DISTRICT OFFICE

2:45 PM – 3:30 PM

Pregnant Women (with written authorization from PCP) and minor dependents limited to flu shots only,

Vaccines provided this year:

■ **Influenza** (FLU) Quadrivalent

Due to COVID 19 related supply, the vaccines below may or may not be available at your clinic. If interested in receiving any of them, ask the clerical staff about availability at that clinic.

- **COVID 19 with newest XBB variant, (based on CDC recommendations)**
- **Tdap Tetanus/Diphtheria and Acellular Pertussis (whooping cough)**
- **Pevnar 20 18-64 y/o ONCE in Lifetime provides additional coverage, Recommended if previous Pevnar 13**

Immunizations other than Influenza (flu) may be available in limited supply

Payment: No cost to eligible employees/dependents covered under United Healthcare, Medicare or BCBS

Insurance ID is required to receive a vaccine

- Flu Shot vendor will also accept: Medicare (Flu/Pneumonia only), and some Districts Flu only
- Claim filed for member. *Claim filing does not guarantee coverage*
- ✓ No Insurance? No problem.
- ✓ Cash Price: Flu \$60.00 Quadrivalent,

Why are flu shots important in 2023?

- Because of the COVID-19 impact on the need for hospital beds, the seasonal influenza adds additional need when beds are scarce.
- **Don't be deceived by the low number of flu cases in 2022**, remember,
 - More people were vaccinated
 - Mask coverings were in place
 - Handwashing was encouraged
 - Social distancing was practiced

Who should receive a flu shot?

- **Everyone 6 months or older**
- **People at high risk for serious flu complications**
- **This includes young children, pregnant women**
- **Those with chronic medical conditions**
- **Anyone who wants protection against the flu**
- **Those caring for immunocompromised persons**
