

Love Our Schools Day!

Saturday, October 24 8am to 1pm

This project is about much more than beautification. Our students deserve spaces that communicate that they matter. After working to transform what happens inside our classrooms, we are ready for our physical environment to reflect the pride our students and staff have built together.

We need your help!

On **October 24, Western Valley Middle School** will revitalize two important student spaces: our recess/athletic field and our central courtyard.

What is Love Our Schools Day?

Love Our Schools Day is a statewide school project day when students, volunteers and organizations roll up their sleeves to make a difference at their local school!

Would you or your organization like to volunteer?
