Littleton Elementary School District #65
2026 BOND FACT SHEET

Election Date: Nov. 3, 2026

The Governing Board of the District passed and adopted a resolution calling a bond election to authorize the issuance and sale of not to exceed $95,000,000. This election is being held to provide funds to replace, repair and renovate facilities. The bond election will also support purchasing of pupil transportation, furniture, technology and other materials for instructional purposes.

The average tax rate for the proposed bond authorization is $0.69 per $100 of net assessed limited property value.

Why is the District holding the Bond Election?

The measure would provide funding for facility construction, acquisition, renovations, and site improvements, as well as pupil transportation vehicles, furniture, equipment, and instructional technology. Current state and formula-based capital funding is limited, with additional support for major renovations, new construction, and replacement buildings generally available only under specific conditions.

What happens if the Bond does not pass?

Without additional Bond funding, the District may be unable to address aging facilities, expand capacity for future growth, or complete important campus and infrastructure improvements. Some projects may need to be postponed, reduced in scope, or reconsidered in future planning efforts.

Primary Focus Areas of the Bond Election

Renovation of Littleton Elementary School

Purchase of pupil transportation vehicles

Purchase furniture, equipment and technology for instructional purposes

Maintenance, improvements, and renovations to school facilities, including security enhancements, and facilities upgrades.

Examples of how the Bond would be used

BUILDING IMPROVEMENTS

Roof repairs and replacement
Safety renovations
Energy-efficient HVAC systems
Eco-friendly school restrooms
Security fencing
Shade structures
Flooring (tile/carpet/concrete)
