

# Story School at Littleton Family Welcome Center

## Make Way for Books at LESD#65

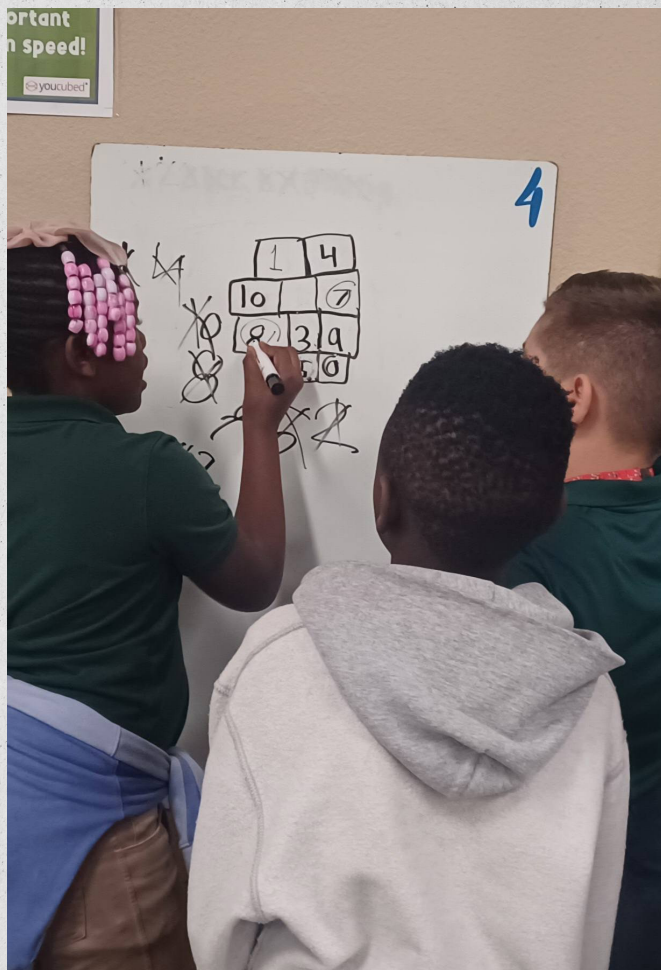

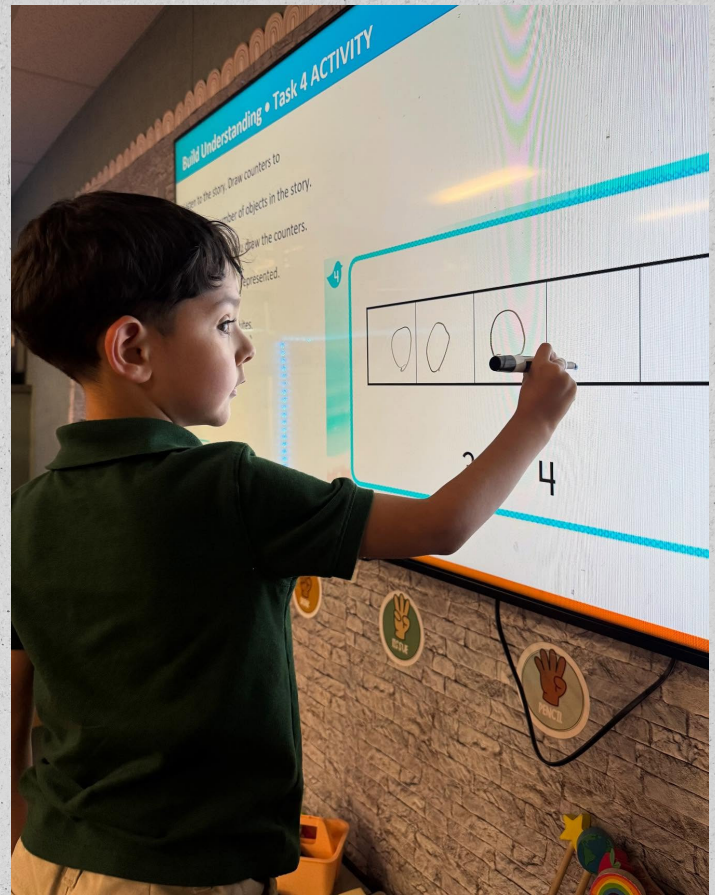

Story School just started and it's a program where families with children (ages birth to five) read, learn, play, and grow together while building lifelong literacy skills. Families receive up to 22 free books for participating.

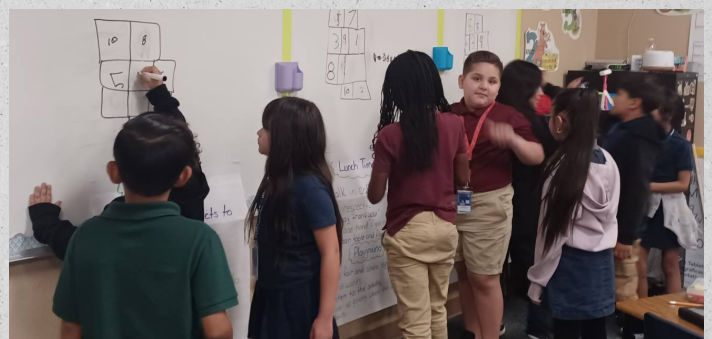

## Collier

Students in Ms. Canales' class are exploring the new math curriculum, HMH Into Math. They're using five frames to help represent numbers.

## Country Place

Discovering the secret to being a good team player without losing your cool is a vital skill. Ms. Hill's 3rd grade class recently participated in a math challenge to practice their teamwork skills. Students did a fantastic job of sharing ideas and listening to each other respectfully. They're excited to keep working on their collaboration skills.

## Estrella Vista

This week, the kindergarten classes were engaged in various activities. Mr. Bryant visited Ms. Hernandez's class for a reading session. Meanwhile, Ms. Sauer's class explored the importance of forming new friendships and utilized their five senses to make a friend for Mr. Hawk as part of their STEM Alphabet. We all know the importance of these skills when socializing with others.

Mr. Sanchez's 8th grade Physical Education class is soaring high this year! The Falcons are learning the importance of teamwork, perseverance, and staying active while having fun. Keep up the great work. Falcons. The sky's the limit!

## Freeman Fine Arts

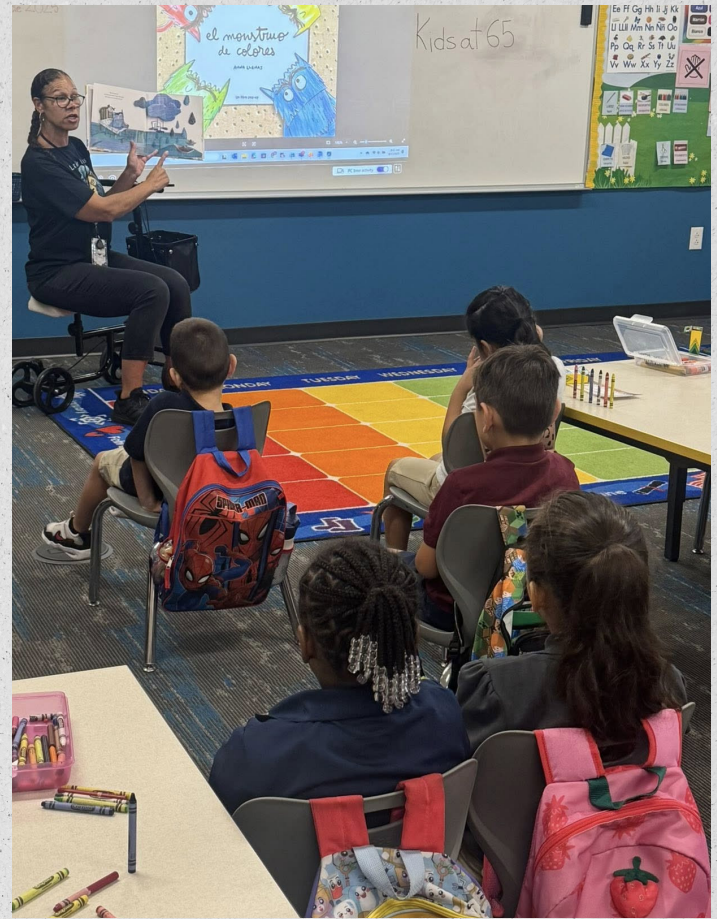

The youngest Falcons have soared through their very first project! Ms. Thompson's kindergarten class had a wonderful time in Ms. Walla's art room, exploring colors in a creative new way. Using Bingo Daubers, they painted bright and imaginative pieces inspired by The Pigeon HAS to Go to School! by Mo Willems. We are so proud of their hard work and excited to see their love of learning and creativity take flight!

## Lakin Prep

Lakin's kindergarten classes were visited by our social worker, Ms. Bowden, to explore the world of emotions! They laughed, shared, and let go of any sadness, making room for joy. It was a beautiful moment of learning to understand and care for our feelings.

## Littleton STEM

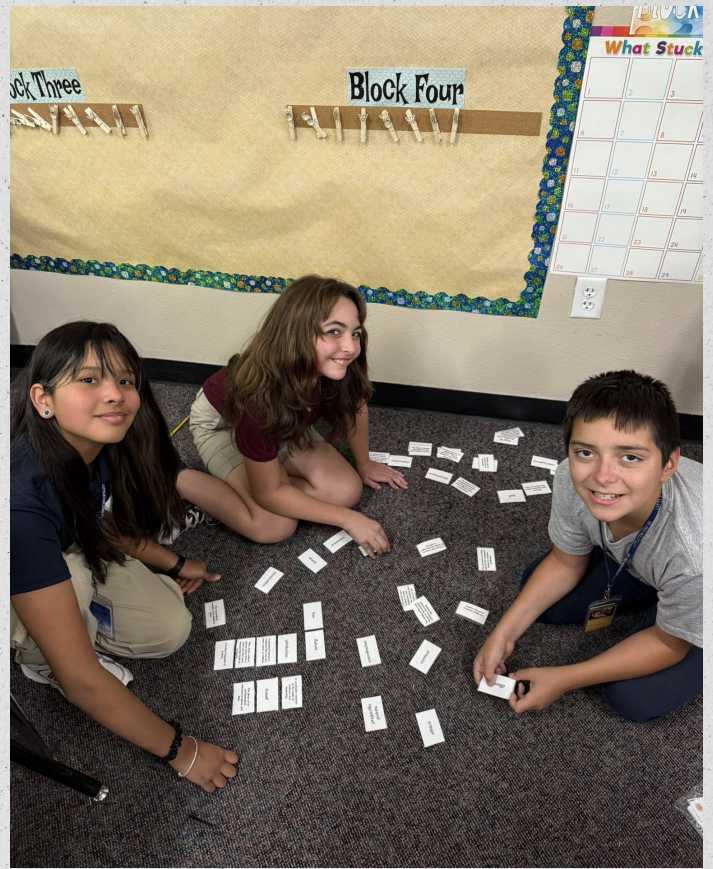

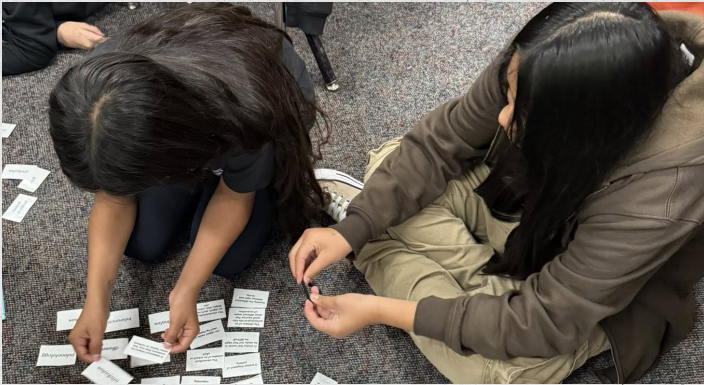

Check out our incredible art teacher, Ms. Brown, as she shares her passion and sets exciting art expectations with our 3rd grade Firebirds!

## Quentin

6th Grade Sharks in Ms. Stultz's Social Studies class rocked their introduction to the archaeology vocab activity today! Keep practicing those key terms to prep for unearthing the past.

## Tres Rios

The Tres Rios F. L. A. G (Fly, Lower, And Gather) Club is where students learn the importance of flying the United States Flag at school.
