

# Littleton Participates at Billy Moore Days Event

**It was a weekend filled of fun and community.**

LESD #65 was proud to participate in the annual Billy Moore Days celebration, showcasing our school spirit and connecting with the community at this cherished local event.

## Collier

In Ms. Garrett's first grade, students were making spider math facts! Each student was given a number and wrote math facts on the spider's legs that equaled their number. They loved this fun and spooky math activity!

## Country Place

Effective leaders are always prepared for emergency situations. Our Mustangs participated in bus evacuations and learned how to respond in case of an emergency on the bus. We are proud of our leaders.

## Estrella Vista

Estrella Vista's 6th-8th graders had a blast at the Fall Dance with great music, lots of laughs, and memories made!

Ms. Valdez's first graders did such a fantastic job on their mixed media painted pumpkins! Each pumpkin is bursting with creativity, color, and imagination, from bold brushstrokes to unique textures, these young artists really brought the fall spirit to life! We're so proud of their hard work and artistic expression here in Ms. Walla's Art Room. Great job, first graders!

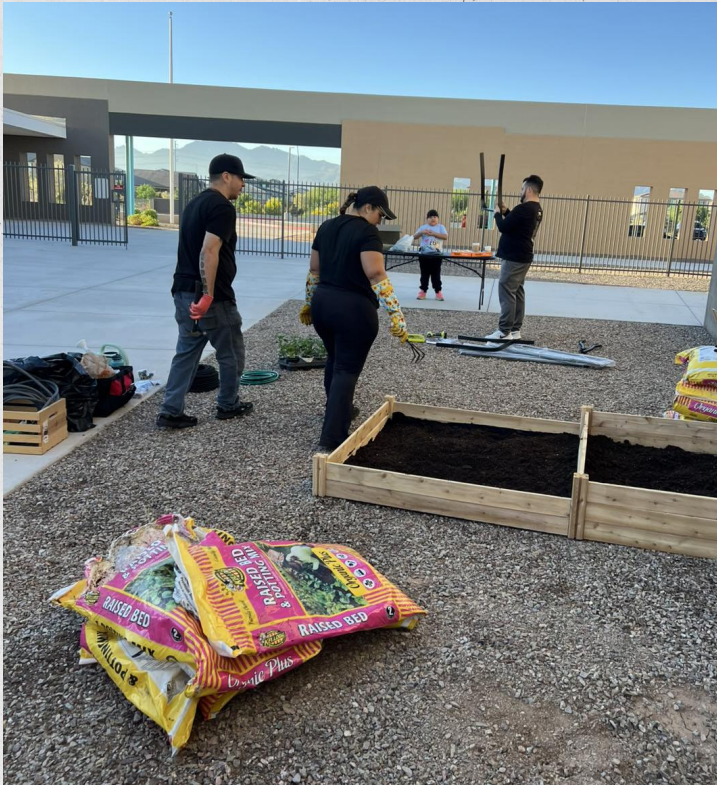

## Freeman Fine Arts

We've had an amazing two days of tryouts, so much talent, energy, and hard work on display! Today marks our final day before teams are decided, and we couldn't be prouder of everyone who has shown up and given their best effort. Good luck to all our athletes, finish strong and have fun out there!

## Lakin Prep

Our learning expanded beyond our students over the weekend as we held our first garden club!

They constructed some raised garden beds where they planted some veggies and herbs. Check them out near the 400 building! Can't wait for another fantastic week of learning!

## Littleton STEM

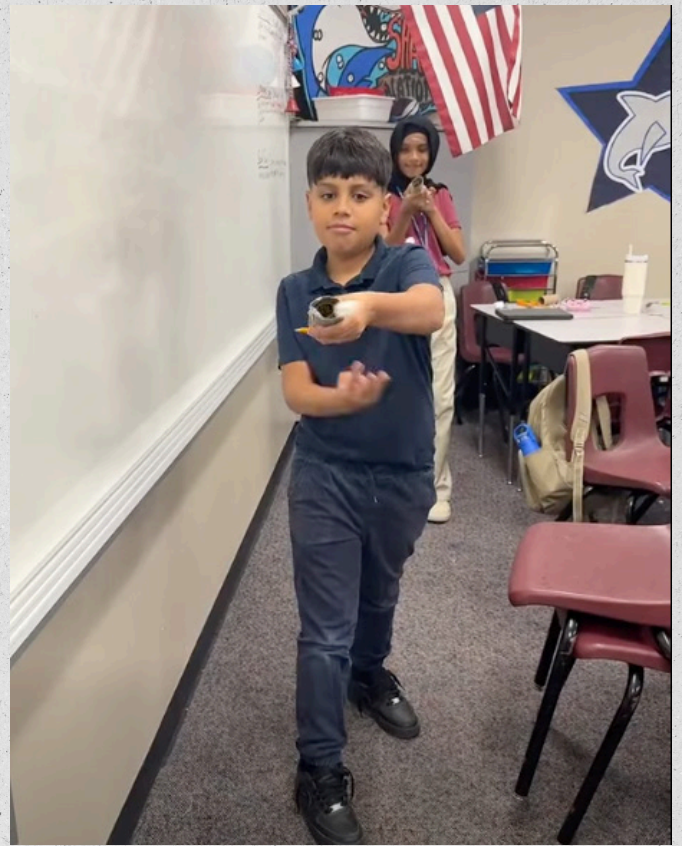

Love Our School Day was a success!  
Now our EPIC Firebirds have some new sensory paths on the playground!

## Quentin

Mr. Ortiz's 5th grade class is launching into greatness and having a blast (literally!) with their cotton ball launchers. Go Sharks!!

## Tres Rios

The Arizona Bureau of Agriculture came to visit our K-2 Pumas. They listened to the story Pumpkin Jack and created a pumpkin wheel about the life cycle of a pumpkin in our Service Learning Lab.
