

# Littleton Elementary School District's GOOD NEWS

FRIDAY  
May 09, 2025

LEADERS IN LEARNING, CARING AND GROWING

## Creating a Business From the Bottom Up

The 4th graders had been working for the past month to create a business and design, build, and mass-produce a product that other students would eventually buy using fake money. They created written advertisements and also filmed commercials promoting their product. Today at the outdoor market, 4th grade students got a chance to buy each other's products using the fake money we provided.

## Leadership Day!

Our students were proud to showcase their leadership skills, share their accomplishments, and demonstrate what makes our school community so strong. Your engagement helps inspire them to grow into confident, capable leaders of tomorrow. We couldn't have done it without you—thank you for being part of this meaningful day!

## A Successful Water Drive by NJHS

Thank you to those who donated water to our annual NJHS water drive! With your support we were able to donate 4100 bottles to Phoenix Rescue Mission. The water bottles will be given to members of the unhoused population during the summer to help provide some relief during our hot summer months.

## "A Treat for the Eyes" Art Show

Guests enjoyed a stunning display of student artwork, delicious offerings from nine local food vendors, fun face painting, and unforgettable performances from our cheer team and the Ballet Folklorico group. A big thank you to our Student Council for leading the bracelet making station. A very special thank you goes to Ms. Walla, our incredible Art Teacher, for her passion, vision, and dedication to bringing this event to life!

## Annual World Fair

On Friday, Lakin's students and families came together to celebrate our annual World Fair, a vibrant showcase of cultures, traditions, and global learning. Each classroom represented a different country, filled with colors, sounds, tastes, and stories that brought international experiences to life.

## Read Better Be Better Students

Littleton STEM celebrated your hard work and dedication of our Read Better, Be better students! This is just the beginning of an exciting journey ahead. Embrace the future and shine bright!

## Using Our Creative Abilities

As the year comes to an end, students continue to practice their name, writing and new letters they may or may not know yet along with letter sounds.

## Celebrating Teacher of the Year!

Quentin is thrilled to celebrate our Westside IMPACT Teacher of the Year! Her dedication and passion for teaching inspires us all. Congratulations Ms. Halmrast!

## Kids at Hope Assembly

Friday Tres Rios had their Kids at Hope Assembly, celebrating their amazing kids!

## A Time to Celebrate!

As the year starts coming to an end, the celebrations begin; from Teacher of the Year Award to School Lunch Hero and many more!
