		

This course is designed to allow students to gain knowledge and exposure in the area of athletic training through lecture, lab, and hands-on activities. This class is designed to provide learning through volunteer times and to give hands on opportunities when taken advantage by the student. Knowledge in athletic training deals with anatomy/physiology, signs and symptoms of athletic injuries and basic emergency care/first responder care of basic injuries. Other topics include rehabilitation of injuries and some surgical information, medical terminology, different population's needs, skin conditions, and some illnesses. Students in this course will have designated lab time to learn and practice various bracing methods (i.e. taping, wrapping and proper fitting of braces and immobilizers). Students will be exposed to the athletic training profession, through volunteering with many different sports and rehabilitation opportunities. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, Health Occupations Students of America (HOSA).

Sports Medicine Internship**Course Code: SPM400A/B**

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Sports Medicine I & II, application, and teacher approval OR Medical Professions I & II, application and teacher approval		
See Fee Schedule Page 12		
Offered at: QCHS/EHS/CHS		

The Health Occupations internship is an unpaid, yearlong course designed to give students a chance to experience a variety of healthcare work settings. Students must work a minimum of 120 hours per semester, 240 hours total. Participation is expected to average between 2 and 3 days a week. When the student is not at an off-campus site, he or she will be required to attend class and complete given assignments related to each site. The students must provide their own transportation to and from each site. Parent permission is required along with a signed Training Agreement and Training Plan. Students will also have the opportunity to participate in the state-approved CTE Career & Technical Student Organization, Health Occupations Students of America (HOSA).

Stagecraft I**Course Code: STG100A/B**

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		
Offered at: QCHS/CHS		

This course will introduce students to all areas of backstage theatre production. Students will be exposed to practical theatrical techniques that include lighting, sound, set, and costume design. Students will work closely with the Queen Creek Performing Arts Center Technical Theatre Department. This course is a prerequisite for Theatre II. The Arizona Department of Education CTE Technical Theatre standards are taught in this course and throughout the Technical Theatre program. Participation in the state-approved CTE Career & Technical Student Organization, SkillsUSA, is a part of this curriculum.

Stagecraft II**Course Code: STG200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Stagecraft I		
See Fee Schedule Page 12		
Offered at: QCHS/CHS		
<i>This course may be repeated for credit but not for grade change.</i>		

This course will expand on techniques learned in the previous course. Students will design sets, produce sets and execute an entire performance. Students will be introduced to rigging and planning all visual aspects of a performance. Students will be required to devote time outside of the traditional school day to school performances. Students will work closely with the Queen Creek Performing Arts Center Technical Theatre Department working with rigging lights, sound boards and producing a show. Participation in the state-approved CTE Career & Technical Student Organization, SkillsUSA, is a part of this curriculum. This course is a prerequisite for Technical Theatre Internship.

Stagecraft Internship**Course Code: STG400A/B**

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Stagecraft I & II		
See Fee Schedule Page 12		
Offered at: QCHS/CHS		

This course is a year-long course devoted to the application of the technical skills gained through the Technical Theatre program. Students will participate in a paid or unpaid internship to practice and improve their skills in the Performance and Entertainment Industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Each student must provide his or her own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Students must work a minimum of 120 hours per semester, 240 hours total.

Veterinary Assisting I**Course Code: VAS100A/B**

Grade Level: 9, 10, 11	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		

The Veterinary Assisting program prepares students, under the supervision of veterinarians, laboratory animal specialists, and zoological professionals, to provide patient management, care, and clinical procedural assistance. Veterinary Assisting I introduces students to animal nursing care, animal health and nutrition, animal handling, clinical pathology, radiology, anesthesiology, dental prophylaxis, surgical assisting, clinical laboratory procedures, office administration skills, patient and owner management, and applicable standards and regulations. Participation in the state-approved CTE Career & Technical Student Organization, HOSA/FFA, is part of this class. The Arizona Department of Education CTE Veterinary Assisting standards are taught in this course and throughout the Veterinary Assisting program.

Veterinary Assisting II**Course Code: VAS200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Veterinary Assisting I		
See Fee Schedule Page 12		

This course prepares students for employment in the veterinary industry as Veterinary Assistants. Students will apply academic and technical allied health knowledge and skills in a clinical setting under the supervision of a local veterinarian. Weekly clinical hours may extend beyond the regular school day. Students who complete this program will have the technical knowledge and skills to become certified as a Veterinary Assistant. Students will participate in the state-approved CTE Career & Technical Student Organization, HOSA/FFA. The Arizona Department of Education CTE Veterinary Assisting standards are taught in this course and throughout the Veterinary Assisting program.

Veterinary Assisting Internship**Course Code: VAS400A/B**

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Veterinary Assisting I, II and teacher approval		
See Fee Schedule Page 12		

This course is a year-long course devoted to the application of the technical skills gained through the Veterinary Assisting program. Students will participate in a paid or unpaid internship to practice and improve their skills in the industry. Appropriate internship placement assistance will be provided by the Internship coordinator. All students are required to comply with all industry and placement specific regulations. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan. Participation in the state-approved CTE Career & Technical Student Organization, HOSA/FFA, is a part of this program.

Junior Officer Training Corps (JROTC)

The QCUSD High School Junior Officer Training Corps (JROTC) program emphasizes citizenship and leadership. The JROTC Mission Statement is "To motivate young people to be better citizens." It is designed to teach high school students the value of citizenship, leadership, service to the community, personal responsibility, living a healthy lifestyle, and sense of accomplishment. JROTC develops students' self-esteem, teamwork and discipline. The program is a stimulus for promoting graduation from high school and provides instruction and rewarding opportunities that benefit the student, community, and nation.

JROTC Core Abilities

- Apply critical thinking techniques
- Build your capacity for life-long learning
- Communicate using verbal, non-verbal, visual, and written techniques
- Do your share as a good citizen in your school, community, country, and the world
- Take responsibility for your actions and choices
- Treat self and others with respect

Each Leadership and Education Training (LET) year is taught sequentially (starting with LET 1 and progressing through LET 4). The curriculum also includes a number of additional activities unique to the JROTC cadets such as the Drill Team and the Color Guard

Team, along with associated competitive events and meetings. There is also the opportunity to attend a one-week summer camp and weekend leadership training events that stress adventure type training and leadership skills training. There will be a mandatory military ball scheduled each year.

The following applies to JROTC LET classes: The JROTC curriculum, which fully or partially addresses a number of national academic standards - to include Arizona Academic State Standards - includes course work on leadership, civics, geography and global awareness, health, and wellness, language arts, life skills, and U.S. history. The curriculum is based on the principles of performance-based, learner-centered education and promotes development of core abilities: capacity for life-long learning, communication, responsibility for actions and choices, good citizenship, respectful treatment of others, and critical thinking techniques. There are classroom uniform requirements and JROTC events that will be scheduled throughout the year that are a program requirement.

JROTC Leadership and Education Training (LET I)

Course Code: AJR100A/B

Grade Level: 9, 10, 11, 12
See Fee Schedule Page 12
Offered at: QCHS CHS, QCJH

Length of Course: 1 Year

1 Credit

Dual Enrollment credit may be offered for this course. Please see your instructor.

LET I "The Emerging Leader" is the first of four courses in the JROTC high school program. The knowledge, skills, and abilities you will acquire as a LET I are covered in six chapters: JROTC foundations, Personal Growth and Behaviors, Team Building, Decision Making, Health and Fitness, and Service Learning. The course includes introduction to leadership theory and application, foundations for success, communication/study skills, citizenship, military customs and courtesies, physical training, drill, and the history and objective of JROTC. Cadets gain an understanding of their rights, responsibilities (including respect for constituted authority), privileges and freedoms that underlie good citizenship. They must demonstrate the ability to think logically and communicate effectively, with emphasis on effective oral communication and participation in a service-learning activity. The program stresses physical fitness in maintaining good health and appearance. LET I cadets can participate in JROTC extra-curricular activities and competitive teams.

JROTC Leadership and Education Training (LET II)

Course Code: AJR200A/B

Grade Level: 10, 11, 12
Prerequisite: JROTC Leadership and Education Training (LET I)
See Fee Schedule Page 12
Offered at: QCHS and CHS

Length of Course: 1 Year

1 Credit

The Physical Education requirement for graduation will be satisfied upon completion of LET I and LET II.
Dual enrollment credit may be offered for this course. Please see your instructor.

LET II "The Developing Leader" is the second of four courses in the JROTC high school program. This course will build on and apply the leadership and communication skills that students learned during their LET I year. The knowledge, skills, and abilities you will acquire as a LET II are covered in eight chapters: Leadership, Personal Growth and Behaviors, Team Building, First Aid, Decision Making, Health and Fitness, Service Learning, and Citizenship and Government. The course includes elements of leadership (leadership competencies and attributes), improving written and oral communication, ethical decision making, team building, first aid for common injuries, rights of citizens and evaluating service-learning projects. The program continues to stress physical fitness in maintaining good health and appearance. Students will be able to demonstrate leadership principles with an emphasis on squad, platoon and company level positions. LET II students will begin to assume leadership roles within the program to solidify the leadership concepts they are learning. LET II cadets can participate in JROTC extra-curricular activities and competitive teams.

JROTC Leadership and Education Training (LET III)

Course Code: AJR300A/B

Grade Level: 11, 12
Prerequisite: JROTC Leadership and Education Training (LET II)
See Fee Schedule Page 12
Offered at: QCHS and CHS

Length of Course: 1 Year

1 Credit

Dual Enrollment credit may be offered for this course. Please see your instructor.

LET III "The Supervising Leader" is the third of four courses in the JROTC high school program. This course will build on and apply the leadership and communication skills that students learned during their LET II year. The knowledge, skills, and abilities you will acquire as a LET III are covered in seven chapters: Leadership, Personal Growth and Behaviors, Team Building, Decision Making, Health and Fitness, Service Learning, and Citizenship and Government. The course includes advanced leadership (command and staff roles), continuous improvement, leading meetings, supervising others, personal planning and post-secondary action plans, platoon drills, negotiating with others, preventing substance abuse, planning service-learning projects, and civic duties and responsibilities. The program continues to stress physical fitness in maintaining good health and appearance. Students will be able to demonstrate leadership principles with an emphasis on company and battalion level positions. LET III students will assume leadership roles within the program to solidify the leadership concepts they are learning. LET III cadets can participate in JROTC extra-curricular activities and competitive teams.

JROTC Leadership and Education Training (LET IV)**Course Code: AJR400A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: JROTC Leadership and Education Training III		
See Fee Schedule Page 12		
Offered at: QCHS and CHS		
<i>This course may be repeated for credit but not for grade change.</i>		
<i>Dual Enrollment credit may be offered for this course. Please see your instructor.</i>		

LET IV "The Managing leader" is the fourth of four courses in the JROTC high school program. This course will build on and apply the leadership and communication skills that students learned during their LET III year. The knowledge, skills, and abilities you will acquire as a LET IV are covered in five chapters: Leadership, Personal Growth and Behaviors, Team Building, Service Learning, and Citizenship and Government. The course includes advanced leadership and management concepts, leading continuous improvement initiatives, leading meetings, personal planning and life after high school plans, company and battalion drills, motivating others, managing service-learning projects, and citizen rights. The program continues to stress physical fitness in maintaining good health and appearance. Students will be able to demonstrate leadership principles with an emphasis on battalion level positions. LET IV students will assume leadership roles within the program to solidify the leadership concepts they are learning. LET IV cadets will lead JROTC extracurricular activities and competitive teams. LET IV students will assist the JROTC instructors with developing standard operating procedures, training calendars, and participate in JROTC Program Accreditation visits and inspections.

JROTC Drill/Special Teams**Course Code: AJR500A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Concurrent enrollment in I,II, III, or IV		
See Fee Schedule Page 12		
Offered at: QCHS and CHS		
<i>Dual Enrollment credit may be offered for this course. Please see your instructor.</i>		

All cadets on JROTC Special Teams will be required to practice with their assigned team. Participating students may be eligible to earn a varsity letter. Students on special teams must also be registered at <http://registermyathlete.com>, complete the online concussion training at <http://www.aiaacademy.org/users/login>, have a complete and current sports physical (only for Raiders Team), and achieve a 2.0 GPA or higher in all of their classes at progress report and quarterly grades. The purpose of JROTC special teams is to provide an opportunity for cadets to excel in demanding competitions throughout Arizona and to strengthen their teamwork, physical fitness, discipline, coordination, self-confidence and self-esteem.

Navy National Defense Cadet Corps (NNDCC)

The NNDCC program develops self-discipline, self-confidence, leadership potential and teamwork skills to successfully meet life's challenges. Naval Science classes are offered as elective courses with the primary objective of developing students, called **cadets**, into more responsible citizens with an appreciation for service to school and community.

Extra-curricular activities include field trips to military facilities, science and engineering-based companies, competitions with other NJROTC/NNDCC/other service JROTC schools in athletic events and unit field meets, performances by cadets in local parades and similar public ceremonies, as well as participation in school events as guides, escorts, and ushers. Cadets are heavily involved in numerous community service projects, and enjoy a healthy social program that includes picnics, and an annual military ball.

NNDCC I**Course Code: NND100A/B**

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		
Offered at: EHS		
<i>Dual Enrollment credit may be offered for this course. Please see your instructor.</i>		

The course content includes instruction on oceanography, meteorology, sea power, navigation, behavioral management, applied leadership, discipline, health education and current events. Military drill, physical fitness training, military formations and ceremonies supplement classroom instruction.

NNDCC II**Course Code: NND200A/B**

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: NNDCC1 (NJROTC1)		
See Fee Schedule Page 12		
Offered at: EHS		
<i>Dual Enrollment credit may be offered for this course. Please see your instructor.</i>		

This course builds on the foundations established in Naval Science I, offering students a more advanced exploration of naval studies and leadership development. It is designed for cadets seeking continued training in maritime subjects and expanded opportunities to strengthen their leadership skills. Areas of study include maritime history, leadership, maritime geography, meteorology, astronomy, physical science, and oceanography. With approval from the Senior Naval Science Instructor and the school principal, Naval Science II and Naval Science III curriculum topics may be alternated on an annual basis.

NNDCC III**Course Code: NND300A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: NNDCC2 (NJROTC2)		
See Fee Schedule Page 12		
Offered at: EHS		
<i>Dual Enrollment credit may be offered for this course. Please see your instructor.</i>		

This advanced course is intended for cadets seeking higher-level training in naval subjects and expanded leadership experience while serving in cadet officer roles. Naval Science III cadets may also be selected for staff positions within the unit. Areas of study include national security, naval operations and support functions, military law, ship construction, shipboard organization, seamanship, navigation, and naval weapons and aircraft. With approval from the Senior Naval Science Instructor and the school principal, Naval Science II and Naval Science III curriculum topics may be alternated on an annual basis.

English

Pathway	9th Grade	10th Grade	11th Grade	12th Grade
Standard	English 9	English 10	English 11	English 12
Honors	Honors English 9	Honors English 10	AP Language and Composition	College Prep 1 College Prep 2 AP Literature and Composition

English 9**Course Code: ENG100A/B**

Grade Level: 9	Length of Course: 1 Year	1 Credit
-----------------------	---------------------------------	-----------------

This course introduces students to reading, writing, language, and speaking at the high school level. Through a study of short stories, novels, dramas, and poetry, students will become familiar with the elements of literature. Students will also engage with informational texts in a variety of formats to develop critical reading skills. An emphasis on writing, grammar study, discussion skills, vocabulary, and analysis develops students' critical thinking and communication skills.

Honors English 9**Course Code: ENG110A/B**

Grade Level: 9	Length of Course: 1 Year	1 Credit – Weighted
-----------------------	---------------------------------	----------------------------

This course includes and builds upon the skills developed in the English 9 course. Honors English 9 students will deepen and broaden their knowledge and understanding through the study of alternative and/or additional reading and writing assignments. Honors students will be expected to perform more complex analysis of content and will be accountable to a higher standard with regard to the complexity and accuracy of their writing than those in a standard English 9 course.

English 10**Course Code: ENG200A/B**

Grade Level: 10	Length of Course: 1 Year	1 Credit
Prerequisite: English 9 or Honors English 9		

This course continues to develop students' reading, writing, language, and speaking skills at the high school level. Students will develop higher-level thinking skills through the study of a diverse cross-section of literature and expository texts. Literature studies of short stories, novels, drama, and poetry continue to advance students' proficiency in literary terminology, critical and analytical reading, and appreciation of literature. A strong focus on the processes of writing and researching, in addition to grammar and vocabulary study, will develop students' communication skills.

Honors English 10**Course Code: ENG210A/B**

Grade Level: 10	Length of Course: 1 Year	1 Credit - Weighted
Prerequisite: English 9 or Honors English 9		

This course includes and builds upon the skills developed in the English 10 course. The curriculum is designed to develop advanced language, reading, and analysis skills. Honors students will deepen and broaden their knowledge and understanding through the study of alternative and/or additional reading and writing assignments and will be expected to show evidence of higher-level thinking and independence in their work. Students will be accountable to a higher standard with regard to the complexity and accuracy of their writing than those in a standard English 10 course.

English 11**Course Code: ENG300A/B**

Grade Level: 11	Length of Course: 1 Year	1 Credit
Prerequisite: English 10 or Honors English 10		

This course refines students' reading, writing, language, and speaking skills at the high school level through an integrated program of writing and critical reading. Students will continue to develop an understanding of literary elements and how social, economic,

and/or political issues of the time are reflected in literature through the study of short stories, novels, dramas, poetry, and a variety of informational texts and seminal documents. Students will use writing, grammar, and discourse skills to respond to literature critically, reflectively, and imaginatively. Students will continue to refine their writing and research skills to produce clear, coherent, and thorough analysis, argument, and informational writing.

AP Language and Composition

Course Code: ENG320A/B

Grade Level: 11	Length of Course: 1 Year	1 Credit- Weighted
Prerequisite: English 10 or Honors English 10		
See Fee Schedule Page 12		
Dual enrollment credit may be offered for this course (ENG101/102). Please see your instructor.		

This course aligns to the Advanced Placement Language and Composition curriculum, an introductory college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through the writing process. Students evaluate, synthesize, and cite research to support their arguments. Additionally, students analyze the interactions of authorial purpose, intended audience, and rhetorical elements in non-fiction texts from many disciplines and historical periods. This course may also offer dual enrollment in English 101/102 for college credit. **This course is designed to prepare students for the Advanced Placement exam in May. Students in this course are required to take the AP exam.** AP and dual enrollment courses are college-level courses; some reading selections may contain mature subject matter.

English 12

Course Code: ENG400A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: English 11 or AP Language and Composition		

This course refines and elevates students' reading, writing, language, and speaking skills for success in college and careers. Students will continue to develop and expand their knowledge of critical and analytical writing using a variety of literary and expository text selections. An emphasis on research, evaluation, and academic writing hones students' communication and critical thinking skills. All students will create a post-secondary plan utilizing 21st century career skills.

English 12-College Prep 1

Course Code: ENG430A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit- Weighted
Prerequisite: English 11		
Dual enrollment credit may be offered for this course (ENG101/102). Please see your instructor.		

This course refines and elevates students' reading, writing, language, and speaking skills for success in college and careers. Students will continue to develop and expand their knowledge of critical and analytical writing using a variety of literary and expository text selections. An emphasis on research, evaluation, and academic writing hones students' communication and critical thinking skills. All students will create a post-secondary plan utilizing 21st century career skills. This course is offered as a Dual Enrollment course for ENG101/102 credit.

English 12-College Prep 2

Course Code: ENG440A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit- Weighted
Prerequisite: ENG 101/102 or Equivalent test score		
Dual enrollment credit may be offered for this course (ENG111/CRW150). Please see your instructor.		

This course refines and elevates students' reading, writing, language, and speaking skills for success in college and careers. Students will continue to develop and expand their knowledge of critical and analytical writing using a variety of literary and expository text selections. This course is designed for students interested in dual enrollment credit for English 111 and Creative Writing 150.

AP Literature and Composition

Course Code: ENG420A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit-Weighted
Prerequisite: English 11 or AP Language and Composition		
See Fee Schedule Page 12		
Dual enrollment credit may be offered for this course. Please see your instructor.		

This course aligns to the Advanced Placement Literature and Composition curriculum, a college-level course focused on reading, analyzing, and writing about literature from various time periods to include poetry, drama, and fiction. Students evaluate structure, style, and themes, use of figurative language, imagery, and symbolism. All students will create a post-secondary plan utilizing 21st century career skills. This course may also offer dual enrollment in English-Humanities 110/111 for college credit. **This course is designed to prepare students for the Advanced Placement exam in May. Students in this course are required to take the AP exam.** AP and dual enrollment courses are college-level courses; some reading selections may contain mature subject matter.

Fine Arts

Marching Band and Color Guard

Course Code: **BND100**

Grade Level: 9, 10, 11, 12

Length of Course: 1 Semester/Fall Only

½ Credit

Prerequisite: Audition and approval by the director. Concurrent enrollment in either the Wind Ensemble or the Symphonic Winds is highly encouraged.

See QCUSD Athletics/Extracurricular Fees

School Instrument Rental Fee: \$50

This course, if taken for 4 semesters, will satisfy the one Physical Education credit required for graduation.

This course may be repeated for credit but not for grade change.

The main emphasis of this course will be learning how to move in a synchronized manner with music. Students will also work on improving intonation, blend, balance, dynamics, articulation, phrasing, and working as a team. The Marching Band performs at athletic events, parades, assemblies and Marching Band festivals throughout the fall semester. Extensive after-school, evening, and weekend commitments will be expected.

Percussion

Course Code: **BND180A/B**

Grade Level: 9, 10, 11, 12

Length of Course: 1 year

1 Credit

Prerequisite: Must be concurrently enrolled in marching band in fall semester and director may ask for an audition.

See Fee Schedule Page 12

School Instrument Rental Fee: \$50

This course may be repeated for credit but not for grade change.

Open to all band students with prior band experience. Percussion is a performance ensemble for the developing band student. This class will concentrate on developing basic playing skills such as tone production, rhythmic proficiency, and technical ability. This course will include participation in local concerts and festivals. Appropriate performance attire is required.

Symphonic Winds

Course Code: **BND130A/B**

Grade Level: 9, 10, 11, 12

Length of Course: 1 Year

1 Credit

Prerequisite: Students may be asked to audition.

See Fee Schedule Page 12

School Instrument Rental Fee: \$50

This course may be repeated for credit but not for grade change.

Open to all band students with prior band experience. Symphonic Winds is a performance ensemble for the developing band student. This class will concentrate on developing basic playing skills such as tone production, rhythmic proficiency, intonation, and technical ability. This course will include participation in local concerts and festivals. Appropriate performance attire is required.

Chamber Wind Ensemble

Course Code: **BND120A/B**

Grade Level: 10, 11, 12

Length of Course: 1 year

1 Credit

Prerequisite: Audition required.

See Fee Schedule Page 12

School Instrument Rental Fee: \$50.00

This course may be repeated for credit but not for grade change.

This course is intended for accomplished and advanced musicians. This ensemble will concentrate on studying standard wind ensemble repertoire as well as new works. Students will develop an understanding of music performance, culture and history while rehearsing and performing. This course will include participation in local concerts and festivals. Appropriate performance attire is required.

Jazz Band

Course Code: **BND150**

Grade Level: 9, 10, 11, 12

Length of Course: 1 semester/spring semester

½ Credit

Prerequisite: Must pass audition.

See Fee Schedule Page 12

School Instrument Rental Fee: \$50.00

This course may be repeated for credit but not for grade change.

This course is designed for more advanced musicians. This group will study and perform various genres of jazz such as blues, rock, and standard jazz band music. Attendance at rehearsals and performances outside the school may be required. Appropriate performance attire is required.

Jazz Band & Improvisation

Course Code: **BND155**

Grade Level: 9, 10, 11, 12

Length of Course: 1 semester/spring semester

½ Credit

Prerequisite: Must pass audition.

See Fee Schedule Page 12

School Instrument Rental Fee: \$50.00

This course may be repeated for credit but not for grade change.

This course is designed for more advanced musicians. This group will study and perform various genres of jazz such as blues, rock, and standard jazz band music in the jazz combo setting. Students will build an advanced understanding of Jazz Improvisation and

aesthetic jazz practices. Attendance of rehearsals and performances outside the school may be required. Appropriate performance is required.

Women's Choir

Course Code: **CHR100A/B**

Grade Level: 9, 10, 11, 12 Prerequisite: Placement by Choral Director See Fee Schedule Page 12 <i>This course may be repeated for credit but not for a grade change.</i>	Length of Course: 1 Year	1 Credit
--	---------------------------------	-----------------

Students will learn basic vocal technique, music reading skills, and performance techniques through the study and performance of various genres of choral music. Attendance at all concerts and festivals will be mandatory.

Men's Choir

Course Code: **CHR120A/B**

Grade Level: 9, 10, 11, 12 Prerequisite: Audition or recommendation of director. See Fee Schedule Page 12 <i>This course may be repeated for credit but not for a grade change.</i>	Length of Course: 1 Year	1 Credit
---	---------------------------------	-----------------

Students will learn vocal technique, music reading skills, and performance techniques through the study and performance of various genres of choral music. Attendance at all concerts and festivals will be mandatory.

Chorale

Course Code: **CHR110A/B**

Grade Level: 9, 10, 11, 12 Prerequisite: Audition or recommendation of director. See Fee Schedule Page 12 <i>This course may be repeated for credit but not for a grade change.</i>	Length of Course: 1 Year	1 Credit
---	---------------------------------	-----------------

Students will learn basic vocal technique, music reading skills, and performance techniques through the study and performance of various genres of choral music. Attendance at all concerts and festivals will be mandatory.

Concert Orchestra

Course Code: **ORC115A/B**

Grade Level: 9, 10, 11, 12 Prerequisite: Instructor Approval Only See Fee Schedule Page 12 School Instrument Rental Fee: \$50.00 <i>This course may be repeated for credit but not for grade change.</i>	Length of Course: 1 Year	1 Credit
--	---------------------------------	-----------------

Concert Orchestra focuses on the continuing development of intermediate string techniques. Music from a variety of styles will be studied and prepared for performance throughout the year. Students will have the opportunity to perform at concerts and at festivals. Students will travel to some of the performance sites. Concert Orchestra is a preparatory course for Symphonic Strings. Attendance and participation in class / rehearsals, and outside of school performances (concerts and festivals) is mandatory. Placement is by teacher approval / previous orchestra experience only. This course may be repeated for credit, but not for grade.

Symphonic Strings

Course Code: **ORC120A/B**

Grade Level: 9, 10, 11, 12 Prerequisite: Audition only See Fee Schedule Page 12 School Instrument Rental Fee: \$50.00 <i>This course may be repeated for credit but not for grade change.</i>	Length of Course: 1 Year	1 Credit
---	---------------------------------	-----------------

Symphonic Strings focuses on the introduction and development of advanced string techniques. Literature from all periods of music and a variety of musical genres may be explored and prepared for performance. Participation in Symphonic strings involves rigorous rehearsals, and multiple performance opportunities at concerts and festival competitions. Opportunities for overnight and out-of-state travel with this group are possible. This Orchestra may be expected to perform at school and community functions. Students will be exposed to a college-preparatory curriculum in music performance and theory. Some elements of composition may also be introduced in this course. Involvement may include occasional but required practices before and/or after school. Appropriate performance attire is required. Placement is by teacher audition only. This course may be repeated for credit, but not for grade.

Sinfonietta/Symphony Orchestra

Course Code: **ORC125A/B**

Grade Level: 9, 10, 11, 12 Prerequisite: Audition only See Fee Schedule Page 12 School Instrument Rental Fee: \$50.00 <i>This course may be repeated for credit but not for grade change.</i>	Length of Course: 1 Year	1 Credit
---	---------------------------------	-----------------

Sinfonietta / Symphony Orchestra will focus on the development of advanced string techniques via the performance of advanced high school and college level orchestral literature for both string and, where possible, full symphony orchestra. This class will focus on literature from all historical music periods and a variety of music genres. Participation in Sinfonietta / Symphony Orchestra involves rigorous rehearsals, and multiple performance opportunities at concerts and festivals / competitions. Participation in this course will prepare students for honor ensemble auditions and college entrance auditions. College preparatory elements of music history and theory will also be covered in this course and may vary from year to year. The Orchestra will be expected to perform at school and community functions. Involvement may include occasional but required practices before and/or after school.

Opportunities for overnight and out-of-state travel with this group are likely, and participation in such travel activities by all students is expected. Attendance and participation in class / rehearsals, and outside of school performances (concerts and festivals) is mandatory. Appropriate performance attire is required. Placement is by teacher audition only. This course may be repeated for credit, but not for grade.

Piano I	Course Code: PIA100A/B
Grade Level: 9, 10, 11, 12	Length of Course: 1 Year
Prerequisite: None	1 Credit
See Fee Schedule Page 12	

This course is for students who would like to learn basic piano and music reading skills. This course is designed for students with limited or no experience playing the piano.

Piano II	Course Code: PIA200A/B
Grade Level: 9, 10, 11, 12	Length of Course: 1 Year
Prerequisite: Piano I or Audition	1 Credit
See Fee Schedule Page 12	

This course is designed to be a continuation of Piano I. Piano II is for students who have successfully completed Piano I, or students who have a substantial background playing the piano.

Piano Independent Study	Course Code: PIA400A/B
Grade Level: 9, 10, 11, 12	Length of Course: 1 Year
Prerequisite: Piano II or Audition	1 Credit
See Fee Schedule Page 12	
<i>This course may be repeated for credit but not for grade change.</i>	

This course is designed for students who have already mastered the skills covered in Piano I and Piano II. Students will be given independent assignments to continue learning about new concepts in piano music such as chord inversions, sixteenth notes, minor keys, the circle of 5th, cadences, additional key signatures, and the three forms of the minor scale.

Guitar I	Course Code: GUI100A/B
Grade Level: 9, 10, 11, 12	Length of Course: 1 Year
See Fee Schedule Page 12	1 Credit
School Instrument Rental Fee: \$50.00	
<i>Students need to supply their own 6 string acoustic guitar.</i>	

Guitar courses introduce students to the fundamentals of music and guitar-playing techniques, such as strumming and chords. These courses may also include more advanced guitar-playing techniques. This course is designed for beginning students and will develop basic instrumental skills on the guitar, including music reading (standard notation), scales, chords, tablature notation, method exercises, and rhythm and tone production.

Guitar II	Course Code: GUI200A/B
Grade Level: 9, 10, 11, 12	Length of Course: 1 Year
Prerequisite: Successful completion of Guitar I or instructor approval. Students must be able to read music.	1 Credit
See Fee Schedule Page 12	
School Instrument Rental Fee: \$50.00	
<i>Students need to provide their own 6 string acoustic guitar.</i>	

Guitar courses introduce students to the fundamentals of music and guitar-playing techniques, such as strumming and chords. These courses may also include more advanced guitar-playing techniques. This class is oriented more toward students that have had some prior music experience. Focus will be on advanced music reading, exploring chord patterns and strumming techniques. Ensemble participation is an integral part of the class. Students will also have opportunities to perform in small groups and large ensembles.

Advanced Guitar/ Independent Study	Course Code: GUI400A/B
Grade Level: 9, 10, 11, 12	Length of Course: 1 Year
Prerequisite: Successful completion of Guitar I or instructor approval. Students must be able to read music.	1 Credit
See Fee Schedule Page 12	
School Instrument Rental Fee: \$50.00	
<i>Students need to provide their own 6 string acoustic guitar.</i>	
<i>This course may be repeated for credit but not for grade change.</i>	

In Advanced Guitar/Independent Study, students will refine and further their skills in classical technique, as well as the exploration and implementation of jazz, rock, flamenco, and other styles of guitar playing. Students will also perform ensemble music and work on individual solos. The college audition portion of the lead guitar curriculum will be addressed and focused on for interested students. Course will require performances and master classes outside of the school day.

Introduction to Music Theory & Aural Perception**Course Code: MUS200A/B****Grade Level: 9, 10, 11, 12**
See Fee Schedule Page 12**Length of Course: 1 year****1 Credit***College Credit may be offered for this course*

This course is designed to develop both written and aural skills necessary for advanced study of music. The course competencies associated with this course are a combination of MTC101 (3 credits) and MTC103 (1 credit) through the Maricopa Community Colleges. Currently, only MTC101 is available for dual enrollment credit. The theory concepts covered will include the written musical notation system, scales, intervals, and triads. Aural skills will include musical notation, rhythm, intervals, melodies, and triads. Assessments will include written work such as dictation as well as sight singing.

AP Music Theory**Course Code: MUS310A/B****Grade Level: 10, 11, 12**
See Fee Schedule Page 12**Length of Course: 1 year****1 Credit-Weighted***College credit may be offered for this course.*

This course is designed for students interested in music composition and basic music theory fundamentals. The course will coincide with the AP Music Theory Curriculum and will be structured along its guidelines. Students will gain an understanding of music notation, harmony, chord structures, part writing, arranging and composition. Students will be required to take the Advanced Placement music theory test at the end of the school year.

Theatre Arts I**Course Code: THA100A/B****Grade Level: 9, 10, 11, 12**
See Fee Schedule Page 12**Length of Course: 1 Year****1 Credit**

This course will introduce students to all areas of the theatre. Students will experience acting and improvisation, including audition techniques, movement and voice, script writing, theatre history, puppetry, set and costume design. This course is a prerequisite for Theatre Arts II.

Theatre Arts II**Course Code: THA200A/B****Grade Level: 10, 11, 12**
Prerequisite: Theatre Arts I**Length of Course: 1 Year****1 Credit****See Fee Schedule Page 12**

Theatre Arts II expands the students' skills learned in Theatre Arts. The focus of study is theatre history and its various acting styles, voice and dialect, reader's theatre, Foley art, and writing and performing original short plays and scripted scenes in class. In addition, the students will learn to design and prepare for their own in-class performances. This course is a prerequisite for Theatre Arts III.

Theatre Arts III**Course Code: THA300A/B****Grade Level: 11, 12**
Prerequisite: Theatre Arts I & II, and/or Audition Only
See Fee Schedule Page 12**Length of Course: 1 Year****1 Credit**

Students must audition in the spring of the previous year for enrollment into Theatre Arts III. The focus of this course is putting all techniques learned in the previous classes to practice in technical design, producing and performing in various one acts, scripted and original, as well as exploring scripts from various films. Students will learn to direct, stage manage, and set, costume and design their own productions.

Theatre Arts IV**Course Code: THA400A/B****Grade Level: 12**
Prerequisite: Theatre II & III, and/ or Audition Only
See Fee Schedule Page 12**Length of Course: 1 Year****1 Credit**

Students must audition in the spring of the previous year for enrollment into Theatre Arts IV. This course will focus on auditions for professional and college admissions as well as International Thespian requirements. Students will explore the different types of theatre and acting at the university and professional level.

Intro to Art**Course Code: ART100A/B****Grade Level: 9, 10, 11, 12**
See Fee Schedule Page 12**Length of Course: 1 Year****1 Credit**

This beginning survey class will provide students with the foundation for advanced visual art courses. In this course, emphasis will be placed on understanding the Elements of Art and Principles of Design as a basis for composition. Students will explore a variety of artists, art processes and materials such as drawing, painting, two & three-dimensional design. Student artwork will reflect aesthetics & cultural and historical contexts. A journal sketchbook is required.

Drawing and Painting**Course Code: ART200A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Intro to Art		
See Fee Schedule Page 12		

This course is a second-year course that provides an opportunity for students to expand on the drawing and painting concepts introduced in Intro to Art. Emphasis is placed on experiences with design principles, drawing techniques, and painting skills leading to the development of abilities that are necessary for advanced art courses. Students are given more in-depth problems to solve creatively while becoming more adept through a broad exposure to various media that offer opportunities to execute in self-expression. A journal sketchbook is required.

Advanced Drawing and Painting**Course Code: ART220A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Intro to Art, and Drawing and Painting		
See Fee Schedule Page 12		

This course may be repeated for credit but not for grade change.

This course is an advanced course designed for the student who wishes to further develop skills and techniques that were introduced in previous drawing and painting courses. Students will be continually encouraged to expand their creative ideas as well as their technical potential. This is a desirable course for any student wishing to develop a portfolio for college. Students will practice self-discipline, goal setting, effective attitudes, and active participation to prepare them for success in the visual arts as well as for lifelong learning. Students will also learn about career pathways in the visual arts as well as recognize the impact of new technology as a means to broaden and expand upon their artistic knowledge and skills. Students will analyze visual information, responding to artists' works as well as their own, in written and oral form using critical thinking and philosophical theory to make their judgments. Students will also demonstrate knowledge of the historical timeline of art and its effect on the development of society. A journal sketchbook is required.

Ceramics I**Course Code: ART230A/B**

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
See Fee Schedule Page 12		

This class is designed for students who have an interest in working with clay, and gives students experience in making functional as well as sculptural pieces using a variety of techniques. Students will learn the basic hand building techniques using the pinch pot, coil, and slab methods. This course will emphasize the elements and principles of the 3-dimensional forms. In the second semester, students will continue using hand building techniques (slab, pinch and coil). In addition, students will learn basic wheel throwing techniques.

Ceramics II**Course Code: ART240A/B**

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: 1 credit of Ceramics I		
See Fee Schedule Page 12		

This course may be repeated for credit but not for grade change.

This class will provide an advanced level of enrichment in creative expression and skills refinement using a variety of clay techniques. These techniques include coil, slab, sculpture, wheel thrown, and glazing. The principles and elements of art will be emphasized. This class is designed as an "open studio" environment. Students will refer to the list of required projects and work at their own pace.

AP Art Studio**Course Code: ART400A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit-Weighted
Prerequisite: Students must complete 2 prior visual art classes and/or teacher approval		
See Fee Schedule Page 12		

College credit may be offered for this course.

AP studio Art offers skilled junior or senior art students' guidelines and instructions in the production and presentation of a portfolio for occupational or higher education placement. This course focuses on a variety of concepts and approaches, enabling students to demonstrate in-depth knowledge of the processes, a range of abilities, and versatility with media, technique, problem solving, and scope. Students will specialize in one of three portfolio options: 2-D, 3-D, or Drawing/Painting. Students enrolled in this course are expected to submit a portfolio to the College Board in the Spring.

General Electives

AP Seminar (Year 1 of AP Capstone)

Course Code: ENG450A/B

Grade Level: 10,11,12

Length of Course: 1 Year

1 Credit-Weighted

Prerequisite: One or more AP Courses or Teacher Approval

See Fee Schedule Page 12

Does not count as an English credit.

AP Seminar is a foundational course that engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, research studies, and foundational literary and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts; and experiencing artistic works and performances. Students learn to synthesize information from multiple sources, develop their own perspectives in research-based written essays, and design and deliver oral and visual presentations, both individually and as part of a team. Ultimately, the course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based arguments. AP and dual enrollment courses are college-level courses, and some reading selections may contain mature subject matter. **This course is designed to prepare students for the Advanced Placement exam in May. Students in this course are required to take the AP exam.**

AP Research (Year 2 of AP Capstone)

Course Code: ENG460A/B

Grade Level: 11,12

Length of Course: 1 Year

1 Credit-Weighted

Prerequisite: Successful completion of AP Seminar

See Fee Schedule Page 12

Does not count as an English credit.

AP Research, the second course in the AP Capstone experience, allows students to deeply explore an academic topic, problem, issue or idea of individual interest. Students design, plan and implement a yearlong investigation to address a research question. Through this inquiry, they further the skills they acquired in the AP Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio. The course culminates in an academic paper and a presentation with an oral defense. AP and dual enrollment courses are college-level courses, and some reading selections may contain mature subject matter. The national exam for this course is the submission of the students' research paper and the delivery of a 20-minute presentation about their research.

Honors Academic Decathlon

Course Code: HAD400A/B

Grade Level: 9, 10, 11, 12

Length of Course: 1 Year

1 Credit =Weighted

Prerequisite: Teacher recommendation

This course may be repeated for credit but not for grade change. Students competing in Academic Decathlon are subject to the AIA, the AADA, and District eligibility rules.

This course will prepare students to compete in United States Academic Decathlon events. Competitions involve ten academic and communication events and provide opportunities for students to earn awards and scholarships. Team members compete with other schools at their individual G.P.A. level.

Independent Study Hall

Course Code: IS500

Grade Level: 9, 10, 11, 12

Length of Course: 1 Semester

0 Credit

Prerequisite: Principal Approval Required

This course may be repeated for credit but not for grade change.

Independent Study provides students the opportunities to study areas of content not offered as part of the regular curriculum. These courses are generally taken during the school day and on campus through the QCUSD virtual learning platform. This must be pre-approved by the Administration.

International Relations

Course Code: IRL100A/B

Grade Level: 10, 11, 12

Length of Course: 1 Year

1 Credit

Prerequisite: C or better in previous year of World History or US History

International Relations is a course in which students will look at current events, politics, economic philosophies, and global foreign affairs since World War II and their direct impact on the world and society. Throughout the course, students will be able to relate and recognize the direct impact that forces of globalization have had on the economic, political, social and cultural development of nations and regions of the world. Students will also be introduced to core concepts of international relations. Students will be expected to apply these theoretical concepts to a range of specific contemporary case studies or simulations, specifically by participation in a world dominance and country building exercise, in which students will create a country from scratch, be engaged in diplomatic, treaties, economic simulations, and possibly a war situation, in which students will understand first-hand how countries manage conflicts.

Leadership**Course Code: LDR100A/B**

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Requirement for elected class officers, elected executive officers, and interviewed/appointed officers. 2.8 minimum GPA (per marking period and cumulative) is required for all students. In order to run for an executive office, the student must have been in the Leadership class previously. Other criteria can be found in the Associated Student Body Constitution and the election packet.		
<i>This course may be repeated for credit but not for grade change.</i>		

This is an elective course. The students in the class are the governing board. Students will learn and demonstrate qualities of leadership. Students will take an active role in planning, organizing, and implementing school activities, assemblies, and service projects. Each student will participate in community service, group work, problem solving, parliamentary procedures, and committee work. Student participation is required. Students should be energetic, positive, motivated and willing to do service activities. Students must maintain a minimum 2.8 GPA for the length of the course. Students will be required to participate in activities outside of the school day. All students, elected and appointed, are required to take the class. Students not elected or appointed may not register.

Parallel Learning**Course Code: PLL100**

Grade Level: 11, 12	Length of Course: 1 Semester	½ Credit
Prerequisite: Applications, interview, teacher recommendation		
<i>This course may be repeated for credit but not for grade change.</i>		

This course will involve students in the classroom teaching and activities of handicapped peers. The course is designed to train individuals to assist students with personal management, leisure activities, vocational skills and academics. Students may also participate in community experience and some after-school activities with handicapped peers.

Release Time**Course Code: RLT400**

Grade Level: 12	Length of Course: 1 Year	No Credit
Prerequisite: Senior must be on track for graduation based on earned credits.		
<i>All released time requires a notarized Consent of Released Time Form.</i>		

Students may be granted release time for specific reasons approved by the school administration. Typically, released time is given to seniors for attendance at college, work, or other indicated needs. Students must be enrolled in five credit-earning courses.

Release Time/Off-Campus Instruction**Course Code: RLT405**

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	No Credit
-----------------------------------	---------------------------------	------------------

Students may be granted release time for off-campus instruction. Students must be enrolled in five credit-earning courses.

SEI-Structured English Immersion- Writing**Course Code: ENG120A/B**

Grade Level: 9,10,11,12	Length of Course: 1 Year	1 Credit
Does not count as an English credit. Placement based on state testing.		

A Writing course for secondary English language learners. The content of the course is based on the specific teaching/learning objectives derived from the Arizona K-12 English Language Proficiency Standards. This course is intended to accelerate language acquisition and prepare students for the mainstream classroom, where they will be ready to access the content of instruction that is then driven by the Arizona English Language Arts Standards.

SEI-Structured English Immersion- Reading**Course Code: ENG125A/B**

Grade Level: 9,10,11,12	Length of Course: 1 Year	1 Credit
Does not count as an English credit. Placement based on state testing.		

A reading course for secondary English language learners. The content of the course is based on the specific teaching/learning objectives derived from the Arizona K-12 English Language Proficiency Standards. This course is intended to accelerate language acquisition and prepare students for the mainstream classroom, where they will be ready to access the content of instruction that is then driven by the Arizona English Language Arts Standards.

Student Aide**Course Code: ELE210**

Grade Level: 12	Length of Course: 1 Semester	½ Credit
Prerequisite: The student must be requested by faculty/staff and must have a written job description on file in the Counseling office. This course may be repeated for credit but not for grade change. Students are only able to earn one total credit as a Student Aide.		
Offered at: QCHS/ EHS		

Students will be assigned to a faculty or staff member and serve as an assistant performing a variety of duties. Students will be issued a Pass/Fail mark.

Unified Sports Mentor**Course Code: USM100**

Grade Level: 11, 12	Length of Course: 1 Semester	½ Credit
See Fee Schedule Page 12		
Prerequisite: Applications, interview, teacher recommendation, 2.5 grade point average		
<i>This course may be repeated for credit but not for grade change.</i>		
Offered at: QCHS/ EHS		

This course is based on the Special Olympics Unified Sports Program. Unified Sports combines students with intellectual disabilities (athletes) and students without disabilities (partners) for sports training and competition. Unified Sports creates unique teammate bonds through sports experiences. These experiences create a culture of inclusion and foster understanding among students of all abilities. The sports include athletics, basketball, bocce, bowling, cheerleading, flag football, floor hockey, soccer, softball, tennis, and volleyball. Upon completion of the course, students will be able to identify specific rules, strategy, student diversity and health issues specific to a variety of sports and demonstrate proficiency in various movement forms. Students will have the opportunity to compete in Special Olympics Arizona Area and State Games. All students must complete appropriate medical and consent forms.

Work Study Program

Course Code: WRK400A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Offered at: QCHS/ EHS		

QCUSD Career Exploration Internship is a program that requires commitment and allows students to explore their career interests, gain valuable work experience, serve the school community, build a college or work resume, and earn credit toward their high school diploma. In order to participate in the internship program, students must complete an application, provide a resume, and participate in an interview process. A grade of pass/fail will be assigned at the completion of the course. A max of 1 elective credit can be earned. Students must work a minimum of 120 hours per semester, 240 hours total. Each student must provide their own transportation to and from the internship placement site. Parent permission is required, along with a signed Training Agreement and Training Plan.

Yearbook / Journalism I

Course Code: YBK100A/B

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: C Average in Core Classes or Teacher Approval		
See Fee Schedule Page 12		
<i>This course may be repeated for credit but not for grade change.</i>		

This introductory course will teach students the field-reporting skills necessary to contribute to the development of the QCHS/ EHS Yearbook. Students will aid in executing the marketing plan, provide input in design, and learn the basics of a business model. While in the production phases, students will enhance written communication skills, refine their digital production expertise, and enhanced photography skills. Ultimately, students will present their products to the community and school. Students must attend events outside of regular school hours to take this course. This course may be offered for dual enrollment credit.

Yearbook / Journalism II

Course Code: YBK200A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Yearbook/ Journalism I or Teacher approval		
See Fee Schedule Page 12		
<i>This course may be repeated for credit but not for grade change.</i>		

Student work will primarily focus on the development of the QCHS/EHS Yearbook and QCHS/EHS Journalism media publications. In doing so, students will engage in the pre-production planning phase, in which students will develop a marketing plan, design page layouts, and an overall business model for the class to adhere to. While in the production phases, students will demonstrate written communication skills, refinement in digital production, and enhanced photography skills. Ultimately, students will present their products to the community and school. Students must attend events outside of regular school hours to take this course. May be offered for dual enrollment credit.

*Course may be available for dual-enrollment

**Algebra support courses are available concurrently with Algebra 1 or Algebra 2

Algebra I**Course Code: MAT100A/B****Grade Level:** 9**Length of Course:** 1 Year**1 Credit***Meets university admission requirements*

This course is designed to deepen and extend understanding of linear and non-linear relationships by comparing and contrasting them with each other. Students will apply models to data that exhibit linear trends. In addition, students will engage in methods of analyzing, solving and using quadratic functions. This course uses the state standards as a guideline for its curriculum and prepares students for advanced study in mathematics and science. This course can be taken concurrently with Honors Geometry.

Honors Algebra I**Course Code: MAT110A/B****Grade Level:** 9**Length of Course:** 1 Year**1 Credit- Weighted****Prerequisite:** Placement is based upon District criteria.*Meets university admission requirements*

This course is an accelerated course in Algebra I for students who have proven their exceptional interest, ability, and industry in mathematics. The content of the regular Algebra 1 course will be explored in depth with additional emphasis on the application of the functions studied. This course uses the state standards as a guideline for its curriculum and prepares students for advanced study in mathematics and science. This course can be taken concurrently with Honors Geometry.

Geometry**Course Code: MAT200A/B****Grade Level:** 9, 10**Length of Course:** 1 Year**1 Credit****Prerequisite:** Algebra I*Meets university admission requirements*

This course develops understanding of informal explanations of circumference, area and volume formulas. Criteria will be established for congruence and similarity of geometric figures based on rigid motions, constructions, dilations and proportional reasoning. Students will prove geometric theorems and solve problems involving right triangles. Students will need a compass and protractor. The course uses the state standards as a guideline for its curriculum and prepares students for advanced study in mathematics and science.

Honors Geometry**Course Code: MAT210A/B****Grade Level:** 9, 10**Length of Course:** 1 Year**1 Credit - Weighted****Prerequisite:** Algebra I*Meets university admission requirements*

This is an accelerated course in plane and solid geometry for students who have proven their exceptional interest, ability, and industry in mathematics. The content of the regular geometry course will be explored in depth with additional topics in analytic geometry, trigonometry, and constructions. The course uses the state standards as a guideline for its curriculum and prepares students for advanced study in mathematics and science. This course can be taken concurrently with Algebra 1.

Algebra II**Course Code: MAT300A/B****Grade Level:** 11, 12**Length of Course:** 1 Year**1 Credit****Prerequisite:** Geometry*Meets university admission requirements*

This 2nd year algebra course extends the real number system to the complex number system, representing radicals with rational exponents. This course includes solving and interpreting solutions to a variety of equations, inequalities, and systems in the context of real-world situations. Students will graph and interpret functions extending from linear, quadratic and exponential with integer exponents to polynomial, radical, rational, exponential with real exponents, logarithmic, trigonometric and piecewise defined functions. Simple and compound probability calculations will extend to conditional probability. The course uses the state standards as a guideline for its curriculum and prepares students for advanced study in mathematics and science.

Honors Algebra II**Course Code: MAT310A/B****Grade Level:** 9, 10, 11**Length of Course:** 1 Year**1 Credit - Weighted****Prerequisite:** Geometry*Meets university admission requirements*

This course is an accelerated course in Algebra II for students who have proven their exceptional interest, ability, and industry in mathematics. The content of the regular Algebra II course will be explored in depth with additional topics in discrete math, trigonometry and conic sections. The course uses the state standards as a guideline for its curriculum and prepares students for advanced study in mathematics and science.

Pre-Calculus**Course Code: MAT400A/B****Grade Level:** 10, 11, 12**Length of Course:** 1 Year**1 Credit****Prerequisite:** Algebra II (C or better).*Dual enrollment credit may be offered for this course. Meets university admission requirements*

This course strengthens students' conceptual understanding of problems, mathematical reasoning, and mathematical modeling in solving problems. It combines concepts of trigonometry, geometry, and functions to prepare students for studies in STEM related courses and college and career entry mathematics courses. This course will encourage students to reason mathematically and model real-world contexts in a team setting using technology. There will be group and individual projects throughout the year.

AP Pre-Calculus**Course Code: MAT410A/B**

Grade Level: 10, 11, 12	Length of Course: 1 year	1 Credit – Weighted
Prerequisite: Honors Algebra II, AND/OR a qualifying score on the Accuplacer Math Placement test/GPA		
<i>Dual enrollment credit may be offered for this course. Meets university admission requirements</i>		

This college level precalculus course follows the syllabus that is outlined by the College Board. In this course students will learn how to: algebraically manipulate functions, equations and expressions, translate mathematical information between different representations, and communicate with precise language while providing rationales for conclusion. The units of study for this course include polynomial and rational functions, exponential and logarithmic functions, trigonometric and polar functions and functions involving parameters, vectors and matrices. This course is comparable to a college/university precalculus course or a college algebra with trigonometry course. Students will be required to take the Advanced Placement test at the end of the school year.

Calculus**Course Code: MAT430A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Algebra II (C or better).		
<i>Dual enrollment credit may be offered for this course. Meets university admission requirements</i>		

This course strengthens students' conceptual understanding of problems, mathematical reasoning, and mathematical modeling in solving problems. It extends students' knowledge of functions and trigonometry as they study the fundamental concepts of calculus and analytic geometry to prepare students for studies in STEM related courses and college and career entry mathematics courses. This course will encourage students to reason mathematically and model real-world contexts in a team setting using technology. There will be group and individual projects throughout the year.

College Algebra/Functions**Course Code: MAT470A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Algebra II		
<i>Dual enrollment credit may be offered for this course. Meets university admission requirements</i>		

This course is a 4th year math course for seniors who are looking to fill a college credit but may not be ready for calculus. Analysis and interpretation of the behavior and nature of functions including linear, quadratic, higher-order polynomials, rational, exponential, logarithmic, power, absolute value, and piecewise-defined functions; systems of equations, using multiple methods including matrices, and modeling and solving real world problems.

Quantitative Reasoning**Course Code: MAT420A/B**

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Algebra II.		
<i>Dual enrollment may be offered for this course. Meets university admission requirements</i>		

This course is a 4th year math course for seniors with non-STEM post-secondary intentions. Quantitative reasoning utilizes basic mathematical and reasoning concepts and operations required for problem solving, decision making, economic productivity and real-world applications. Students will acquire the skills necessary to make rational decisions based on real data. Students will be able to report their conclusions in a precise and accurate manner using the language, tools, and symbolism of mathematics and a variety of technology and methods.

AP Calculus AB**Course Code: MAT450A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit – Weighted
Prerequisite: Pre-Calculus, AND/OR a qualifying score on the Accuplacer Math Placement test/GPA		
See Fee Schedule Page 12		
<i>Dual enrollment may be offered for this course. Meets university admission requirements</i>		

This college level calculus course follows the syllabus that is outlined by the College Board. This course is a study of limits, continuity, and derivatives and its applications including rates of change. It also includes the fundamental principles and formulas for differential and integral calculus along with their applications to geometry and mechanics, the mean value theorems and the fundamental theorem of calculus. Students will be required to take the Advanced Placement test at the end of the school year.

AP Calculus AB/BC**Course Code: MAT460A/B**

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit-Weighted
Prerequisite: PreCalculus, AP Calculus AB or MAT220, AND/ OR a qualifying score on the Accuplacer Math Placement Test/GPA		
See Fee Schedule Page 12		
<i>Dual enrollment may be offered for this course. Meets university admission requirements</i>		

This course is equivalent to a full year calculus class at a university and prepares students to sit for the AP Calculus BC examination where two semesters of college credit in calculus may be earned. Topics emphasized are advanced methods of integration, partial fractions, conic sections, hyperbolic functions, and polar coordinates. This is a rigorous course designed to prepare students for the AP examination in this subject area. Students will be required to take the Advanced Placement test at the end of the school year.

Multivariate Calculus and Differential Equations

Course Code: MAT500A/B

Grade Level: 11, 12

Length of Course: 1 Year

1 Credit- Weighted

Prerequisite: AP Calculus AB/BC

See Fee Schedule Page 12

Dual enrollment may be offered for this course. Meets university admission requirements

This course extends the concepts developed in Calculus to functions of several variables and differential equations. Topics include multivariate calculus including vectors, vector-valued functions, differential equations, partial differentiation, multiple integration, optimization, and an introduction to vector fields. Applications and modeling will be considered.

AP Statistics

Course Code: MAT510A/B

Grade Level: 11, 12

Length of Course: 1 Year

1 Credit – Weighted

Prerequisite: Pre-Calculus or higher.

See Fee Schedule Page 12

Dual enrollment may be offered for this course. Meets university admission requirements

The purpose of this course is to introduce students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Students are exposed to four broad conceptual themes. Exploring Data: Describing patterns and departures from patterns. Sampling and Experimentation: Planning and conducting a study. Anticipating Patterns: Exploring random phenomena using probability and simulation. Statistical Inference: Estimating population parameters and testing hypotheses. This course is comparable to the first semester Statistics course taught at colleges and universities. Students will be required to take the Advanced Placement test at the end of the school year.

Algebra III

Course Code: MAT320A/B

Grade Level: 11, 12

Length of Course: 1 Year

1 Credit

Prerequisite: Placement is based on District criteria.

Meets university admission requirements

This course is an introduction to the concepts of college algebra. We will cover some of the same material that most college students must take and complete during their college career. Material that will be covered includes: a Review of Basic Concepts, Graphs & Functions, Polynomial and Rational Functions, Inverse, Exponential and Logarithmic Functions, Systems and Matrices, Analytic Geometry, & Further Topics in Algebra. A graphing calculator is required for this course.

Algebra I Lab

Course Code: LAB100A/B

Grades: 9, 10

Length of Course: 1 Year

1 Credit

This course does not count as a Math credit. Placement by teacher recommendation.

This course may be repeated for credit but not for grade change.

This course is offered as an elective credit only for Algebra students who have been recommended for the class. This course will emphasize pre-requisite skills as well as current skills needed to be successful in Algebra I. Topics will include basic computation of whole numbers, decimals, fractions and integers, combining like terms, solving equations and proportions, and plotting points and lines in the coordinate plane.

Algebra II Lab

Course Code: LAB200A/B

Grades: 11, 12

Length of Course: 1 Year

1 Credit

This course does not count as a Math credit. Placement by teacher recommendation.

This course may be repeated for credit but not for grade change

This is an elective course designed to focus on mastery of the Algebra II standards. This course will emphasize prerequisite skills as well as current skills needed for students to be successful in Algebra II. Topics will include linear, quadratic, exponential, logarithmic, polynomial, rational and radical functions, the complex number system, sequences, and series probability, statistics, data analysis and an introduction to trigonometry. Students will receive an elective credit for successful completion of the course.

Physical Education

Coed Physical Education/ Comprehensive Health

Course Code: PED220A/B

Grade Level: 9, 10, 11, 12

Length of Course: 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course is a study of Physical Education and fitness awareness and is designed to expose students to a variety of team sports. Students will participate in instructional and competitive activities in the following sports: basketball, volleyball, softball, football, and hockey. Running and weight training will also be included to aid the student in reaching and maintaining personal health and fitness. This course is designed to help students become aware of how good health habits can be a means of improving the quality of their lives. This class, based on Arizona Comprehensive Health Standards, will cover such topics as communicable diseases, addiction, wellness, safety, self-esteem, and decision-making.

Yogalates**Course Code: PED170A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

Yogalates involves the stretching and strengthening of all the body's major muscle groups, creating a slender, long-lean-look. This class is an equal balance of yoga and pilates, emphasizing core strength, balance and flexibility. Other fitness components will be incorporated into the class for a well-rounded physique.

Beginning Dance**Course Code: DAN100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

See Fee Schedule Page 12

Beginning dance introduces basic movement vocabulary in ballet, modern, and jazz dance styles with an emphasis on developing technique, alignment and basic body awareness. Students will also learn components of health-related fitness. The purpose of this class is to promote a lifelong interest in dance from an artistic, athletic and academic perspective.

Intermediate Dance**Course Code: DAN200A/B****Grade Level:** 10, 11, 12**Length of Course:** 1 Year

1 Credit

Prerequisite: Beginning Dance or by audition

See Fee Schedule Page 12*This course may be repeated for credit but not for grade change*

Intermediate Dance is dedicated to reinforcing and building upon the skills of intermediate level dance students. Focus will be on building a deeper understanding of technical skills in jazz, ballet, contemporary and hip-hop dance styles. Students will also learn choreography and improvisational skills. The program enables students to express themselves through nonverbal means of communication while improving their dance skills. Emphasis will be placed on technique, movement quality, and knowledge of specific traits of each dance style. Students will also learn components of health-related fitness related to anatomy. This class strives to promote a lifelong interest in dance from artistic, athletic and academic perspectives.

Performance Dance**Course Code: DAN210A/B****Grade Level:** 10, 11, 12**Length of Course:** 1 Year

1 Credit

Prerequisite: Beginning Dance and instructor approval

See Fee Schedule Page 12*This course may be repeated for credit but not for grade change.*

Performance is the official dance company of the high school. Students in this course will perform at school events, host dance shows and represent the school in the community. Students selected for this class will be proficient dancers. They will focus on developing a unique person dance style through improvisation, choreography and other creative tasks. Emphasis is on developing performance quality unique dance pieces that incorporate choreography, staging, lighting and costuming appropriate for different venues and events.

Strength & Conditioning Weight Training**Course Code: PED180A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course is an introduction to weightlifting, bands, and dumbbells. Students will learn to perform correct techniques or core lifts. Cardiovascular conditioning will also be included.

Team Sports Academy- Sport specific**Course Code: APA100A/B-APA120A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

Prerequisite: Coach approval

See QCUSD Athletics/Extracurricular Fees*This course may be repeated for credit but not for grade change.*

This course is highly encouraged for athletes on the official school sports team and is designed to improve students' sport-specific strength, speed, agility and endurance. In addition, this course will help students prepare mentally and physically to be leaders in their specific sports teams (on and off the field/court). This class will also embed age-appropriate Arizona Comprehensive Health Standards such as communicable diseases, addition, wellness, safety, self-esteem and decision making. Sports included:

Football	Boys Basketball	Girls Basketball	Cheer	Pom	Boys Soccer
Girls Soccer	Boys Volleyball	Girls Volleyball	Baseball	Softball	Boys Tennis
Girls Tennis	Boys Golf	Girls Golf	Badminton	Girls Wrestling	Boys Wrestling
Boys Track	Girls Track	Flag Football	Boys Beach VB	Girls Beach VB	Boys Cross Country
Girls Cross Country	Boys Swim and Dive	Girls Swim and Dive

Physical Science

Course Code: SCI100A/B

Grade Level: 9	Length of Course: 1 Year	1 Credit
-----------------------	---------------------------------	-----------------

This course meets university entrance requirements for lab science credit.

This one-year course is designed to expose students to Earth and space concepts, chemistry, and physics. Students will be exposed to concepts concerning the composition of the Earth and its atmosphere, as well as the processes that shape Earth's surface and climate. The impact of energy in Earth systems will also be explored and how that energy and matter have changed throughout geological time. Students will investigate planetary bodies, their motion, their characteristics as well as their evolution. In chemistry and physics, students will be able to demonstrate how the structure of atoms gives rise to patterns and properties seen in the periodic table and explain how chemical reactions occur and what impacts the rate of these reactions. Finally, students will evaluate and apply Newton's Laws, explain reaction rates and what fields impact objects within them. A grade of C or better in previous math and science classes is recommended for this course.

Biology

Course Code: SCI200A/B

Grade Level: 10	Length of Course: 1 Year	1 Credit
------------------------	---------------------------------	-----------------

This course meets university entrance requirements for lab science credit.

Biology is a lab-based course which will address the following topics: ecology, biochemistry, cellular structure and function, cellular energy and reproduction, human inheritance, genetics and molecular genetics, natural selection, evolution, phylogeny and taxonomy, bacteria and viruses along with an introduction to plants and animals. Students will be expected to learn and demonstrate basic laboratory techniques and safety procedures. Students will also be exposed to critical reading and analysis along with technical writing skills. Some lab activities may require dissection.

Honors Biology

Course Code: SCI210A/B

Grade Level: 9, 10	Length of Course: 1 Year	1 Credit -Weighted
---------------------------	---------------------------------	---------------------------

Prerequisite: Recommended for incoming freshmen with Algebra 1 credit

This course meets university entrance requirements for lab science credit. May be offered for dual enrollment credit.

Honors Biology will cover all of the concepts and procedures found in the standard Biology course. In addition, students will be introduced to a lab intensive course where critical reading and writing skills will be the foundation of all lab work. Students will be required to participate in weekly laboratory activities that drive the standards-based concepts. Students will be exposed to a broader range of topics and will also be expected to demonstrate their deep understanding of how each biological concept is interrelated. This course is designed to prepare students for a professional career in a medical or scientific/engineering field.

Chemistry

Course Code: SCI300A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
--------------------------------	---------------------------------	-----------------

Prerequisite: Biology, currently in Geometry or higher

This course meets university entrance requirements for lab science credit.

Chemistry is the study of the composition of substances and the changes that they undergo. It includes the study of the properties of matter and the ways in which different substances interact, combine, and change. Some of the major topics that we will be covered in this course include: the structure of the atom and the properties of subatomic particles, the role of electrons in chemical interactions, chemical bonding, the mole, gas laws, chemical reactions, thermochemistry, equilibrium and reaction rates, and acids and bases. The overall goal of this course is that students will be able to apply an understanding of atomic and molecular structure to explain the properties of matter and predict the outcomes of chemical and nuclear reactions. This is an Arizona Board of Reagent lab-based course and counts towards graduation requirements.

Honors Chemistry

Course Code: SCI310A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit – Weighted
--------------------------------	---------------------------------	----------------------------

Prerequisites: Biology, currently in Geometry or higher recommended

This course meets university entrance requirements for lab science credit. May be offered for dual enrollment credit.

Honors Chemistry is the study of the composition of substances and the changes that they undergo. It includes the study of the properties of matter and the ways in which different substances interact, combine, and change. Some of the major topics that we will be covered in this course include: the structure of the atom and the properties of subatomic particles, the role of electrons in chemical interactions, chemical bonding, the mole, the gas laws, chemical reactions, thermochemistry, equilibrium and reaction rates, and acids and bases. Honors Chemistry covers all of the topics of regular chemistry with more depth, as well as several additional topics. Students in honors chemistry will participate in weekly inquiry-based labs and will be required to synthesize technically written lab reports for each lab. This is an Arizona Board of Regents lab-based course and counts towards graduation requirements.

AP Biology

Course Code: SCI320A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit - Weighted
See Fee Schedule Page 12		
Prerequisite: Completed 1 year of any high school lab science		
<i>This course meets university entrance requirements for lab science credit. May be offered for dual enrollment credit.</i>		

Adhering to the curricula recommended by the College Board and designed to parallel college level introductory biology courses, AP Biology stresses basic facts and their synthesis into major biological concepts and themes. This course covers three general areas: molecules and cells (including biological chemistry and energy transformation); genetics and evolution; and organisms and populations (i.e., taxonomy, plants, animals, and ecology). AP Biology includes college-level laboratory experiments. Students will be required to take the Advanced Placement test at the end of the school year.

AP Chemistry

Course Code: SCI330A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit - Weighted
See Fee Schedule Page 12		
Prerequisite: Biology and either completed or currently in Algebra II		
<i>This course meets university entrance requirements for lab science credit. May be offered for dual enrollment credit.</i>		

AP Chemistry is a college level lab course based on the AP Chemistry Curriculum. In AP Chemistry, students will follow the state AP curriculum designed to increase rigor and depth of fundamental concepts. Students will study concepts such as structure and states of matter, intermolecular forces and reactions and how to use chemical calculations to solve problems. In AP Chemistry students will develop their ability to think clearly and express their ideas both orally and in writing, with clarity and logic. Students will work collaboratively with classmates, conducting meaningful laboratory investigations to observe substances and chemical reactions, interpret findings and communicate results. This is a lab-based course and counts towards graduation requirements. Students enrolled in this course are required to take the Advanced Placement exam in the spring.

Environmental Science

Course Code: SCI335A/B

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Biology and Chemistry		
<i>This course meets university entrance requirements for lab science credit.</i>		

The first semester of this course will introduce students to the global environment, including: science, energy, ecosystems, and global environmental issues. Students will identify and discuss the cultural and social issues surrounding these areas. The second semester will focus on the environment of Arizona, and discuss current work being done to conserve Arizona's resources. Students will apply knowledge from the first semester to identify needs in Arizona and design experiments to address these needs.

AP Environmental Science

Course Code: SCI400A/B

Grade Level: 11, 12	Length of Course: 1 Year	1 Credit - Weighted
See Fee Schedule Page 12		
Prerequisite: Biology and Chemistry		
<i>Dual enrollment credit may be offered for this course. Please see your instructor. This course meets university entrance requirements for lab science credit.</i>		

AP Environmental Science is designed to provide students with the scientific principles, concepts and methodologies required to understand the interrelationships of the natural world. Students will identify and analyze both natural and man-made environmental problems and evaluate the relative risks associated with them. Students will further examine alternative solutions to resolve and prevent environmental issues. Students are required to take the AP exam in the spring.

Botany

Course Code: SCI405A/B

Grade Level: 12	Length of Course: 1 Year	1 Credit
Prerequisite: Biology and Chemistry		
<i>Dual enrollment credit may be offered for this course. Please see your instructor. This course meets university entrance requirements for lab science credit.</i>		

Botany is an advanced biology course with a focus on plants. Students will study plant anatomy (parts), plant physiology (function), horticulture (naming and classifying), plant ecology (interactions) and biomes. Students will apply this knowledge in the study of native Arizona plant species and the basics of gardening. Diverse and in-depth activities will increase students' knowledge and skills in biological concepts as they relate to plants. Integration of chemistry, geology and sociology will be included to increase rigor throughout the course. Laboratory components will include long-term growth experiments coupled with analysis, data collection, and written lab reports designed to connect course content with collected data.

Human Anatomy and Physiology**Course Code: SCI455A/B****Grade Level:** 11, 12**Length of Course:** 1 Year

1 Credit

Prerequisite: Biology and Chemistry*This course meets university entrance requirements for lab science credit. May be offered for dual enrollment credit.*

Human Anatomy and Physiology concentrates on the study of the structure and function of the human body. Topics include scientific method, anatomical terminology, cells, tissues, integumentary system, skeletal system, muscular system, nervous system, endocrine system, circulatory system, lymphatic system, respiratory system, digestive system, urinary system and reproductive systems. Labs coincide with reading and lecture content and include the following: microscopic examination of tissues, anatomical exercises, physiological exercises and dissections of animal specimens.

Honors Human Anatomy and Physiology**Course Code: SCI460A/B****Grade Level:** 11, 12**Length of Course:** 1 Year

1 Credit-Weighted

Prerequisite: Biology and Chemistry*This course meets university entrance requirements for lab science credit. May be offered for Dual Enrollment*

Honors Human Anatomy and Physiology will cover all content from the general course but move at a faster pace and include increased rigor in critical thinking, application, and lab experiences. In addition to the general course, honors students' coursework may include biochemistry, as related to the body, and identifying additional bones, muscles, and blood vessels in their related systems. Inquiry based labs will require technical writing in the form of lab reports based on data and results analysis.

Physics**Course Code: SCI465A/B****Grade Level:** 11, 12**Length of Course:** 1 Year

1 Credit

Prerequisite: Chemistry and currently in Algebra II or higher.*This course meets university entrance requirements for lab science credit.*

Students will study the concepts and laws of physics through efforts involving problem solving, experimentation, and design techniques with real world applications. Topics include linear and angular motions, statics, dynamics, kinematics, energy and momentum, electricity and magnetism, and light and color. Hands-on laboratory coursework will require conceptual knowledge and attention to detail. Students will also be introduced to engineering and engineering technology careers.

AP Physics I**Course Code: SCI470A/B****Grade Level:** 11,12**Length of Course:** 1 Year

1 Credit- Weighted

See Fee Schedule Page 12**Prerequisite:** Chemistry and currently in Algebra II or higher.*This course meets university entrance requirements for lab science credit.*

AP Physics 1: Algebra-Based is the equivalent to a first-semester college course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; and mechanical waves and sound. It will also introduce electric circuits. Students are required to take the Advanced Placement exam at the end of the school year.

AP Physics II**Course Code: SCI480A/B****Grade Level:**12**Length of Course:** 1 Year

1 Credit- Weighted

See Fee Schedule Page 12**Prerequisite:** AP Physics I*This course meets university entrance requirements for lab science credit.*

AP Physics 2: Algebra-Based is the equivalent to a second-semester college course in algebra-based physics. The course covers fluid mechanics; thermodynamics; electricity and magnetism; optics; and atomic and nuclear physics. Students are required to take the Advanced Placement exam at the end of the school year.

Social Studies

Pathway	9 th Grade	10 th Grade	11 th Grade	12 th Grade
Standard	Elective or World History	World History	US History	Government/ Economics (1 semester each)
Honors	AP Human Geography (Elective) or Honors Ancient Civilizations (Elective)	AP World History AP Art History	AP US History AP Art History	AP Art History AP Government AP Economics (1 semester each)

World History**Course Code: SOC100A/B****Grade Level:** 9, 10 (Recommended for 10th)**Length of Course:** 1 Year

1 Credit

Students will analyze the human experience through time, recognize the relationship of events and people, and interpret significant patterns, themes, ideas, beliefs, and turning points in world history. The course of study includes Ancient Greeks/Romans, Medieval Times, Renaissance, Age of Revolution, WWI, WWII and the Modern World. Geographical, as well as chronological examination, which will be employed to facilitate the acquisition of this body of knowledge.

AP World History**Course Code: SOC110A/B****Grade Level:** 10, 11, 12**Length of Course:** 1 Year

1 Credit – Weighted

See Fee Schedule Page 12**Prerequisite:** Honors Ancient Civilizations or AP Human Geography*Dual enrollment credit may be offered for this course. Please see your instructor.*

The AP World History Course is designed to develop a greater understanding of the evolution of global processes and contacts in different types of human societies. This understanding is developed through a combination of selective and factual knowledge and appropriate analytical and research skills. Students will examine relevant and factual knowledge, leading interpretive issues, and skills in analyzing types of historical evidence. Students will examine and analyze events that cover Africa, The Americas, Asia, Europe, and Oceania. This course will follow both the Arizona Academic and Advanced Placement standards. Students who take the course will be required to take the Advanced Placement World History exam.

US/ Arizona History**Course Code: SOC300A/B****Grade Level:** 11**Length of Course:** 1 Year

1 Credit

Dual enrollment credit may be offered for this course. Please see your instructor.

This course will study the growth and development of the United States from independence to the present. Emphasis is on the founding principles of democracy and the experiences of the American people in transforming their society from colonies to a world power. Major topics presented will include Revolutionary War, forming of a government, Westward expansion, Civil War, Reconstruction, Industrial Revolution, Spanish-American War, WWI, Depression, WWII, Cold War, and the Civil Rights Movement.

AP US History**Course Code: SOC310A/B****Grade Level:** 11**Length of Course:** 1 Year

1 Credit- Weighted

See Fee Schedule Page 12**Prerequisite:** B or better in World History and English courses is recommended*Dual enrollment credit may be offered for this course. Please see your instructor.*

The AP United States History Course is designed to provide students with a comprehensive, analytical, and diversified knowledge in US/Arizona History, including the usage and familiarity of primary and secondary source documents. Throughout this course students will be challenged and expected to write detailed accounts arguing and defending key points and concepts in US History by creating thematic and DBQ essays as well as being well versed for discussion-based learning. This course will follow both the Arizona Academic and Advanced Placement standards. Students who take the course will be required to take the Advanced Placement US History exam.

Economics**Course Code: SOC400****Grade Level:** 12**Length of Course:** 1 Semester

½ Credit

Students examine the areas of micro and macroeconomics by exploring the roles that individuals, businesses, and local, state and federal governments play in shaping economic decision making. All aspects of our economic system, from the stock market to the Federal Reserve to consumer economics, are studied. Additionally, students will investigate comparative economic systems in order to understand the influence that each has in our global financial world. Emphasis is placed on critical analysis, individual and small group research, and causal relationships.

AP Economics**Course Code: SOC420****Grade Level:** 12**Length of Course:** 1 Semester

½ Credit- Weighted

See Fee Schedule Page 12*Dual enrollment credit may be offered for this course. Please see your instructor.*

AP Macroeconomics is a college-level course that introduces students to the principles that apply to an economic system as a whole. The course places particular emphasis on the study of national income and price-level determination. It also develops students' familiarity with economic performance measures, the financial sector, stabilization policies, economic growth, and international economics. Students learn to use graphs, charts, and data to analyze, describe, and explain economic concepts. Students will be required to take the Advanced Placement test at the end of the school year.

US/ Arizona Government**Course Code: SOC425****Grade Level:** 12**Length of Course:** 1 Semester

½ Credit

This course provides students with the opportunity to understand the structure, development, and operations of the United States and Arizona governments. Students study the US and AZ Constitutions, the nature of federalism, the balance of powers, the rights and liberties of citizens, and the political roles played by public opinion, the media, political parties, and other interest groups. Emphasis is placed on critical analysis, individual and small group research, and causal relationships.

AP US Government & Politics**Course Code: SOC430****Grade Level:** 12**Length of Course:** 1 Semester $\frac{1}{2}$ Credit- Weighted**See Fee Schedule Page 12***Dual enrollment credit may be offered for this course. Please see your instructor.*

This is a survey course that provides an introduction into the operation of the American national government. As such, we will examine the American system of government and its origins, political opinions, interests and behaviors, political organizations to include parties, interest groups and mass media, the institutions of government and their role in making and enforcing public policy, civil liberties and civil rights, and finally, primary source materials and contemporary news analyses; ultimately, exposing you to these areas. It is our goal to foster the development of analytical perspectives for interpreting, understanding, and explaining the political processes and events in our country. A service project is required per the College Board. Students who take this course will be required to take the Advanced Placement exam at the end of the school year.

Social Studies Electives**AP Art History****Course Code: SSE450A/B****Grade Level:** 11,12**Length of Course:** 1 Year

1 Credit-Weighted

Prerequisite: Any AP History course**See Fee Schedule Page 12**

AP Art History is an introductory college-level art history course. Students cultivate their understanding of art history through analyzing works of art and placing them in historical context as they explore concepts like culture and cultural interactions, theories and interpretations of art, the impact of materials, processes, and techniques on art and art making, and understanding purpose and audience in art historical analysis.

Honors Ancient Civilizations & Geography**Course Code: SOC450A/B****Grade Level:** 9, 10**Length of Course:** 1 Year

1 Credit – Weighted

Prerequisite: B or better in previous history course or previous honors history course

This elective course is designed for 9th grade students pursuing an AP or Honors track in Social Studies with the idea that they will take AP World history in their 10th grade year. In this course, students will expand their understanding of history by studying the people and events that ushered in the dawn of the major Western and Eastern ancient civilizations. Geography is of special significance in the development of the human story. Continued emphasis is placed on the everyday lives, problems, and accomplishments of people, their role in developing social, economic, and political structures, as well as in establishing and spreading ideas that helped transform the world forever. Students develop higher levels of critical thinking by considering why civilizations developed where and when they did, why they became dominant, and why they declined. Students analyze the interactions among the various cultures, emphasizing their enduring contributions and the link, despite time, between the contemporary and ancient worlds.

AP European History**Course Code: SOC460A/B****Grade Level:** 10, 11, 12**Length of Course:** 1 Year

1 Credit – Weighted

See Fee Schedule Page 12

The study of European history since 1450 introduces students to cultural, economic, political, and social developments that played a fundamental role in shaping the world in which they live. Without this knowledge, we would lack the context for understanding the development of contemporary institutions, the role of continuity and change in present-day society and politics, and the evolution of current forms of artistic expression and intellectual discourse. In addition to providing a basic narrative of events and movements, the goals of the AP program in European History are to develop (a) an understanding of some of the principal themes in modern European History, (b) an ability to analyze historical evidence and historical interpretation, and (c) an ability to express historical understanding in writing. Students who take this course will be required to take the Advanced Placement exam at the end of the school year.

Psychology**Course Code: SSE300A/B****Grade Level:** 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course is designed to introduce students to the science of human behavior. The course includes an introduction to psychology, its history and basic theories to explain behavior. Students will explore issues related to the brain and behavior, states of consciousness, stress, human development and learning, and a survey of different psychological therapies. In this course students explore concepts related to social and cognitive psychology, theories of personality and abnormal behavior disorders.

AP Psychology**Course Code: SSE315A/B****Grade Level:** 11, 12**Length of Course:** 1 Year

1 Credit-Weighted

See Fee Schedule Page 12*Dual enrollment credit may be offered for this course. Please see your instructor.*

The AP Psychology course is designed to prepare students to take the AP Psychology exam. This will be accomplished by introducing students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with each of the major subfields within psychology. They also learn about the ethics and methods psychologists use in their science and practice. Students who take this course will be required to take the Advanced Placement Psychology exam.

AP Human Geography

Course Code: SSE400A/B

Grade Level: 9,10, 11, 12

Length of Course: 1 Year

1 Credit – Weighted

Prerequisite:

See Fee Schedule Page 12

Human Geography is a yearlong course that studies the human population and how it affects migration, culture, language, religion, ethnicity, political geography, economies, industry, agriculture and urban geography. Global case studies are used to compare the US to the world as well as local situations. This course introduces the student to cultural geography through an examination of world, national and local regions with a focus on trends and issues, patterns of rural and urban land use, growth and development of cities, and economic development issues. Students who take this course will be required to take the Advanced Placement exam at the end of the school year.

Global Conflict

Course Code: SSE470A/B

Grade Level: 9,10, 11, 12

Length of Course: 1 Year

1 Credit

This course explores general notions of human rights by looking at past and present global conflicts: the history of the Holocaust, genocides in Armenia, Cambodia, Rwanda and the ongoing genocide in Darfur, and conflicts in the Middle East (Israel and Palestine, Iraq, Afghanistan), China, Africa, and Latin America. The course will also examine totalitarian dictatorships, peace studies, and conflict resolution within the context of international relations. The course moves beyond a simple study of history, but instead, examines these events through the lens of human behavior. We will look at the roles individuals played and the choices they made in an effort to understand exactly what it means to be a human at the beginning of the 21st century.

World Languages

Spanish I

Course Code: SPA100A/B

Grade Level: 9, 10, 11, 12

Length of Course: 1 Year

1 Credit

Students will learn basic vocabulary related to people, places, things and actions close to their own lives. They will express themselves in phrases, short sentences and memorized material exhibiting an emerging control of the most common basic grammatical forms and structures. Their written language will reflect what they can say. Students will gain an understanding and appreciation of the diversity of language and cultures.

Spanish II

Course Code: SPA200A/B

Grade Level: 9, 10, 11, 12

Length of Course: 1 Year

1 Credit

Prerequisite: Spanish I or demonstrated competency

Students will continue to learn vocabulary related to people, places, things and actions close to their own lives. Students will speak and write extemporaneously using short sentences and sentence strings on topics within their experience with the language. They will describe and answer questions; engage in simple conversations; and carry out simple realistic functions. In their written language, students will practice expressing their ideas more accurately using correct spelling and punctuation. Students will continue to gain an understanding and appreciation of the diversity of language and cultures.

Honors Spanish III

Course Code: SPA310A/B

Grade Level: 10, 11, 12

Length of Course: 1 Year

1 Credit-Weighted

Prerequisite: Spanish I & II or demonstrated competency.

Students will build proficiency through the use of real-world materials such as films, broadcasts, newspaper and magazine articles, and contemporary literature. They will build on skills from previous Spanish classes to become more effective communicators. In written work, students will learn to express themselves in different ways and tailor arguments to different audiences. Students will continue to gain an understanding of the diversity of language and culture.

AP Spanish Language and Culture

Course Code: SPA400A/B

Grade Level: 11, 12

Length of Course: 1 Year

1 Credit-Weighted

Prerequisite: Spanish III or demonstrated competency.

See Fee Schedule Page 12

As per the College Board, this fourth-year Spanish course emphasizes communication (understanding and being understood by others) by applying interpersonal, interpretive, and presentational skills in real-life situations. This includes vocabulary usage,

language control, communication strategies, and cultural awareness. Additionally, this course engages students in an exploration of culture in both contemporary and historical contexts. Students will develop an awareness and appreciation of cultural products (tools, books, music, laws, conventions, institutions); practices (patterns of social interactions within a culture); and perspectives (values, attitudes, assumptions). To best facilitate the study of language and culture, this course is taught almost exclusively in Spanish. The AP-based curriculum is used to prepare students for the Advanced Placement Spanish Language and Culture Exam at the end of the school year. Students will be required to take the Advanced Placement test at the end of the school year.

Spanish Language and Literature

Course Code: SPA210A/B

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Spanish I or demonstrated competency.		

This course is specially designed for native Spanish speakers. Students who test out of Spanish 1 and are native speakers are encouraged to choose this option as a year 2 Spanish course in preparation for AP Spanish.

Mandarin Chinese I

Course Code: MAN100A/B

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
-----------------------------------	---------------------------------	----------

This course will introduce students to the basic vocabulary, alphabet of Mandarin and the culture of China. Emphasis will be on listening, comprehension, and simple conversational skills. It will prepare the student to begin to read, write, speak and understand the language.

Mandarin Chinese II

Course Code: MAN200A/B

Grade Level: 10, 11, 12	Length of Course: 1 Year	1 Credit
Prerequisite: Mandarin Chinese I or equivalent study		

This course will continue to build upon the basic vocabulary, grammar and conversation skills the students learned in the first year. Emphasis will be on daily dialogue practicing, short article/story reading, and free journal writing. Students also will explore further knowledge about Chinese history, culture, geography and current events.

Special Education

The Special Education Program provides alternative forms of instruction for eligible students who are classified as in need of special education services. Emphasis is on improving basic alternative skills, study habits, career awareness, and social skills essential for employment. See your counselor for further information. These courses are offered to eligible students as determined by the Individualized Education Plan (IEP).

English 9 Resource

Course Code: ENR100A/B

Grade Level: 9	Length of Course: 1 Year	1 Credit
-----------------------	---------------------------------	----------

This course is designed for students with special needs who need to improve their language and reading skills as determined appropriately by the IEP team. Instruction will include grammar, usage, spelling, punctuation, sentence formation, paragraphing, and vocabulary. Other topics will include, but not be limited to, exploratory literature, vocational language skills, and basic library skills. Students will be introduced to the six traits of writing and introduction to different genres of writing including persuasive and narrative.

English 10 Resource

Course Code: ENR200A/B

Grade Level: 10	Length of Course: 1 Year	1 Credit
------------------------	---------------------------------	----------

This course is designed for students with special needs who need to improve their language and reading skills as determined appropriately by the IEP team. Instructions will include grammar, usage, spelling, punctuation, sentence formation, paragraphing, and vocabulary. Other topics will include exploratory literature, vocational language skills, and basic library skills. Other areas will include reinforcement of the six traits, reinforcement of the writing process, group and individual formal and informal presentations.

English 11 Resource

Course Code: ENR300A/B

Grade Level: 11	Length of Course: 1 Year	1 Credit
------------------------	---------------------------------	----------

This course is designed for students with special needs to further improve their language and reading skills as determined appropriately by the IEP team. Written and oral language will be emphasized, and job acquisition skills will be expanded. Other areas will include refinement of the six traits of writing, focus on novels, short stories and poetry, oral assignments, and communication.

Pathways Math**Course Code: PMA100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

Pathways Math is designed to develop knowledge and skills in the areas of numerical and algebraic concepts as described in a student's IEP and Arizona Academic Standards. The classroom environment is designed to enhance the behavioral/personal adjustment competencies necessary to provide a successful educational experience.

Pathways Social Studies**Course Code: PSO100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

Pathways Social Studies is designed to develop knowledge and skills in the areas of the United States, Arizona, and World History as described in a student's IEP and Arizona Academic Standards. The classroom environment is designed to enhance the behavioral/personal adjustment competencies necessary to provide a successful educational experience.

Pathways Science**Course Code: PSC100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

Pathways Science is designed to develop knowledge and skills in the areas of Biology and General Science as described in a student's IEP and Arizona Academic Standards. The classroom environment is designed to enhance the behavioral/personal adjustment competencies necessary to provide a successful educational experience.

Pathways Study Skills**Course Code: PSK100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course is designed to enhance the development of social and emotional skills and study skills necessary for students to be successful in the regular education curriculum.

Pathways Vocations**Course Code: PVO100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

Pathways Vocations is designed to develop knowledge and skills in the areas of occupational and job-related services as described in a student's IEP, Arizona Academic Standards, and specific transitional competencies. The classroom environment is designed to enhance the behavioral/personal adjustment competencies necessary to provide a successful educational experience.

Pathways Group**Course Code: PGR100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

Pathways Group is designed to develop knowledge and skills in the areas of social/emotional development, communication, and classroom behavior. Students learn how to interact with both peers and adults appropriately. The classroom environment is designed to enhance the behavioral/personal adjustment competencies necessary to provide a successful educational experience.

Academic Skills English**Course Code: AEN100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

In this course students will learn to read functional text, spelling, and learn vocabulary needed for basic independent living. Students will develop the skills to create their own resume, cover letters, thank you notes, and letters of introduction. Learning basic reading skills will help students to take a driver's test, read menus, and cooking instructions.

Academic Skills Mathematics**Course Code: AMA100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course includes mathematical organizational skills and functional survival skills for everyday living for maximum independence and success in the community setting. Student learning will have emphasis in basic math concepts for independent living and survival in the workplace. Focus will include checking/savings accounts, budgets, money and time management.

Academic Skills Science**Course Code: ASC100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

Academic Skills Science is designed to develop knowledge and skills in the areas of Biology and General Science as described in a student's Individual Education Plan and Arizona State Standards. The classroom environment is designed to enhance the behavioral/personal adjustment competencies necessary to provide a successful educational experience.

Academic Skills Social Studies**Course Code: ASO100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

Academic Skills Social Studies is designed to develop knowledge and skills in the areas of the United States, Arizona, and World History as described in a student's Individual Education Plan and Arizona State Standards. The classroom environment is designed to enhance the behavioral/personal adjustment competencies necessary to provide a successful educational experience.

Academic Skills Health/Safety**Course Code: ASH100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course provides specific instruction on how the body works and the importance of personal hygiene. Students will learn about the dangers and effects of drugs to their bodies.

Academic Vocational Skills Training**Course Code: AVT100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course is designed to expose the student to understanding the value of post high school occupations and provide information on different careers. Students will participate in their own career interest inventory and develop strategies to enter into the workplace.

Academic Community Independence Skills**Course Code: ACS100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course provides the skills to understand the elements of civic duty in today's society. Students will learn about the responsibilities of citizenship and the possibilities of their participation in the community. Crime will be discussed and how to protect oneself in independent living. Students will also learn about zip codes and how to use civic services.

Vocational Education Training (VET)**Course Code: VET100A/B****Grade Level:** 11, 12**Length of Course:** 1 Year

1 Credit

Prerequisite: Case Manager Recommendation*This course may be repeated for credit but not for grade change.*

This program will be offered to juniors and seniors who want to explore different kinds of jobs and volunteer work. The Vocational Education Training (VET) focuses on functional standards of workplace skills. Students enrolled in this program will explore and receive training in job readiness skills, domestic skills, office/clerical skills and social skills. This class will provide on-the-job coaching and volunteer opportunities in a variety of settings reinforcing the necessary skills to be employed in the workplace.

Life Skills English**Course Code: LEN100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course includes organizational skills, functional survival skills, with an emphasis on language/communication skills and reading needed for maximum independence and success in school, present and future community settings, and interactions with non – disabled peers and adults.

Life Skills Mathematics**Course Code: LMA100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course includes organizational skills and functional survival skills with an emphasis on basic math skills for everyday living for maximum independence and success within school and community settings. Focus may include comparative shopping, money, time, budget, wages, savings, and checking accounts.

Life Skills Health/Safety**Course Code: LHS100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course provides instruction in activities that increase a student's ability to function with semi-independence in their daily life, within their present and future environments. Activities may include safety, personal care, food preparation, and meal planning.

Life Skills Vocational Skills Training**Course Code: LVS100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

In this course students will be trained to learn basic skills necessary to enter the work world and understand the role that they play in their community. The class covers adjustments to and comprehension of tasks, response to directions, work quality, production, work behavior and attitudes and skills necessary to secure and hold employment. This class also provides job training in a variety of settings in the community.

Life Skills Community Independence**Course Code: LCI100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course provides opportunities for recreational/leisure activities within a community setting. Students will practice critical/functional skills in age-appropriate activities.

Life Skills Science**Course Code: LSC100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course provides an introduction to basic scientific concepts and the development of a relationship that humans have with their environment. Students will receive some hands-on experience in the content area including the development of models to represent these basic scientific concepts (such as the orientation of our planet system).

Life Skills Social Studies**Course Code: LSO100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course provides an introduction to important people, historical facts and events that have had influences in American and World History. As a tool to understand these events, students will create hands-on models illustrating some of these events.

Life Skills Adaptive Physical Education**Course Code: LPE100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course is for students who cannot fulfill the requirements of a regular physical education class because of physical limitations, injury, or medical conditions.

Life Skills Introduction to Art**Course Code: LAR100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course provides the introduction to basic music appreciation, drama, visual arts, and creative arts. Students will explore the arts by creating hands-on models of the arts.

Acting for Life/Inclusive Performing Arts**Course Code: THA110A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

*This course may be repeated for credit but not for grade change.***See Fee Schedule Page 12**

Theatre/Performing arts for students with exceptional needs. Students will learn to use the skills of an actor (speech, body language, movement, interpretation) in everyday situations. This course will align typical peers with students with exceptional needs. Students will work together to improve communication skills and confidence in social settings while enjoying the arts.

Unified Sports**Course Code: USP100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

This course is based on the Special Olympics Unified Sports Program. Unified Sports combines students with intellectual disabilities (athletes) and students without disabilities (partners) for sports training and competition. Unified Sports creates unique teammate bonds through sports experiences. These experiences create a culture of inclusion and foster understanding among students of all abilities. The sports include athletics, basketball, bocce, bowling, cheerleading, flag football, floor hockey, soccer, softball, tennis, and volleyball. Upon completion of the course, students will be able to identify specific rules, strategy, student diversity and health issues specific to a variety of sports and demonstrate proficiency in various movement forms. Students will have the opportunity to compete in Special Olympics Arizona Area and State Games. All students must complete appropriate medical and consent forms.

Passport English**Course Code: PEG100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

Passport English is designed to develop knowledge and skills in the areas of reading and written language as described in a student's IEP and Arizona Academic Standards. The classroom environment is designed to enhance the emotional/personal adjustment competencies necessary to provide a successful educational experience.

Passport Math**Course Code: PSM100A/B****Grade Level:** 9, 10, 11, 12**Length of Course:** 1 Year

1 Credit

This course may be repeated for credit but not for grade change.

Passport Math is designed to develop knowledge and skills in the areas of numerical and algebraic concepts as described in a student's IEP and Arizona Academic Standards. The classroom environment is designed to enhance the emotional/personal adjustment competencies necessary to provide a successful educational experience.

Passport Social Studies

Course Code: PSS100A/B

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
<i>This course may be repeated for credit but not for grade change</i>		

Passport Social Studies is designed to develop knowledge and skills in the areas of United States, Arizona, and World History as described in a student's IEP and Arizona Academic Standards. The classroom environment is designed to enhance the emotional/personal adjustment competencies necessary to provide a successful educational experience.

Passport Science

Course Code: PSN100A/B

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
<i>This course may be repeated for credit but not for grade change</i>		

Passport Science is designed to develop knowledge and skills in the areas of Biology and General Science as described in a student's IEP and Arizona Academic Standards. The classroom environment is designed to enhance the emotional/personal adjustment competencies necessary to provide a successful educational experience.

Passport Study Skills

Course Code: PST100A/B

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
<i>This course may be repeated for credit but not for grade change</i>		

This course is designed to enhance development of social and emotional skills and study skills necessary for students to be successful in the regular education curriculum.

Passport Group

Course Code: PGP100A/B

Grade Level: 9, 10, 11, 12	Length of Course: 1 Year	1 Credit
<i>This course may be repeated for credit but not for grade change</i>		

Passport Group is designed to develop knowledge and skills in the areas of social/emotional development, communication, and classroom behavior. Students learn how to interact with both peers and adults appropriately. The classroom environment is designed to enhance the emotional/personal adjustment competencies necessary to provide a successful educational experience.

East Valley Institute of Technology

Main Campus: 1601 W Main St, Mesa, AZ 85201 | (480) 461-4000
Power Campus: 6625 S Power Rd, Mesa, AZ 85212 | (480) 308-4600
Fountain Hills Campus 17,300 E. Calaveras Ave., Fountain Hills AZ 85268 | (480) 835-3100

Find us here:

<http://www.evit.com> | <http://facebook.com/EVITNews> | <http://twitter.com/EVITNews>

QCUSD students interested in attending EVIT programs should contact their school site counselor for more information. Families are responsible for application and communication with EVIT.

What is EVIT? The East Valley Institute of Technology (EVIT) is a public career and technical education school providing more than 40 occupational training programs tuition-free to district, charter school and home-schooled high school students who reside within the boundaries of 11 East Valley school districts - Apache Junction, Cave Creek, Chandler, Fountain Hills, Gilbert, Higley, J.O. Combs, Mesa, Queen Creek, Scottsdale, and Tempe.

Classes are offered at two campuses:

- Dr. A. Keith Crandell (Main) Campus, 1601 W. Main St.
- Power Campus, 6625 S. Power Road

Students spend a half-day at EVIT and the other half-day at their home high school. School districts provide bus transportation for their students to and from EVIT for most programs. Students must be at least 16 years old. Tuition-based programs for adults are also offered, with financial aid available.

EVIT's Mission

To change lives by loving our students and serving our communities with a career and college preparatory training experience that produces a qualified workforce, meeting the market-driven needs of business and industry.

EVIT's Vision

Students successfully complete their EVIT experience with industry credentials, college credit and hands-on training, allowing them to become competitive in the global workforce.

EVIT's Purpose

To empower and encourage our students to become productive and passionate about their future career and educational goals.

Business/Industry and College Articulation

EVIT offers many school-to-work options with participating businesses, including manufacturing, automobile dealerships, hospitals and many others. Advanced students may have opportunities in industry and community colleges in the form of job placement, apprenticeships, internships, cooperative education and college credit articulation.

Career & Technical Student Organizations

All EVIT students participate in a CTSO – a Career & Technical Student Organization. Membership in state and national clubs is encouraged:

- FCCLA Family, Career, and Community Leaders of America
- HOSA Future Health Professionals
- SkillsUSA Technical, skilled, and service careers

When do students register?

Students are encouraged to apply for EVIT programs as soon as our online registration opens, which is November 1, 2025, for the 2026-2027 enrollment. EVIT places students in a class on a first come/first served basis. Students that have all required documentation will be scheduled into a class if they meet the requirements and are accepted into the program. Once the class is full, students will be placed on a waiting list. Each high school has at least one designated counselor with materials and information regarding EVIT registration. For more information, call 480-461-4000 or visit www.evit.edu.

What is needed to register?

High School students will need a copy of their transcript, discipline record, and immunizations records. If the student does not meet minimum program GPA requirements, a student may submit the results of a recognized standardized test such as the ACT and AZSci. For any students attending a school outside of our 11 school districts, proof of residency and proof of age is required.

How many credits can be earned?

A high school student can earn 3-4 credits per year at EVIT applicable toward graduation requirements in their home district. Students who miss ten (15) days or more during a semester and are unable to make up those days will receive a grade of "Audit" for the semester. Students who fulfill the graduation requirements from their home district earn a diploma from their home high school. Community college articulation and/or dual enrollment credit is in place for high school students in designated courses.

Do the high school academic credits from EVIT just count as electives?

Generally, credits earned at EVIT fulfill only elective credit requirements for graduation. EVIT does offer Arizona Board of Regents (ABOR) approved embedded credits for specific programs. These credits are recognized and accepted at all Arizona universities as part of the entrance requirements. For the year long course, students earn one (1) lab science credit and two (2) elective credits for a total of three (3) credits. EVIT staff are working to get other EVIT program courses recognized as fulfilling core academic graduation requirements. Please check with your high school for specific information and acceptance of embedded credit.

What time are classes?

Classes meet Monday through Friday from 8:00 a.m. to 10:35 a.m. or 12:00 p.m. to 2:35 p.m. Students have the option of attending the AM or PM session. They attend their home school during the other portion of the day. The class times for some programs, such as Aesthetics, Cosmetology, Barbering and some medical programs may be extended to meet state certification requirements. **Transportation to/from extended hour classes may not be provided by your district. Please check with your home school if transportation is needed.**

Are there fees?

EVIT is tuition-free for high school students. Class fees vary by program and are based on the cost of required tools, supplies/materials, certification/licensure exams and career and technical student organization (CTSO) membership.

EVIT High School Programs by Campus

Note: Program offerings are subject to change or adjustment based on a variety of factors, including student enrollment.

Certificate Programs	Campus
Aesthetics	Main & Power
Aircraft Mechanics (NEW Program for 25-26)	Power
Automotive Technologies	Main
Aviation	Power
Barbering	Main
Collision Repair	Main
Commercial Baking	Main
Construction (<i>Offered at QCHS</i>)	Main
Cosmetology	Main & Power
Criminal Justice	Main
Culinary Arts (<i>Offered at QCHS</i>)	Main
Dental Assisting	Main
Diesel Technologies	Main
Digital Animation	Main
