Kristen Haenelt, School Nurse
haeneltk@nvnet.org

Dear Parent/Guardian,

Welcome to Hillside Elementary School!

My name is Kristen Haenelt and I am happy to be your school nurse at Hillside Elementary School. I'd like to welcome you personally and I look forward to a wonderful and healthy school year. Please know that if I can be of assistance to you, you can reach me at (201) 768-3860 x. 41121 or by email at haeneltk@nvnet.org.

NJ Administrative Code citation 8:57 to 8:57-4.20 mandates each student meet certain requirements when entering a New Jersey school. These requirements are listed below in order to make your child's entry into the Closter School District as easy as possible. Please complete the forms below and return them to the nurse before your child begins school.

Please notify the nurse if you have any questions or concerns regarding your child's health status.

Thank you for your cooperation!

Health Assessment Requirements for Entry into Hillside Elementary School

Entrance physical examination: Within thirty (30) days of entry, every new student must have a current physical examination on file. The attached form ([link](#)) or a universal health record (located in the forms section of this page) from the pediatrician may be used. These exams are valid for one year from the date on the exam.

Immunization records: If you are transferring from another New Jersey school, these current records **must be provided upon entry**. If you are transferring from out of state or out of

country, you will have thirty (30) days to present these records. If this requirement is not met within the time allowed, your child will be **EXCLUDED** until these records are received.

All students who are entering **pre-K** are required to have an annual dose of the **Influenza Vaccine**. Students who have not received the flu vaccine by December 31st must be excluded from school for the duration of the influenza season (through March 31st) or until they receive one dose of the flu vaccine.

Mantoux (PPD) testing: Students transferring or born in certain countries with a high incidence of tuberculosis as deemed by the state will be required to have a Mantoux (PPD) skin test for tuberculosis. You may have this test done by your private physician.

THESE FORMS MUST BE COMPLETED AND RETURNED TO THE SCHOOL NURSE WITHIN THE DESIGNATED TIME FRAME. THANK YOU AND WELCOME TO CLOSTER!
